These are companion articles that discuss forgeries of the 1883 surcharges on Giro stamps using the 50c value as the focus since it was the most widely used and abused denomination. The first article consists of a three page introduction, with one page illustrating the five types of overprints used on the genuine stamps. The second article is a three page listing describing the characteristics of the genuine overprints followed by a description of the characteristics of one Type I forged overprint and four Type IV overprints. The second article contains no illustrations. The last page is a brief bibliography.

Bibliography of 1883 Surcharges by Ernesto Cuesta

This piece comprises several segments, some with sub-headings, some without. The first segment is titled “Cuba 1833”, but should have read 1883 because it refers to two loose photos which are included in the journal showing full sheets of the 5 and 10 cent 1883 surcharged stamps with double surcharges [the sheet on p.86a is currently in my collection; it was purchased as part of lot 336 of the Soler y Llach auction of 14 Dec 1995]. The segment observes that in many cases the double surcharges of this issue present different intensities in the inking of the two surcharges and states that this is a normal occurrence and that such double surcharges should be considered genuine. The second segment is titled “Rarezas de Cuba” (“Cuban Rarities”) and reports, among other things, the existence of several 1883 surcharged telegraph stamps with inverted and double surcharges.

Philatelic reminiscences and anecdotes from Cuba by this longtime dealer son in turn of dealer Alfredo Cano covering the period when he was active in Cuban philatelic circles. Mentioned are a block of 86 stamps of the perforated Aerial Train with double surcharges (Scott C16a), a complete set of blocks of four of the 1910 inverted centers (Scott Nos. 239a, 240a, 244a, and E4a), **the 1883 surcharges commonly referred to as "Arabesques" (Scott Nos.106-120)**, a block of four of Scott 226A (Type II). This is followed by an explanation of why the sheet centers of the 1936 Matanzas perforated and imperforated issues are so rare and mention of the existence of ACNU sheets of 4 (Scott C33) with red and blue surcharges. The piece is also full references to Cuban philatelists and many anecdotes that relate to them.

Catálogo Especializado de Sellos de Cuba (Specialized Catalog of Cuban Stamps)

Madrid, Spain: EDIFIL, S.A.; 1st edition 1997; 341 numbered catalog pages preceded by several unnumbered pages, including title, publication, and introduction pages, several pages of advertisements, and three pages of guidance in the use of the catalog. A brief section index is included at the back of the catalog. Profusely illustrated; priced in Spanish pesetas; text in Spanish. The catalog builds upon <EDIFILc>, but is so much more specialized and improved that it bears no comparison with those predecessors. This catalog is also identified as <EDIFIL9700> in this bibliography. EDIFIL hired Carlos Echenagusía García, Cuban philatelic expert and designer of numerous stamp issues of the Castro Government, as a consultant editor for the production of this catalog. Mr. Echenaguía continued in this role for the production of subsequent improved and expanded editions of Edifil specialized catalogs of Cuban stamps listed as <EDIFIL9802>, <EDIFIL0200>, and <EDIFIL0500>. References to Cuban forgeries of the stamps listed are included throughout.

(Specialized Catalog of Cuban Stamps, 2002 Edition, Volume I: 1855-1996)

Editor: Carlos Echenagusía García

Madrid, Spain: EDIFIL, S.A.; 2002 Edition, Volume I covering the years 1855 to 1958 only; 16 pages with roman numerals, including title, publication, and introduction pages, several pages of advertisements, three pages of guidance in the use of the catalog and five pages with an overview of Cuban postal history; followed by 256 regularly numbered pages of catalog listings. Topical and genera indexes are included at the back of the catalog. Profusely illustrated in color; priced in Euros; text in Spanish. EDIFIL also hired Carlos Echenagusía García, Cuban philatelic expert and designer of numerous stamp issues of the Castro Government, as a consultant for the production of this catalog.

The catalog builds upon <EDIFIL9700>, expanding the coverage of all sections but eliminating coverage of the Castro era issues for separate publication. All sections carry additional information on errors and varieties. In the Spanish Administration period plating information is provided for some of the platable early issues, the 1860 Y ¼ surcharges and the 1883 surcharges, and prices for blocks and stamps on cover have been added. The U.S. Administration period has also been expanded with additional detail and illustration of military station cancels. In the Republican period, pricing for blocks and covers of the early issues is also provided along with pricing for sheet center blocks and FDCs of the later issues. The back sections of the catalog comprising postage due stamps, semi-postal stamps, postal tax stamps, telegraph stamps, postal stationery, and stamps for officially sealing opened mail have been expanded considerably and a new section on Cuban first flights has been added. References to Cuban forgeries of the stamps listed are included throughout.

New Jersey: Jacques C. Schiff, Jr., Inc., 136th Public Auction Sale, 21-23 Nov 1981, Cuban lots #2031-2125, ill.

This sale contained a substantial holding of Cuban material from the collection of George A. Peterson, Jr., among them a collection of 1883 surcharges (lot #2043); a collection of mint stamps, blocks of four and FDCs of the Republic (the bulk of which were lots [2079](#), [2082](#), and [2083](#)); a collection of officially sealed stamps (lot #2094) and a collection of Cuban slogan cancellations ([lot #2098](#)) that I bought at the auction. Before incorporating these collections into my own, I photocopied them and have scanned them and are available in PDF format.

Unfortunately, my photocopier was not working well at the time and some of the images are very faint, but they give an overall picture of the extent of Mr. Peterson's collection. The collection of 1883 surcharges in particular, was the basis of Mr. Peterson's article titled "The Cuban Surcharged Issue of 1883" that he published in CSJ, Vol.13, No.25, 7 Apr 1941, pp.400-402 (see [<PETEG4104>](#)).

"A Cuban Study"

WPG, Vol.41, No.19, WNo.1262, 12 Jan 1946, pp.490-491, ill.

Good study of the surcharged Giro revenues of 1883. The article notes the existence of only four types of surcharges applied to the regular 1882 bistre Giro stamps, similar to the surcharges applied to the regular postage stamps but with the value in the center replaced by a core of facing semicircles. One interesting item in the article is the mention of the existence of a pane of the stamps in the possession of the author from which he deduces that the setting for the surcharges was done in groups of 50 consisting of 5 rows of ten stamps. The author illustrates the setting of the 50 surcharges in the article. It is not clear, however, whether the pane in his possession is a pane of 50 or 100 stamps--if it is a pane of 100 it would have been key to state that the setting repeated in the bottom half of the pane. The article mentions that the surcharges are apparently symmetrical in the four cardinal directions but with minor variations which can be identified upon careful examination. This assertion is incorrect because the symmetry only exists in two directions, the surcharges being rectangular, not square. The article goes on to note varieties in the printing of the four denominations of the surcharges consisting of missing or broken letters or numerals. Another interesting observation is that it appears that the surcharges were printed separately from the word GIRO above them and the values of the surcharges below them.

Included in the auction were major rarities from the Samuel Israel Collection of Cuba and Puerto Rico which Mr. Israel donated to the Philatelic Foundation of New York (probably in the mid 1930's). The material in this sale was withheld because of its rarity and value as reference material for expertization purposes when the bulk of the Israel Collection was sold at auction by the Foundation through Harmers of New York in January of 1980. See <[HARM8001](#)> for details of that sale and <[ISRA????](#)> for further details of the contents of the Israel Collection. The Siegel sale included 48 lots of Spanish Administration issues, 36 lots of U.S. Administration issues, and 22 lots of Republic issues, plus 3 lots of stamp and cover accumulations. Among the Spanish Administration rarities in the sale were Scott Nos. 5, 7 (3), 8 (one of 3 known), and 15 all on cover, and a combination cover with 15 and 15a sent to Puerto Príncipe; a vertical pair of Nos. 6 and 8 (unique and one of the greatest rarities of Cuban philately); and 2 sheets of the 5c. and one of the 10c. 1883 surcharged stamps. Among the U.S. Administration rarities were Puerto Príncipe surcharged stamps Scott Nos. 179G, 197 Pos. 3 tied on cover, 214 Pos. 4 tied on piece, 218a Pos. 3, 219a Pos. 1, 219b Pos. 3 "eents" error, 219c Pos. 3 "eents" error inverted surcharge, and three 220a Pos. 4. Also offered were Scott No. 226A and small die proofs 227P2-231P2 and E3P2. Among the Republic period rarities were Scott Nos. 239a, 239a unused horizontal strip of 3, 240a, 244a, and E4a inverted centers; 3 lots of Chambelona overprints; and 1-10c. Máximo Gómez imperforate set. Beyond the illustrations in the catalog, photocopies of the material sold at auction may be available at the library of the Philatelic Foundation.
