Interesting notes on postal rates. Also mentions that the current U.S. postal cards are going to be surcharged for use in Cuba similarly to the way the U.S. postage stamps were surcharged for use in Cuba and indicates that this printing is going to be done by the U.S. Government Printing Office.

**<[BART89901b](#)> Bartels, J. Murray**

"Washington Notes" MP, Vol.10, No.20, 21 Jan 1899, pp.178-179.

Several notes on U.S. stamps and postal cards surcharged for use in Cuba. Mentions that the interest in the set of U.S. stamps surcharged for use in Cuba has been unprecedented, discusses the various denominations, reports some color varieties and known plate numbers. This is followed by a report that there have been no news from the post office department about the sale of newspaper and periodical stamps (presumably those of the 1898 Spanish Administration period) followed by a long discussion of the pros and cons of doing so. The article ends with a short note mentioning that the current 1c. and 2c. U.S. postal cards have been surcharged "Cuba, 1c. and 2c. de peso" respectively for use in the island by "a private firm of printers of this city" in contradiction of the statement

in the January 14 column that the surcharging was going to be performed by the U.S. Government Printing Office (see <BART89901a> above).

### <BART89904b> Bartels, J. Murray

"Washington Notes" MP, Vol.11, No.4, 22 Apr 1899, p.34.

Report that Mr. Rathbone, the Director of Posts for Cuba, recently obtained permission to locally surcharge a supply of U.S. 2c. green No.5 white envelopes that he had on hand in Cuba, with perhaps some amber envelopes included in the batch. [The overprinting of Edifil 42 (67,000 white) and Edifil 43 (3,000 amber) were done by Ruiz y Hermanos in Havana on orders of Maj Rathbone. He did so a couple of months before the ones came from the U.S. in June. That is why these surcharges are different from the others.] The article also lists the plate numbers in a supply of 2c. surcharged stamps received from Cuba and discusses the designs of the new set of stamps for Cuba requested to replace the U.S. surcharged stamps, including the request for a special delivery stamp with a design similar to the current U.S. special delivery stamp.

Denial that the plates for the new Cuban stamps (Scott 227-231) were finished at the time since not even the usual trial color die proofs had been submitted to the U.S. Post Office Department. Mention that settlement for Cuban stamps printed at the Bureau would thereafter have to be made directly with the Treasury Department and all envelopes similarly ordered directly from the Hartford contractor. Report of a copy of Scott E1 with the surcharge displaced so that the "10c. de Peso" appears in the middle and "CUBA" near the bottom. **Denial of the existence of a 2c green envelope on amber, size 13, surmising correctly that it probably was size 5 instead (UPSS 2). Mention of a variety of the surcharged envelopes showing a slight notch in the upper part of the "C" in "CUBA". Reference to probable scarcity of the 1c de peso envelope on buff (UPSS 4).**

"The Postal Cards of Spanish Cuba - A Centennial Review"  
The Florida Philatelist, Vol.XXVIII, No.5, WNo. 268, Sep-Oct 1978, pp.81,82,91-93 (5), ill.

This is an overview of the various postal cards issued for Cuba under the Spanish Administration on the centenary of the issuance of the first Cuban postal card. The article discusses chronologically the various changes made in the design of these cards through the years and indicates that some of these changes were made as security measures to thwart counterfeiting purportedly occurring, although I have no knowledge of any counterfeits of these postal cards ever being reported. The article also indicates that the designs of the postal cards produced for use in Cuba, Puerto Rico, and the Philippines were the same and were derived from the

## Bibliography of Cuban Postal Stationery by Ernesto Cuesta

designs of the Spanish postal cards. Following, the article describes some of the varieties that occurred in the printing of these postal cards and speculates that probably the same plates were used for the printing of the cards for the three colonies and that therefore the same printing varieties should occur in cards of the same design used in the three colonies, but offers very little corroborating evidence. As a starting point for studying the similarities between the varieties found in the postal cards of the three mentioned colonies, the author cites the similar varieties of these postal cards listed in the Higgings & Gage catalog (<H&G>) and the varieties in the postal cards of Puerto Rico listed by Hugo D. Storer in his Catálogo Filatélico de Puerto Rico (pp.96-101). The author states that he does not know of any catalog that provides a comprehensive listing of the minor varieties occurring in the postal cards of the Spanish colonies. However, since publication of the article in 1978, some new catalogs have been produced that list some of the more significant varieties; they are: <[ABRE9600](#)>, <[ECHE9700](#)>, <[EDIFILc](#)>, <[EDIFILd](#)>, <[JONE8200](#)>, <[LAIZ9300](#)>, <[LAIZ9800](#)>, <[LAIZ9807](#)>, <[LAIZ0000](#)>, <[LITT0905](#)>, and <[LITT-PSta](#)>.

"Bozarth correspondence to Rudolph J. Roy, Jr. from February 1983"

This item consists of three separate letters dated February 16, 22, and 26, 1983, on the subject of Cuban postal cards of the Spanish Administration period. The February 22 letter is accompanied by a five page listing of postal card varieties with a concordance between the catalog numbers in <H&G>, <[JONE8200](#)>, and Watson that also indicates those cards in the personal collection of the author. The last letter is accompanied by six pages of postal card photocopies illustrating some of the varieties in the previously provided listing. The first letter was motivated by a statement in a letter from R.J. Roy, Jr. of December 8, 1982 in which he says "As for the variations listed in a general way (in Handbook of Cuba), it is my opinion that they occur... randomly...".

Mr. Bozarth disagrees with that opinion and expresses his belief that serious study will show that these varieties are consistent plate varieties that can be identified both in the Cuban and Puerto Rico postal cards and possibly those from the Philippines. The rest of the correspondence cites background information and research to support this thesis. This correspondence is well worth studying by the postal stationery specialist of this material.

"Interesting Uses of Postal Stationery"

POSS, Vol., No.3, WNo., 3rd Quarter 1989, pp.3-7 (5), ill.

The last item discussed in this article is a 2c. on 2c. green on white envelope (Scott U3) used in the Philippines. The item was sent from Manila to Rochelle, New York, and was postmarked on July 16, 1901. The article speculates on how this usage could have happened and cites various U.S. postal orders that might have applied to validate or exclude such usage but are not totally clear on the matter. Whatever the applicable regulations, the item was accepted by the Philippine Islands postal service at the time. For more discussion on the validity of the use in the continental United States and its territories and possessions of U.S. postal stationery overprinted for use in Cuba see <[AJP90304](#)>, <[FRIC9407](#)>, and <[TYX8907](#)>.

Brief note denying the use in Cuba of some stamps and postal stationery reported in <AJP89907b> and news of the upcoming release of some stamps (Scott 227-231, E2) and some of the Columbus envelopes and wrappers issued under the U.S. Administration.

**<CA89909> El Curioso Americano**

"Variedades" ("Varieties")

CA, 3rd Epoch, No.3, 15 Sep 1899, pp.46-47, Span.

Listing of stamps and postal stationery used in Cuba during the U.S. administration including major varieties and even some varieties currently unlisted in catalogs. The list comprises stamps Scott 221-231, E1, E2; postal cards UX1 and UX2; U.S. envelopes surcharged Cuba and Columbus envelopes issued under the U.S. administration; and wrappers W1 and W2.

**<CA89910> El Curioso Americano**

"Variedades" ("Varieties")

CA, 3rd Epoch, No.4, 15 Oct 1899, pp.63-64, Span.

Reacting to a U.S. journal that believes Cuban bisects to be extremely rare, the first section of the article states that bisects can be found in all years from 1867 to 1880, and cites some common and some rarer values that are known bisected. Following sections mention the issuance of 1 and 2 cent Columbus envelopes and the forthcoming issuance of postage due stamps reported in the official Cuban gazette. Finally, the article reports from <AJP89909> that Mr. F.S. Smith has had some envelopes specially printed for him by the U.S. Post Office Department and reproduces a list of existing U.S. envelopes and postage due stamps surcharged for use in Cuba published in <AJP89909>. The article fails to repeat the criticism that is made of Mr. Smith's activities in the AJP.

**<CA89912> El Curioso Americano**

"Variedades" ("Varieties")

CA, 3rd Epoch, Yr.III, No.6, 15 Dec 1899, p.96, Span.

Report of the placement on sale of several values of Cuban Columbus stamped envelopes and of the introduction of postage due stamps. The article complains that the latter are not being sold unused to the public, whereas there are reports that a particular Mr. Smith has obtained large quantities of the same. Finally, the article reports that the boy in the recently issued special delivery stamp is 15 year old John Raymond Dunn.

**<CA90104b> El Curioso Americano**

"Variedades" ("Varieties")

CA, 3rd Epoch, Yr.2, Nos.4-5, Apr-May 1901, pp.86-93 and two unnumbered pages of photos (corresponding to the first segment in the article) that I have labeled pp.86a and 86b in my files. The article is in Spanish.

This piece comprises several segments, some with sub-headings, some without. The first segment is titled "Cuba 1833", but should have read 1883 because it refers to two loose photos which are included in the journal showing full sheets of the 5 and 10 cent 1883 surcharged stamps with double surcharges [the sheet on p.86a is currently in my collection; it was purchased as part of lot 336 of the Soler y Llach auction of 14 Dec 1995]. The segment observes that in many cases the double surcharges of this issue present different intensities in the inking of the two surcharges and states that this is a normal occurrence and that such double surcharges should be considered

## **Bibliography of Cuban Postal Stationery** **by Ernesto Cuesta**

genuine. The second segment is titled "Rarezas de Cuba" ("Cuban Rarities") and reports the existence of the following great Cuban rarities: two used Scott 222c (inverted surcharges) with Havana cancellations, one each Scott 221 and 226 with "Xc. de PESO" in the center of the stamp and another two of the same values with "Xc. de PESO" at the top and "CUBA" at the bottom, a 4 pta. 1877 telegraph stamp in green, two sheets of the 1 pta. 1874 telegraph stamp in the same color as the 2 ptas. value of the same year, and several 1883 surcharged telegraph stamps with inverted and double surcharges. The following segment is titled "Tres Variedades de Y 1/4" ("Three varieties of Y 1/4") and is a follow-up on the Y 1/4 discussion in <CA90101> reiterating that there exist three types of these surcharges on five different stamps. This is followed by an untitled segment reporting the receipt of a letter from the author of the article in the Chilean journal that started the discussion of the existing types of these surcharges alleging that he has been misunderstood. Another untitled segment follows reporting the free-franking privileges given by the U.S. Government to General Máximo Gómez upon his arrival in Havana in February 1899 and describing an envelope printed for this purpose (but not used). The next three titled segments don't deal with Cuban philately. The next segment is titled "El Correo de Cuba" and is a brief notice about the recent demise of that weekly philatelic journal published in Havana. This is followed by two untitled segments. The first one identifies several varieties found in a full sheet of newspaper stamp Scott P25 and states that one of the varieties described also occurs in Scott P13 and P19; it also identifies several varieties of Scott P23. **The second untitled segment reproduces a listing of all stamps and postal stationery issued by the U.S. Postal Administration for use in Cuba since January 1, 1899. This listing includes quantities issued.** These segments are followed by two titled segments that deal with non-Cuban philately. The segment that follows is titled "Retoques a los sellos de las islas de Cuba y Filipinas de 1882" ("Retouches of the 1882 stamps of Cuba and Philippines") and describes three retouches of Scott 103 corresponding to Scott 125 and 126--the second retouch described falls between these two but seems to correspond more closely to Scott 125. Another titled non-Cuba segment follows, followed in turn by another untitled segment referring to an article in Le Timbrophile Belge reporting that some European catalogers vouch for the existence of four Cuban postal cards that are unknown in Cuban philatelic circles. After another titled non-Cuban philatelic segment, a segment titled "Sin perforar" ("Imperforate") discussed the cataloging and pricing of some Cuban imperforate stamps of the Spanish Administration and concludes that they are proofs, whether issued in the same color as the issued stamps or not. The final segment is a quite long segment labelled "Puerto Príncipe" which discusses details and known facts about the various printings of these issues, including quantities of stamps printed and authenticity issues.

Brief article describing postal cards with views of popular Cuban tourist destinations issued by the Cuban Tourist Commission during the 1950s that required no postage for mailing them. Upon becoming aware of their existence the author started wondering whether these cards qualified as postal stationery items since they didn't require

postage for conveyance in the mail. Further investigation revealed that their use started with a series in the 1930s and that by the 1940s the Cuban Tourist Commission had already decided to start giving them away as a way to promote tourism. Though rare, used examples of these cards exist as evidence that they were accepted without franking by Cuban post offices and that no postage due was charged at their destination. As evidence that these postal cards should be accepted as bona fide postal stationery items, the author cites a paper presented by Cuban philatelist Joaquín Mestre Jordi at a 2004 philatelic conference, where he explains why these cards should be considered to be legitimate postal stationery items. The author finishes his article by recounting how he put these card to the test of an exhibition jury by including them in a postal stationery exhibit he presented at the Sarasota 2007 Philatelic Exhibition held in February 2007. The Sarasota 2007 Exhibition jury accepted the cards as legitimate postal stationery items.

Contributors to the Cuba Section were Ernesto Cuesta, Octavio Cabrera, Robert Littrell, and Mark Tyx. Library of Congress Control Number: 2009935307.

Third edition of the catalog first published by the society in 1957 under the editorship of George C. Slawson (see <UPSS5700>) and updated in 1971 with a second edition (see <UPSS7100>). This third edition is a considerable update and improvement over the second edition that only dedicated five and a half pages to Cuba versus 24 full pages in the third edition.

The catalog is printed on 8.5 by 11 in. spiral-bound pages and consists of an introductory and General Information section with pages numbered i to vi (6), followed by the various catalog sections of the Possessions and Administrative Areas of the United States on pages 1 to 190, followed in turn by an Appendix illustrating paper watermarks and knives and sizes on pages numbered 191 to 212 (20). The Cuba Section itself is on pages 61-74 (24). The catalog section provides an overview of Cuban history with emphasis on the Spanish-American War and the ensuing U.S. Administration period and a discussion of the postage rates of the period. The body of the catalog describes the envelopes, postal cards, and wrappers issued for Cuba during the U.S. Administration period with detailed descriptions of each issue, including varieties, errors, specimens, and samples. Details are provided of envelope sizes, knives, paper color, paper watermarks, corner cards, quantities issued or known (in the case of errors, specimens, samples, corner cards, rare usages, etc.), earliest recorded postmarks, and postmarks used.

Account of the purchase through an eBay auction of a used 1c. green Columbus envelope on white paper watermarked US POD 99 that upon receipt turned out to be a rare knife 81, UPSS #10, envelope of which only eight (8) unused copies had been known to exist. The envelope was sent from the town of Remedios, Las Villas province, to Berlin, Germany, and bears the printed return address of the sender, "Logia Perfección y Progreso", a masonic lodge. This last fact is of extreme importance, since it stands to reason that since in all probability the masonic lodge had a number of these rare envelopes printed with its return address, the possibility exists that other examples of these rare envelopes previously unknown to exist in used form may eventually surface somewhere else in another place of the world. This was one of the most sensational discoveries in Cuban philatelic history.

Report of the issuance of three new stamped envelopes for Cuba bearing the effigy of Columbus. The report notes that the effigy of Columbus seems to be better engraved in the 2c and 5c envelopes than in the 1c envelope. This is followed by a detailed description of the envelope design. Finally, there is a note about the surcharging of an 8c U.S. ordinary stamp and 1c, 2c, and 10c U.S. postage due stamps for use in Cuba. We don't know what happened to the 8c stamp because it was never officially issued for use in Cuba and the postage due set that was issued also included a 5c value (Scott J1-J4).

"Inventory of the Cuban Postal Stationery in the A. Eugene Michel Worldwide Postal Stationery Collection; Part of the National Philatelic Collection at the Smithsonian Institution in Washington, D.C."

Co-author: Mark R. Tyx (see entry <TYX8600>).

Unpublished draft, available from the authors, 13 pp. text, 19 pp. photos.

The A. Eugene Michel collection of Foreign Government-Stamped Postal Stationery was donated by Mr. Michel to the Nation and is now part of the U.S. National Philatelic Collection housed in the National Postal Museum of the Smithsonian Institution in Washington, D.C. The inventory presented in this article includes the all of the Cuban postal stationery in the collection. This draft left out some items that were later verified to be contained in the collection. These were: 1) a UPSS 8 used envelope postmarked "HABANA, AUG ?, 9 A.M.", and 2) the 1 and 2 cent, size 13, amber envelopes in the set of Republic Columbus "SPECIMEN" envelopes (the set in the collection is a complete set of 24 envelopes). This inventory was later published in two parts in CPa: the first part was <CUES8911>, which consisted of the U.S. Administration and Republic postal stationery and still contained the mentioned omissions, and the second part was <CUES9610>, which consisted of the Spanish Administration postal stationery. The 19 pages of photos in this draft contain many items in the Michel collection not shown in the published versions because of lack of space.

This is the first publication of the Spanish Administration section of <CUES8600>.

The inventory presented in this article includes all of the Cuban postal stationery in the collection corresponding to the Spanish Administration of Cuba. An author's note at the end of the article corrects the omission of the 1 and 2 cent, size 13, amber envelopes in the set of Republic Columbus "SPECIMEN" envelopes existing in the inventories provided in <CUES8600> and <CUES8911> (the set in the collection is a complete set of 24 envelopes); however, the English version of the note contains a typographical error, incorrectly listing the omission as being of the 1 and 3 cent envelopes.

The Postal Stationery of the United States Possessions and Administrative Areas of the United States: American Zone (Germany) Canal Zone, Cuba, Danish West Indies, Hawaii, Philippines, Puerto Rico, Ryukyu Islands.

Chester, Virginia: United Postal Stationery Society, Third Edition, 2009, 210 pp., ill. George Krieger, Editor.

Contributors to the Cuba Section were Ernesto Cuesta, Octavio Cabrera, Robert Littrell, and Mark Tyx.

Library of Congress Control Number: 2009935307.

Third edition of the catalog first published by the society in 1957 under the editorship of George C. Slawson (see <UPSS5700>) and updated in 1971 with a second edition (see <UPSS7100>). This third edition is a considerable update and improvement over the second edition that only dedicated five and a half pages to Cuba versus 24 full pages in the third edition.

The catalog is printed on 8.5 by 11 in. spiral-bound pages and consists of an introductory and General Information section with pages numbered i to vi (6), followed by the various catalog sections of the Possessions and Administrative Areas of the United States on pages 1 to 190, followed in turn by an Appendix illustrating paper watermarks and knives and sizes on pages numbered 191 to 212 (20). The Cuba Section itself is on pages 61-74 (24). The catalog section provides an overview of Cuban history with emphasis on the Spanish-American War and the ensuing U.S. Administration period and a discussion of the postage rates of the period. The body of the catalog describes the envelopes, postal cards, and wrappers issued for Cuba during the U.S. Administration period with detailed descriptions of each issue, including varieties, errors, specimens, and samples. Details are provided of envelope sizes, knives, paper color, paper watermarks, corner cards, quantities issued or known (in the case of errors, specimens, samples, corner cards, rare usages, etc.), earliest recorded postmarks, and postmarks used.

Catalog of Cuban Postal Stationery

Catálogo de Enteros Postales Cubanos

Principal-author: Robert Littrell (also listed as <[LITT-PStaCat](#)>)

Continuously updated pages in the FILACUBA Website: Pages from Cuban Collections. The Adobe PDF version of the catalog currently consists of 161 pages. This catalog was developed jointly by Robert Littrell and Ernesto Cuesta with Mr. Littrell as principal author and Mr. Cuesta providing substantial content, consultation, and editorial support.

The catalog is accessible from either the Spanish Administration pages, the U.S. Administration pages, or the Republic pages within the "Pages from Cuban Collections" of the FILACUBA Website. The catalog itself is divided in two sections: one for postal cards and another one for envelopes and wrappers. Each of these is in turn subdivided by historical period into Spanish Administration items, U.S. Administration items, and Republic items. The catalog does not cover the Castro era. The catalog lists each item by Edifil and Higgins & Gage catalog numbers and provides a detailed description of each item, including color and type of paper stock, color of indicia, size, etc. and also includes listings for significant varieties and constant printing flaws. All items are illustrated with full size color images and closeup images of the printing varieties and flaws. Descriptions are provided in both English and Spanish.

The Envelopes Section includes a "Cross index of U.S. manufactured postal envelopes used in Cuba (1899-1903)" that provides equivalencies of catalog numbers for the envelopes listed in the Edifil, Scott, United Postal Stationery Society, and Higgins and Gage catalogs. The Postal Cards section also provides a one page cross index of Edifil, Higgins & Gage, and Ascher catalog numbers for Cuban postal cards of the Spanish colonial period from the first postal card issue of 1878 to the last one of 1898.

guidance in the use of the catalog. A brief section index is included at the back of the catalog. Profusely illustrated in black and white; priced in Spanish pesetas; text in Spanish. EDIFIL hired Carlos Echenagusía García, Cuban philatelic expert and designer of numerous stamp issues of the Castro Government, as a consultant for the production of this catalog (see <ECHE9700>). The catalog builds upon <EDIFILc>, but is so much more specialized and improved that it bears no comparison with those predecessors.

The catalog is a comprehensive specialized catalog of all Cuban postage, airmail, postage due, special delivery, newspaper, official mail, officially sealed, semi-postal, postal tax, and telegraph stamps, **and postal stationery covering the Spanish Administration, Cuban Revolutionary Governments of 1874 and 1896, the U.S. Administration, the Republic, and the Castro Government up to 1996.** The catalog includes pricing for used and unused stamps, used and unused blocks of four, sheet center blocks, stamps on cover, bisects on cover, first day covers (FDCs), postal forgeries, essays, proofs, specimens, and countless printing varieties and errors. Each issue is illustrated and described, including major varieties. Descriptions include the motif and numbers printed of each value, and the designer of the issue when known. Also illustrated are typical cancellations of each period, including official FDC cachets of the Republican period. Plating and plate number information is included where significant and available, but no pricing is given for plate number strips and blocks of the U.S. Administration and early Republic issues, except for a few strips and blocks with Bureau of Printing and Engraving imprints. Listings for regular postage, official mail, newspaper, airmail, and special delivery stamps appear in chronological order. Listings for the stamps of the Cuban Revolutionary Governments of 1874 and 1896 follow the Spanish Administration entries. Listings for postage due, semi-postal, postal tax, telegraph, and officially sealed stamps and for postal stationery are in the back of the catalog, also in chronological order. Overall this is the most outstanding specialized catalog of Cuba ever published because of the depth and breadth of the material covered and its profuse number of illustrations (it advertises having more than 5000 illustrations). The presentation and format are also quite appealing; the catalog is hardbound and printed in good quality paper. The only possible criticism that can be made of this excellent work is in the pricing of some of the rarer material, which could be adjusted, usually in an upward direction.

### **<EDIFIL0200> EDIFIL, S.A.**

Catálogo Unificado Especializado de Sellos de Cuba, Edición 2002, Tomo I: 1855-1958  
(Specialized Catalog of Cuban Stamps, 2002 Edition, Volume I: 1855-1996)

Madrid, Spain: EDIFIL, S.A.; 2002 Edition, Volume I covering the years 1855 to 1958 only; 16 pages with roman numerals, including title, publication, and introduction pages, several pages of advertisements, three pages of guidance in the use of the catalog and five pages with an overview of Cuban postal history; followed by 256 regularly numbered pages of catalog listings. Topical and genera indexes are included at the back of the catalog. Profusely illustrated in color; priced in Euros; text in Spanish. We suppose that EDIFIL also hired Carlos Echenagusía García, Cuban philatelic expert and designer of numerous stamp issues of the Castro Government, as a consultant for the production of this catalog.

The catalog builds upon <EDIFIL9700>, expanding the coverage of all sections but eliminating coverage of the Castro era issues for separate publication. All sections carry additional information on errors and varieties. In the Spanish Administration period plating information is provided for some of the platable early issues, the 1860 Y ¼ surcharges and the 1883 surcharges, and prices for blocks and stamps on cover have been added. The U.S. Administration period has also been expanded with additional detail and illustration of military station cancels. In the Republican period, pricing for blocks and covers of the early issues is also provided along with pricing for sheet center blocks and FDCs of the later issues. The back sections of the catalog comprising postage due stamps, semi-postal stamps, postal tax stamps, telegraph stamps, **postal stationery**, and stamps for officially sealing opened mail have been expanded considerably and a new section on Cuban first flights has been added.

Topical and genera indexes are included at the back of the catalog. Profusely illustrated in color; priced in Euros; text in Spanish. We suppose that EDIFIL also hired Carlos Echenagusía García, Cuban philatelic expert and designer of numerous stamp issues of the Castro Government, as a consultant for the production of this catalog. The catalog builds upon the Castro period issues in <EDIFIL9700>, expanding the coverage of issues from 1959 to 2005 to include listings of many errors and varieties, and pricing for FDCs. Sections on semi-postal stamps, stamps for officially sealing opened mail, stamps for mail with "declared value", and postal machine labels (FRAMA labels), **and an extensive postal stationery section** are included at the end of the regular and air mail stamp listings.

1st ed., 1966: Section 3 -- Camerouns to Czechoslovakia, contains 3 pp. on Cuban postal stationery, ill., priced.

2nd ed., 1974: Section 3 -- Camerouns to Czechoslovakia, contains 8 pp. on Cuban postal stationery, ill., priced.

The catalog covers the main issues and major varieties of Cuban postal stationery which include postal cards, stamped envelopes, wrappers, and airmail envelopes and letter sheets. The 2nd edition of the catalog expands the treatment of the 1st edition to include numerous minor varieties; especially of the postal cards under the Spanish Administration. The Ascher worldwide postal stationery catalog <ASCH2500> was an important source of information for this catalog. The Higgins & Gage catalog's numbering system is the most widely used in the stamp trade in describing Cuban postal stationery of the Spanish Administration and the Republic, such as Scott's is for postage stamps and Forbin is for revenues. Postal stationery of the U.S. Administration, is usually described following the numbering systems of <UPSS7100> and <SCOTSPEC>. The catalog prices are currently grossly outdated and are only of value as an indication of the relative value of the items listed.

Specialized Collection of "Samuel Israel" CUBA

New York: Harmers of New York Inc., Catalog of Sale No.2537, a public auction held 17 Jan 1980, Cuba on pp.2-11, lots 2000-2157 (lot 2000, an accumulation of 1000-1100 stampless covers from the 1850's and 1860's was not from the Israel collection). Lots 2001-2005 (5) were pre-stamp covers, lots 2006-2098 (93) were issues of the Spanish Administration, lots 2099-2113 (15) were U.S. Administration issues, lots 2114-2138 were Republic issues, and lots 2139-2157 (19) were special delivery, postage due, postal stationery, and Spain used in Cuba.

Auction of a portion of the Samuel Israel Collection of Cuba and Puerto Rico which Mr. Israel donated to the Philatelic Foundation of New York (probably in the mid 1930's). Beyond the lots illustrated in the catalog, a photocopy of the entire portion of the collection sold at the auction was made by the Philatelic Foundation and is in their reference library. A copy of that photocopy is in my library (see <ISRA8001>). See <SIEG8210> for details of a subsequent auction by Robert A. Siegel for the Philatelic Foundation of major rarities from the

Ex. The Samuel Israel Collection of CUBA & PORTO RICO

## **Bibliography of Cuban Postal Stationery** **by Ernesto Cuesta**

Photocopy of the portion of the Samuel Israel Collection of Cuba and Puerto Rico which Mr. Israel donated to the Philatelic Foundation of New York (probably in the mid 1930's) and which the Foundation exhibited in the Court of Honor of the International Philatelic Exhibition "Centenario" held in La Habana from 12 to 19 November 1955 and later sold through Harmers of New York at an auction held 17 Jan 1980; 242 pp. Photocopies of parts of the collection are available at the library of the Philatelic Foundation and in my library. See <HARM8001> for additional details of the auction. See <SIEG8210> for details of a subsequent auction by Robert A. Siegel for the Philatelic Foundation of major rarities from the collection which were withheld from the Harmers auction. Photocopies of the material sold at the Siegel auction may be available at the library of the Philatelic Foundation.

The Samuel Israel Collection was an extraordinary accumulation of material of the highest quality starting from a few stampless covers, through the Spanish and U.S. administrations, and into the early 1930's during the Republic. The strength of the collection, however, was in the Spanish Administration period. The collection included used and unused singles, pairs, strips, and blocks; full sheets; varieties; errors; stampless and stamped covers; postal stationery; etc. In blocks, it contained an almost complete run of unused blocks of 4 of all stamps of the periods covered. Following are sections of the collection:

Excellent specialized catalog of the philatelic material of Cuba during the Spanish colonial period. It includes an introduction titled "Pre-Philately" which is really a very high level overview of the evolution of the mail system during the Spanish Administration. The main part of the catalog is Section 1 covering the regular postage stamp issues. This is followed by separate sections on bogus stamps, cinderella stamps, fakes and forgeries, official stamps, stationery, telegraph stamps, Cuban stamps used in other countries, a catalog concordance, and four plates of photos. For stamps the concordance is between the Jones-Roy catalog and Scott, Gibbons, Yvert, and Guerra catalog numbering systems; for postal stationery the concordance is between the Jones-Roy catalog and the Higgins & Gage catalog.

Excerpting from <PLAS8407>: Detailed, fully illustrated description of the stamps, stationery, and fakes and forgeries of the U.S. Administration of Cuba. The handbook includes a detailed listing and identification of all the Puerto Príncipe issues with all the data provided to determine the genuineness of any of these frequently forged and faked stamps. The U.S. overprinted issues include the correct dates of issue, plate varieties, and plate numbers used. The stamps issued for Cuba are completely described, including the first booklet issued for use in Cuba. Postal stationery listings include all knives and papers, known quantities, plus a listing of the Specimen envelopes prepared for the Cuban issues. An illustrated guide to stationery knives is also provided.

## **Bibliography of Cuban Postal Stationery** **by Ernesto Cuesta**

Excellent specialized unpriced catalog of the stamps of the Republic of Cuba into the first few issues of the Castro government. Postage, airmail, special delivery, postage due, and postal tax stamps are listed in the main body in chronological order. Special sections on cinderellas (pp.255-259), fakes and forgeries (pp.261-265), post office seals (pp.267-270), postal stationery (pp.271-291), "souvenirs" issued by the Government (pp.293-294), and telegraph stamps (pp.295-297) follow the main body of the catalog. Since the catalog uses its own numbering system, several catalog number concordance tables are provided at the back of the catalog. For stamps the concordance is between the Jones-Roy catalog and Scott, Gibbons, Yvert, and Guerra catalog numbering systems; for postal stationery the concordance is between the Jones-Roy catalog and Higgins & Gage and Guerra; for post office seals and telegraph stamps the concordance is between the Jones-Roy catalog and Yvert and Guerra. The catalog provides descriptive and printing information for each issue, exact date of issue when known, listing of all values in each issue, quantities of each printed, plate number information, and major known varieties. This is the most comprehensive specialized catalog of Cuban stamps published to date.

Madrid, Spain: Academia Hispánica de Filatelia (Hispanic Philatelic Academy), Discursos Académicos IX (Academic Discourse IX), 1998, Cuba on pp.8-72, profusely illustrated, in Spanish.

This book presents a reconstruction of the single plate of Cuba's 1878 postal card and of a plate of the 1879 card, and identifies the distinguishing characteristics of 12 cards belonging to a second plate of the 1879 card. All plate positions are illustrated one to a page and their identifying characteristics are described and highlighted using detailed images of the identifying characteristics. Third edition of the catalog first published by the society in 1957 under the editorship of George C. Slawson (see <UPSS5700>) and updated in 1971 with a second edition (see <UPSS7100>). This third edition is a considerable update and improvement over the second edition that only dedicated five and a half pages to Cuba versus 24 full pages in the third edition.

The catalog is printed on 8.5 by 11 in. spiral-bound pages and consists of an introductory and General Information section with pages numbered i to vi (6), followed by the various catalog sections of the Possessions and Administrative Areas of the United States on pages 1 to 190, followed in turn by an Appendix illustrating paper watermarks and knives and sizes on pages numbered 191 to 212 (20). The Cuba Section itself is on pages 61-74 (24). The catalog section provides an overview of Cuban history with emphasis on the Spanish-American War and the ensuing U.S. Administration period and a discussion of the postage rates of the period. The body of the catalog describes the envelopes, postal cards, and wrappers issued for Cuba during the U.S. Administration period with detailed descriptions of each issue, including varieties, errors, specimens, and samples. Details are provided of envelope sizes, knives, paper color, paper watermarks, corner cards, quantities issued or known (in the case of errors, specimens, samples, corner cards, rare usages, etc.), earliest recorded postmarks, and postmarks used.

Catálogo de Enteros Postales Cubanos

Co-author: Ernesto Cuesta (also listed as <CUES-PstaCat>)

Continuously updated pages in the FILACUBA Website: Pages from Cuban Collections. The Adobe PDF version of the catalog currently consists of 161 pages. This catalog was developed jointly by Robert Littrell and Ernesto Cuesta with Mr. Littrell as principal author and Mr. Cuesta providing substantial content, consultation, and editorial support.

The catalog is accessible from either the Spanish Administration pages, the U.S. Administration pages, or the Republic pages within the “Pages from Cuban Collections” of the FILACUBA Website. The catalog itself is divided in two sections: one for postal cards and another one for envelopes and wrappers. Each of these is in turn subdivided by historical period into Spanish Administration items, U.S. Administration items, and Republic items. The catalog does not cover the Castro era. The catalog lists each item by Edifil and Higgins & Gage catalog numbers and provides a detailed description of each item, including color and type of paper stock, color of indicia, size, etc. and also includes listings for significant varieties and constant printing flaws. All items are illustrated with full size color images and closeup images of the printing varieties and flaws. Descriptions are provided in both English and Spanish.

Specialized Catalog of the Postal Stationery of Cuba During the Socialist Era, 2000 Edition

Co-author: Santiago Portuondo Zúñiga (see <[PORT0000](#)>)

San Francisco, California: Privately published by the authors, 2000, 175 pp. plus 13 unnumbered pages, profusely illustrated, in Spanish. The catalog is printed on 8.5 by 11 inch pages and is spiral bound.

The catalog was awarded VERMEIL prize at the Exposición Filatélica Nacional in Havana, Cuba, October 2005.

A very comprehensive priced catalog of aerograms, stamped envelopes, postal cards, military postal stationery, and acknowledgement of receipt postcards of Cuba during the socialist era (1959 to 2000). This is a comprehensive catalog that is profusely illustrated and provides prices for both unused and used stationery. The catalog includes all known varieties of the listed items, but does not provide pricing for most of the varieties. Pricing is reasonable for this type of modern material. This catalog is highly recommended for the Cuban postal stationery collector.

Three questions are posed to the readers soliciting responses:

- 1) Why is Cuba postage stamp Scott 232 listed in the Scott U.S. Specialized Catalog?
- 2) **What are the earliest reported dates of use of Cuban postal cards Scott UX1 and UX2?**
- 3) **Does the number of issued cards listed in Scott for Cuban postal card UX2 include the cards perforated with a numeral "1"?** [The answer to the latter is yes—the cards were perforated by the new Cuban Government using the remaining stock of UX2 cards and issued them as the first postal card of the Cuban Republic.]

This series of brief articles traces the history of the stamps and postal stationery of Cuba of the year 1899 through articles that appeared in the philatelic press of the time. Much of the material in the series is presented in the form of direct quotes from the original sources to preserve the flavor of their content in the context of the time. The principal authors of these articles were J.M. Bartels and H.F. Colman writing in most cases in the Metropolitan Philatelist or the Weekly Philatelic Era, but the series also includes material from the Post Office and other authors and advertisers. All of the actual source material cited also appears in this bibliography under the names of their authors or of the journal in which they appeared if no author was indicated.

"Ultramar Handstamp"

POSS, Vol.5, No.2, WNo.16, 2nd Quarter, 1982, p.5.

No author is indicated for this short piece, but we assume that it was authored by the journal's editor, Mr. Plass. The article indicates that the blue "ULTRAMAR" handstamp shown on a piece of postal stationery from Cuba was applied as a theft deterrent at the Portuguese Post Office Headquarters in Lisbon to specimens or samples of postal species received from other postal administrations and distributed later to Portuguese overseas possessions and colonies for their reference. The example illustrated in the article was received from Alfredo E. Valdés, a Cuban postal stationery specialist, who indicates that he has seen it on Cuba Scott No. UX2 (a postcard) and Nos.W1 and W2 (wrappers). [The overprint is also known on Cuban envelopes.]

Letters from Smith to the editor in which he establishes the genuineness of the U.S. envelopes surcharged for use in Cuba with Smith's corner card (UPSS Nos.3, 6, and 8a) which J.M.Bartels had labelled as fakes in a piece published in The Metropolitan Philatelist of 5 August 1899 (<[BART89908a](#)>). Basically this is a rebuttal by Mr. Smith of Mr. Bartel's assertion of August 5 that "envelopes bearing the return card of one Smith never saw Cuba, but are simply fakes", indicating that anyone could legitimately place such an order provided minimum quantity requirements were met and the order was paid in advance. The piece also mentions inconsistencies in Mr. Bartel's statements and his own dealings in Cuban envelopes.

Unpublished draft, available from the authors, 13 pp. text, 19 pp. photos. This inventory was later published in two parts in CPa: the first part was <TYX8911>, which consisted of the U.S. Administration and Republic postal stationery, and the second part was <TYX9610>, which consisted of the Spanish Administration postal stationery. The 19 pages of photos in this draft contain many items in the Michel collection not shown in the published versions because of lack of space.

## **Bibliography of Cuban Postal Stationery** **by Ernesto Cuesta**

The article correctly conjectures that the Higgins & Gage Catalog (<H&G>) erroneously translated the German word "blaulichweiss" from the 1925 Ascher Catalog (<ASCH2500>) in listing the color of the paper of Cuban envelope H&G B-12a as "blue" and proposes that it should instead be listed as "bluish-white".

"Letter from Mark R. Tyx to Alfredo Valdés dated 7 July 1989"

Unpublished, available through the courtesy of Mr. Tyx; 3 pp. plus 8 pp. of attachments; illustrated.

Letter thanking Mr. Valdés for a copy of <[FRIC8906](#)> on the subject of U.S. postal stationery overprinted for use in Cuba during the U.S. Administration that is later used to pay postage in the U.S. The letter cites two examples from Mr. Tyx's collection (UPSS-1 and UPSS-6) and is accompanied by their photocopies. A discussion of the validity of using such stationery in the U.S. is included with some plausible explanations provided. Another copy of a UPSS-6 sent by F.S. Smith to the J.W.Scott Co. is mentioned and a photocopy is included. Finally, the letter mentions the recent acquisition of a mint copy of Cuba's H&G E-3 newspaper wrapper--one of the rarest pieces of Cuban postal stationery!--and includes a photocopy. For more discussion on the validity of the use in the continental United States and its territories and possessions of U.S. postal stationery overprinted for use in Cuba see <[AJP90304](#)> and <[BREW8907](#)>.

The Postal Stationery of the United States Possessions and Administrative Areas of the United States: American Zone (Germany) Canal Zone, Cuba, Danish West Indies, Hawaii, Philippines, Puerto Rico, Ryukyu Islands. Chester, Virginia: United Postal Stationery Society, Third Edition, 2009, 210 pp., ill. George Krieger, Editor. Contributors to the Cuba Section were Ernesto Cuesta, Octavio Cabrera, Robert Littrell, and Mark Tyx. Library of Congress Control Number: 2009935307.

Third edition of the catalog first published by the society in 1957 under the editorship of George C. Slawson (see <[UPSS5700](#)>) and updated in 1971 with a second edition (see <[UPSS7100](#)>). This third edition is a considerable update and improvement over the second edition that only dedicated five and a half pages to Cuba versus 24 full pages in the third edition.

The catalog is printed on 8.5 by 11 in. spiral-bound pages and consists of an introductory and General Information section with pages numbered i to vi (6), followed by the various catalog sections of the Possessions and Administrative Areas of the United States on pages 1 to 190, followed in turn by an Appendix illustrating paper watermarks and knives and sizes on pages numbered 191 to 212 (20). The Cuba Section itself is on pages 61-74 (24). The catalog section provides an overview of Cuban history with emphasis on the Spanish-American War and the ensuing U.S. Administration period and a discussion of the postage rates of the period. The body of the catalog describes the envelopes, postal cards, and wrappers issued for Cuba during the U.S. Administration period with detailed descriptions of each issue, including varieties, errors, specimens, and samples. Details are provided of envelope sizes, knives, paper color, paper watermarks, corner cards, quantities issued or known (in the case of errors, specimens, samples, corner cards, rare usages, etc.), earliest recorded postmarks, and postmarks used.
