"Counterfeits of Puerto Príncipe Surcharges"

AJP, Vol.12, No.5, 1 May 1899, p.218.

Report of a "liberal supply" of counterfeits of the Puerto Príncipe surcharged stamps in the market. Advises collectors that the differences between the genuine and the counterfeit is "more in the character of the impression than in the surcharge itself and accurate knowledge of the genuine varieties is required in order to distinguish the real from the false". Also mentions that the counterfeits occur with both genuine and forged cancellations.

Overview of salient facts and characteristics of the Puerto Príncipe stamps corresponding to the first, second, third and fourth printings, including numbers of each denomination printed. Note that no mention is made in the article about a fifth printing and that what is described in the article as the third printing, is currently known to be a fourth printing. Known errors and varieties are also described. In general the article contains varied and interesting information, but the reader must understand that available information at the time was limited and considerable additional information about this issue has appeared and its study is continually evolving.

"Puerto Príncipe"

MK, Vol.17, No.18, WNo.644, 2 May 1903, p.177.

A rather in depth report on counterfeits and counterfeiters of the Puerto Príncipe surcharges, indicating that there are three counterfeiters well known among local collectors and the civil authorities in Puerto Príncipe, but fails to identify them by name. The report also details the method of distribution of these counterfeits in the U.S. market. Mr. Andreini states that he has interviewed the printers of the original stamps and provides assurance that none of them are involved in the counterfeiting and have not sold the types used in the production of the original surcharges even when offered considerable sums of money for them. Details of the process used to print the surcharges are also provided to drive the point that their counterfeiting would be quite hard to accomplish. The article also identifies by location and name of the owner the main collections of genuine Puerto Príncipe surcharges that are known to exist and identifies whether the author has verified in person their existence. The places mentioned are Puerto Príncipe itself, Santiago, Habana, and the U.S. The article ends by pointing some rarities of this issue in a couple of U.S. collections.

Refutation of the the allegations made by Emilio J. Power in <[POWE89906](#)> that the Puerto Príncipe surcharges were speculative and not postally valid. Power alleges in his piece that all remnants of the 1896-97 stamp issue were returned to the main office of the Banco Español de la Isla de Cuba in Havana and were thus not available for surcharging. Barreras refutes this by citing a document in his possession from the Director of the Puerto Príncipe branch of the bank stating that the bank had sold a number of these stamps to the U.S. Commander General in Puerto Príncipe. (A confusing fact in Barrera's citation of the above document is that the only stamps that he mentions as taking part in the transaction are those of the 1896-97 issue--he doesn't mention the stamps of the 1898 issue that were also included in the transaction). The second part of the article is in response to the discrepancies noted in <[AJP89908](#)> between the Puerto Príncipe stamp facts and listings provided in <[AJP89907a](#)> and in <[BARR89907](#)>. Barreras notes that the 5c. on 2m. orange brown stamp was not listed by his source in Puerto Príncipe and was thus absent from his listing, and that he had reported the existence of 3c. on 4 and 8m. blue green stamps because he had been told that all the milésima stamps of the issue had been surcharged. Power subsequently responds to this article in <[POWE89909b](#)>.

This article provides a general historical overview and rationale for the creation of these provisional surcharged stamps in the city of Puerto Príncipe, currently Camagüey, shortly after its occupation by U.S. troops at the end of the Spanish-American War while waiting for the U.S. stamps surcharged for use in Cuba (Scott 221-226, E1) to arrive from the U.S. The article then goes on to describe each of the five printings of these stamps in detail and also provides information on their rarity, cancellations used, format in which they are usually found (singles, pairs, strips, frequently on piece, rare on cover), warns of the numerous forgeries circulating in the marketplace, and provides tips to prospective collectors on collecting these issues properly.

"Variedades" ("Varieties")

CA, 3rd Epoch, Yr.2, Nos.4-5, Apr-May 1901, pp.86-93 and two unnumbered pages of photos (corresponding to the first segment in the article) which I have labelled pp.86a and 86b in my files. The article is in Spanish. This piece comprises several segments, some with sub-headings, some without. The first segment is titled "Cuba 1833", but should have read 1883 because it refers to two loose photos which are included in the journal showing full sheets of the 5 and 10 cent 1883 surcharged stamps with double surcharges [the sheet on p.86a is currently in my collection; it was purchased as part of lot 336 of the Soler y Llach auction of 14 Dec 1995]. The segment observes that in many cases the double surcharges of this issue present different intensities in the inking of the two surcharges and states that this is a normal occurrence and that such double surcharges should be considered genuine. The second segment is titled "Rarezas de Cuba" ("Cuban Rarities") and reports existence of the following great Cuban rarities: two used Scott 222c (inverted surcharges) with Havana cancellations, one each Scott 221 and 226 with "Xc. de PESO" in the center of the stamp and another two of the same values with "Xc. de PESO" at the top and "CUBA" at the bottom, a 4 pta. 1877 telegraph stamp in green, two sheets of the 1 pta. 1874 telegraph stamp in the same color as the 2 ptas. value of the same year, and several 1883 surcharged telegraph stamps with inverted and double surcharges. The following segment is titled "Tres Variedades de Y 1/4" ("Three varieties of Y 1/4") and is a follow-up on the Y 1/4 discussion in <CA90101> reiterating that there exist three types of these surcharges on five different stamps. This is followed by an untitled segment reporting the receipt of a letter from the author of the article in the Chilean journal that started the discussion of the existing types of these surcharges alleging that he has been misunderstood. Another untitled segment follows reporting the free-franking privileges given by the U.S. Government to General Máximo Gómez upon his arrival in Havana in February 1899 and describing an envelope printed for this purpose (but not used). The next three titled segments don't deal with Cuban philately. The next segment is titled "El Correo de Cuba" and is a brief notice about the recent demise of that weekly philatelic journal published in Havana. This is followed by two untitled segments. The first one identifies several varieties found in a full sheet of newspaper stamp Scott P25 and states that one of the varieties described also occurs in Scott P13 and P19; it also identifies several varieties of Scott P23. The second untitled segment reproduces a listing of all stamps and postal stationery issued by the U.S. Postal Administration for use in Cuba since January 1, 1899. This listing includes quantities issued. These segments are followed by two titled segments that deal with non-Cuban philately. The segment that follows is titled "Retouques a los sellos de las islas de Cuba y Filipinas de 1882" ("Retouches of the 1882 stamps of Cuba and Philippines") and describes three retouches of Scott 103 corresponding to Scott 125 and 126--the second retouch described falls between these two but seems to correspond more closely to Scott 125. Another titled non-Cuba segment follows, followed in turn by another untitled segment referring to an article in Le Timbrophile Belge reporting that some European catalogers vouch for the existence of four Cuban postal cards that are unknown in Cuban philatelic circles. After another titled non-Cuban philatelic segment, a segment titled "Sin perforar" ("Imperforate") discussed the cataloging and pricing of some Cuban imperforate stamps of the Spanish Administration and concludes that they are proofs, whether issued in the same color as the issued stamps or not. The final segment is

a quite long segment labelled “Puerto Príncipe” which discusses details and known facts about the various printings of these issues, including quantities of stamps printed and authenticity issues.

Historical background that led to the surcharging of the stamps known as the “Puerto Príncipe” stamps. The name “Puerto Príncipe” comes from the fact that the stamps were surcharged in the city of Puerto Príncipe, capital of the province by the same name, both of which today are known as Camagüey. After the evacuation of the Spanish troops from the city of Puerto Príncipe, the Bank of Spain continued to sell Spanish Administration Cuban postage stamps, which led to protests in the press. It is said that it was Cuban General Lope Recio Loinaz, appointed Governor of the province of Puerto Príncipe, who proposed to U.S. Intervention General Carpenter the idea of surcharging the current Spanish stamps so that they could be officially sold by the intervening government. The details of the entire process until the completion of the project are provided, including the dates, quantities, and stamps used for each of the five printings.

“El expertizaje o peritación de sellos. Estudio de la emisión de Puerto Príncipe 1898-1899”

[RF](#), Yr.XXX, No.300, Nov 1994, pp.1, 3-15 (14 pages total; p.2 is blank), ill., Span.

Included as a separata with individual page numbering in the center of the magazine.

Detailed study of the Puerto Príncipe issue intended as a guide for the expertization of the five printings of the surcharges that comprise the issue. The article provides a brief historical background of the circumstances that led to the surcharging of the stamps, followed by an overview of the known facts about each printing, and ending with a detailed presentation of the identifying characteristics of each printing and of each surcharge position within each printing. The salient characteristics of the surcharges of each position are clearly described and illustrated. This is an excellent succinct reference for the expertization of this issue. The author cites the work of Barreras, later published by Guerra Aguiar (see [<GUER7100>](#)), as a foundation for the study of these issues.

RF, Yr.XXX, No.313, Jan 1996, pp.61-66 (6), ill., Span.

Comparative study of the two issues cited in the title, pointing to the coincidences in their printing: both resulted from war situations, both were printed in rows of five stamps, and both consisted of five printings. That's where the similarities end; the rest of the article is dedicated to highlighting the salient characteristics of each of the five positions in each of the five printings of both the Mexican and Cuban stamps. The author refers the reader to <ECHE9411> for a more detailed discussion of the Puerto Príncipe issues.

Historia Postal de Cuba: La Intervención Norteamericana 1898-1902.

Postal History of Cuba: U.S. Administration 1898-1902.

Madrid, Spain: Sociedad Filatélica de Madrid (Sofima), Biblioteca Bilingüe de Estudios Filatélicos (Bilingual Library of Philatelic Studies), 2012, 254 pp., ill, Span. & Eng.

The book is comprised of three chapters dealing in depth with the postal history of the period:

- 1) La emisión de Puerto Príncipe – The Puerto Príncipe Issue.
- 2) La emisión sobrecargada para Cuba sobre sellos de EE.UU. y la emisión Alegorías Cubanas – The "CUBA" overprints on the U.S. Stamp Issues and the Cuban Allegorical Issue.
- 3) Las Estaciones Postales Militares durante la Intervención Americana 1898-1902 – The Military Postal Stations during the U.S. Administration 1898-1902.

This is a definitive study of the philately of the period. Of special interest is the section on the Puerto Príncipe surcharged stamps with detailed illustrations of all printing positions for all five printings showing the identifying characteristics of each of the five positions in each printing strip. It will be an invaluable aid for the certification of the authenticity of these stamps. The first chapter is followed by an also excellent presentation of the regular issues with all major varieties listed and illustrated. A third chapter provides a complete listing of the U.S. military postal stations in Cuba with detailed information about each one and multiple examples of stamps and covers with the cancellations used at each of the military postal stations. See <AMAD1311>, <IGLEF1301>, and <IGLEF1304> for book reviews.

**<GSW0508> Gibbons' Stamp Weekly**

"Revolutions and Postage Stamps"

GSW, Vol.2, No.7, WNo.32, 12 Aug 1905, pp.106-107.

Brief article reporting the results of the question posed to readers of Mekeel's Weekly Stamp News "How many Revolutions have been signalized by changes in Postage Stamps" or more aptly "postage stamps that have been issued by revolutionary governments. The article lists four such issues for Cuba on p.106: the Habilitados por la Nación of 1868, the Republic issue of 1873, the Cuba 1875 issue signalizing the overthrow of the Spanish Republic and the restoration of the monarchy, and the 1898 Puerto Príncipe surcharges.

"Die Kubanischen Aufdruckmarken von Puerto Príncipe" ("The Cuban Surcharges of Puerto Príncipe")

Beiträge zur Postwertzeichen-Kunde, Vol.IV, No.3, **month?** 1899, pp.1-8, 1 plate, written in German.

Also published (perhaps originally) in Senf's Illustriertes Briefmarken-Journal in 1899 and later reprinted in French in Le Timbrophile-Belge according to <AMRH9700>. See <HAAS90012> for English translation of the French version that was published in SGMJ.

Extensive article on the Puerto Príncipe surcharges. The article is based on information extracted from PO, MK, ME, AJP, CA (<CA89907>) and the extensive stock of the stamps in the possession of Mr. Senf. The article provides background information on the issue, gives details of their various printings, discusses resulting varieties, talks about their reported places of use and known postmarks, reports counterfeits of the surcharges and postmarks, discusses doubts as to the authenticity of the surcharged stamps, and provides a reference list of the known printings.

The Ignacio Prats International Large Gold Collection of Spanish Antilles and Cuba  
West Caldwell, NJ: Greg Manning Auctions, Public Auction 186, 24 Jun 2006, 92 numbered pages plus 9 unnumbered pages plus prices realized, profusely illustrated in color.  
This sale consisted of five large lots; the first four were the bulk of the Prats collection; the fifth lot was not part of the Prats collection and its source is unknown. The auction catalog illustrated only the highlights of each lot—just the tip of the iceberg of what each lot contained as this was one of the best collections of Cuba ever assembled (over a period of more than 40 years). Following is a brief description of each lot.  
Lot 1: Spanish Antilles; estimated at 600-800K, sold for 500K +15% commission to an unknown buyer;  
Lot 2: Puerto Príncipe; est. at 200-300K, sold for 240K + 15% to Jack Thompson & Yamil Kouri;  
Lot 3: U.S. Administration; est. at 125-150K, sold for 120K + 15% to an unknown buyer;  
Lot 4: Republic of Cuba; est. at 200-300K, sold for 260K + 15% to Patrick Mangan;  
Lot 5: Cuba Imperforates and Proofs; est. at 100-150K, did not sell.  
See <PRAT0704> for a sale of additional material from the Prats collections.

The Peter A. Robertson Collection of Cuba--Insurrection and Puerto Príncipe Issues  
New York: Christie's-Robson Lowe, Auction Sale, Tuesday, March 15, 1988, 58 pp., profusely illustrated.

Catalog of the auction sale of one of the greatest collections of insurrection and Puerto Príncipe issues ever assembled. The collection is remarkable for its completeness and for the incomparable number of covers of these issues that Mr. Robertson was able to acquire. The catalog contains an extremely detailed description of the material and is beautifully illustrated, and thus constitutes an excellent handbook for the collector/student of these issues. Note, however, that the Puerto Príncipe issues are organized according to Scott's U.S. Specialized catalog listings of the five printings of these issues which do not correspond to those listed by Guerra Aguiar in <GUER7100>. Also note that the cancellations on some of the Puerto Príncipe stamps in the collection may not be genuine--for example, lots 2143, 2188, and 2199 were stamps of the 5th printing of January 11, 1899, but have December cancellations. The bulk of the collection was bought by Dr. Yamil Kouri (the father). Ignacio Prats was the second largest purchaser. The remainder went to other bidders.

New York, N.Y.: Robert A. Siegel Auction Galleries, Inc.; catalog of the 603rd sale, held 15 Oct 1982 at the ESPAMER '82 Exposition of 12-17 Oct 1982, in San Juan, Puerto Rico. Cuba on pp.36-42 plus photo plates (pages unnumbered), lots 283-390A.

Included in the auction were major rarities from the Samuel Israel Collection of Cuba and Puerto Rico which Mr. Israel donated to the Philatelic Foundation of New York (probably in the mid 1930's). The material in this sale was withheld because of its rarity and value as reference material for expertization purposes when the bulk of the Israel Collection was sold at auction by the Foundation through Harmers of New York in January of 1980. See <HARM8001> for details of that sale and <ISRA8001> for further details of the contents of the Israel Collection. The Siegel sale included 48 lots of Spanish Administration issues, 36 lots of U.S. Administration issues, and 22 lots of Republic issues, plus 3 lots of stamp and cover accumulations. Among the Spanish Administration rarities in the sale were Scott Nos. 5, 7 (3), 8 (one of 3 known), and 15 all on cover, and a combination cover with 15 and 15a sent to Puerto Príncipe; a vertical pair of Nos. 6 and 8 (unique and one of the greatest rarities of Cuban philately); and 2 sheets of the 5c. and one of the 10c. 1883 surcharged stamps. **Among the U.S. Administration rarities were Puerto Príncipe surcharged stamps Scott Nos. 179G, 197 Pos. 3 tied on cover, 214 Pos. 4 tied on piece, 218a Pos. 3, 219a Pos. 1, 219b Pos. 3 "eents" error, 219c Pos. 3 "eents" error inverted surcharge, and three 220a Pos. 4.** Also offered were Scott No. 226A and small die proofs 227P2-231P2 and E3P2.
