"Inventory of the Cuban Postal Stationery in the A. Eugene Michel Worldwide Postal Stationery Collection; Part of the National Philatelic Collection at the Smithsonian Institution in Washington, D.C."

Co-author: Mark R. Tyx (see entry <[TYX8600](#)>).

Unpublished draft, available from the authors, 13 pp. text, 19 pp. photos.

The A. Eugene Michel collection of Foreign Government-Stamped Postal Stationery was donated by Mr. Michel to the Nation and is now part of the U.S. National Philatelic Collection housed in the National Postal Museum of the Smithsonian Institution in Washington, D.C. The inventory presented in this article includes the all of the Cuban postal stationery in the collection. This draft left out some items that were later verified to be contained in the collection. These were: 1) a UPSS 8 used envelope postmarked "HABANA, AUG ?, 9 A.M.", and 2) the 1 and 2 cent, size 13, amber envelopes in the set of Republic Columbus "SPECIMEN" envelopes (the set in the collection is a complete set of 24 envelopes). This inventory was later published in two parts in CPa: the first part was <[CUES8911](#)>, which consisted of the U.S. Administration and Republic postal stationery and still contained the mentioned omissions, and the second part was <[CUES9610](#)>, which consisted of the Spanish Administration postal stationery. The 15 pages of photos in this draft contain many items in the Michel collection not shown in the published versions because of lack of space.

Annotated Bibliography of Cuban Philatelic Literature (AMERIPEX 86 Edition)

Bethesda, Maryland: Completed April 29, 1986, 271 pp., 1614 entries. Presented to the public for the first time at the AMERIPEX 86 International Stamp Show, Chicago, Illinois, May 22 to June 1, 1986, where it was awarded a Silver Medal (see [Awards & kudos](#)). This first edition is hereafter to be known as the AMERIPEX 86 Edition. Subsequent revisions are labelled CAPEX 87 Edition, HAFNIA 87 Edition, GRANADA 92 Edition, and the current PACIFIC 97 Edition, to coincide with the names of the international philatelic exhibitions in which they were presented to the public. Subsequent editions of the bibliography will be prepared for presentation at future international philatelic exhibitions as well .

The bibliography is reproduced through photocopying upon request; a total of 30 copies of the AMERIPEX 86 Edition were made, of which 2 were kept by me (master and work copies), 10 were donated to institutional philatelic libraries in the U.S. and the remainder went to private libraries; 13 in the U.S. and 7 abroad (Spain [2], Canada [1], México [1], Costa Rica [1], Puerto Rico [2]) [See the bibliography's [Distribution Record](#) for additional details].

The bibliography contains citations of works that deal with Cuban philately partially or totally, but excludes trivial references such as modern new issue announcements. Annotations are provided for a majority of the entries and more will be added in future editions as time permits. The bibliography is intended to be a living document to which additional citations will be added as new works are published or discovered. A subject index will eventually also be prepared to facilitate research of specific topics.

Annotated Bibliography of Cuban Philatelic Literature--CAPEX 87 Edition

Bethesda, Maryland: Completed 9 March 1987, 270 pp., 1733 entries. Prepared for presentation at CAPEX 87, the Canadian International Philatelic Exhibition, held in Toronto, Canada, June 13-21, 1987, where it was awarded a Silver-Bronze Medal (see [Awards & kudos](#)). Reproduced through photocopying upon request; a total of 28 copies were made, of which 2 were kept by me (master and work copies), 2 were sent as philatelic literature entries to CAPEX 87, 10 copies were donated to institutional philatelic libraries in the U.S. and 14 went to private libraries--5 in the U.S. and 9 abroad (Spain [4], Canada [2], México [1], Puerto Rico [2]) [See the bibliography's [Distribution Record](#) for additional details]. Although the number of entries in this edition is only 119 more than in the AMERIPEX 86 Edition, the net changes made amounted to considerable more than what that number

represents. Several duplicate entries were deleted from the AMERIPEX 86 Edition, numerous corrections and revisions were made, and a considerable number of annotations were added to existing entries. The reduced number of pages is explained by the fact that in the CAPEX 87 Edition the number of lines printed per page was increased. The promised subject index was under preparation but was not included as part of the bibliography. See <CUES8604> for content annotation.

##### Annotated Bibliography of Cuban Philatelic Literature--HAFNIA 87 Edition.

Bethesda, Maryland: Completed 4 Aug 1987, 320 pp., 2084 entries. Prepared for official presentation at HAFNIA 87, the International Philatelic Exhibition held in Helsinki, Denmark, October 17-27, 1987; but first presented at ESPAMER 87, the Spanish American International Exhibition held in La Coruña, Spain, October 2-12, 1987, receiving Silver Medals at both exhibitions (see [Awards & kudos](#)). Reproduced through photocopying upon request; a total of 3 masters and 39 copies were made. I have kept the 3 masters and 3 copies; 5 copies were submitted as philatelic literature entries to ESPAMER 87 (3) and HAFNIA 87 (2); 13 copies went to institutional libraries (U.S.[8], G.B.[1], Cuba [2], P.R.[1], Spain [1]); and 18 went to private libraries (U.S.[11], G.B.[1], Canada [1], Spain [4], P.R.[1]) [See the bibliography's [Distribution Record](#) for additional details].. See <CUES8604> for content annotation. The promised subject index was still under preparation and was not included as part of the published bibliography.

"Cuban Philatelic Literature Reviews: Cuban Philatelic Journals -- Examen de la literatura filatélica cubana: publicaciones filatélicas cubanas"

CPa, Vol.I, No.1, Mar-Apr 1989, pp.17-22, Eng. & Span.

This piece was supposed to inaugurate what I had hoped would be a regular feature of The Cuban Philatelist: "Cuban Philatelic Literature Reviews" which I intended to produce by extracting from this bibliography. Unfortunately, I did not follow through with this intention. Perhaps I will revive it in the future. In this particular piece I attempted to list all the major Cuban philatelic journals that had been published to date, but I missed some important ones such as the Revista de la Sociedad Filatélica Cubana. In this bibliography, I have updated the information on the journals listed in the article and have extracted it into two separate listings, one brief (see <CUES9701a>) and one detailed (see <CUES9701b>).

Inventario de los enteros postales cubanos en la colección mundial de enteros postales de A. Eugene Michel"

Co-author: Mark R. Tyx (see entry <TYX8911>).

CPa, Vol.I, No.3, Nov-Dec 1989, pp.48-57 (10), ill., Eng. & Span. This is the first publication of the U.S.

Administration and Republic sections of <CUES8600>. The inventory of the postal stationery corresponding to the Spanish Administration was reserved for a follow-up article published in October 1996 (see <CUES9610>).

The inventory presented in this article includes the all of the Cuban postal stationery in the collection corresponding to the U.S. Administration and the Republic. This part of the inventory left out some items that were later verified to be contained in the collection. These were: 1) a UPSS 8 used envelope postmarked

"Inventory of the Cuban Postal Stationery in the A. Eugene Michel Worldwide Postal Stationery Collection: Spanish Administration Postal Cards -- Inventario de los enteros postales cubanos en la colección mundial de enteros postales de A. Eugene Michel: Tarjetas postales de la administración española"

Co-author: Mark R. Tyx (see entry <[TYX9610](#)>).

CPa, Vol.VIII, No.22, Oct 1996, pp.35-42 (8), ill., Eng. & Span.

This is the first publication of the Spanish Administration section of <[CUES8600](#)>.

The inventory presented in this article includes all of the Cuban postal stationery in the collection corresponding to the Spanish Administration of Cuba. An author's note at the end of the article corrects the omission of the 1 and 2 cent, size 13, amber envelopes in the set of Republic Columbus “SPECIMEN” envelopes existing in the inventories provided in <[CUES8600](#)> and <[CUES8911](#)> (the set in the collection is a complete set of 24 envelopes); however, the English version of the note contains a typographical error, incorrectly listing the omission as being of the 1 and 3 cent envelopes.

CPa, Vol.IX, No.23, Jan 1997, p.29, Span. & Eng.

Book review of <[RODR9508](#)>. This is a major update and enhancement of <[RODR8605](#)> and is an essential reference for the serious researcher of Cuban postal markings. No attempt is made to cover the period after 1960 due to the lack of reliable information available outside of Cuba.

This edition consists of the following four sections:

- I. A Brief Story of the Development of the Postal Services in Cuba
- II. Catalog of Post Offices (alphabetically listed by provinces)
- III. Alphabetical Listing of Post Offices (all provinces combined)
- IV. General Index and Bibliography

See the annotation under <[RODR9508](#)> for a summary of the contents of each section.

This is a considerable expansion of <CUES8903> prepared in response to <HORN9600> to provide feedback to the authors for an update of that work. It lists all known journals dedicated in whole to Cuban philately or with considerable regular content thereof, whether published in Cuba or elsewhere. It goes beyond the intent of <CUES8903> in that it lists all the known issues of each journal and their dates of publication whenever known. See <CUES-Journals> for a current version of this list.

#### Annotated Bibliography of Cuban Philatelic Literature--PACIFIC 97 Edition

Bethesda, Maryland: Completed 11 May 1997, xxx pp., 2562 entries. Prepared for official presentation at PACIFIC 97, the International Philatelic Exhibition held in San Francisco, California, May 29-June 8, 1997, where it was awarded a [Silver Medal](#). Reproduced through photocopying upon request; a total of 1 master and 25 double-sided copies were made. I kept the master and 1 working copy; 2 copies were submitted as philatelic literature entries to PACIFIC 97. For a book review see <[KOUR9710n](#)>.

This edition of the bibliography contains the first version of an index that is still in its first stages of preparation--its infancy one could say--and is still recognizably very incomplete. The index intends to be in the future extremely detailed, identifying through the keys assigned in the bibliography to the citations, all sorts of references that may be of interest to the investigator. The index is simply organized in alphabetical order. Its preparation is extremely slow work that will require considerable time and effort. The intent is to continue developing and improving it in parallel with the continued development of the bibliography, publishing augmented and corrected versions together with the publication of new editions of the bibliography.

Inventory of Frankings on Known Covers of the 1896 and 1898 King Alfonso XIII Issues

Unpublished inventory of frankings on known covers of the King Alfonso XIII issues of 1896 and 1898.

This inventory primarily consists of covers in the Ernesto Cuesta collection. The inventory is ordered by issue and within issue by the total franking on each cover in ascending order (lowest to highest). For each cover the following are indicated: 1) the type of cover (e.g., folded letter, envelope, circular, cover front); 2) the date of posting, or if not available, any other dates that place the cover in time (e.g., transit or receipt marking dates, date of contents); 3) places of origin and destination; and 4) denomination of the stamps that compose the franking. This inventory is available from the author upon request.

“Reseña Bibliográfica: Book Review: *Philatelic Literature—A History and Select Bibliography from 1861 to 1991. Volume 2. by Manfred Amrhein*”

[CPa](#), Vol.10, No.28, Apr 1998, pp.89-90, Eng & Span.

This excellent volume which is in great part dedicated to the philatelic literature of Latin America, contains a small section with a very good overview of Cuban philatelic literature. It lists the major works on Cuban philately in existence, most of them from this century, and provides an overview of their subject matter. Included in this summary are the principal Cuban philatelic journals and books published and the principal researchers and their areas of contribution. Mention is also made of the principal Cuban philatelic societies that sponsored the publication of the philatelic journals cited.

Overall the Cuban section of this book provides a very good overview of the Cuban philatelic scene of this century, but lacks the insight that someone more familiar with Cuban philatelic literature could provide to such a summary. For example, the piece fails to mention the large number of short-lived philatelic journals that came to light in Cuba in the first half of this century—an indication of great philatelic activity in the island. Another shortcoming is the failure to mention most contributors to Cuban philatelic literature after Castro other than Guerra Aguiar whose contributions to Cuban philately are blown out of proportion. See annotation under <[AMRH9700](#)> for some corrections and updates to the information provided in the pages dealing with Cuba.

## Bibliography of Cuban Philatelic Literature -- Internet Edition

### Philatelic Publications and Works by Ernesto Cuesta

This article provides an overview of these datestamps that were in use in Cuba during the last decade of the Spanish Administration starting from 1888 to 1898 and even into the U.S. Administration period until they were replaced by U.S. type datestamps. The overview is followed by an inventory of the known examples of these numbered datestamps identifying for each their earliest and latest known dates of use. The general format of the datestamp is illustrated, but no actual images of any of the datestamps are provided. The intent of the article was to generate interest in these datestamps and to solicit further examples of these datestamps from the public. This objective was realized with the publication of a follow-up article with additional examples in 2001 (see <[GARCF0109](#)>). Also see <[RIOSP0807](#)> for another article and listing of these datestamps. Eventually, the information in this article and all of its sequels was consolidated into the entry [Archive of Numbered Circular Datestamps—Inventario de los fechadores circulares numerados YSLA DE CUBA \(1888-1899\)](#) in the Spanish Administration section of “Pages from Cuba Collections” of the FILACUBA Website.

Co-author: Robert Littrell (also listed as <[LITT0801](#)>).

[CPa](#), Vol.19, No.53, First Third 2008, pp.6-11 (6), ill., Eng & Span.

Brief overview of the Puerto Príncipe surcharges to introduce charts of the five printings and three settings in which these surcharges were produced. The charts and settings were taken from <[ROBEP8803](#)> and improved with additional information. Additionally, the third and fourth printing charts were interchanged to align them with the order of the printings reported by Guerra-Aguiar in <[GUER7100](#)>.

“Book Review—Reseña del Libro: *Cuba, 1899-1952. The Travelling Post Offices System (TPO). El Sistema de Oficinas Postales Ambulantes (OPA)* by/por Pedro M. Rodríguez.”

CPa, Vol.19, No.53, First Third 2008, p.15, Eng & Span.

This is a book review of <[RODR0700](#)>. The book starts with an introductory section that is a historical account of the establishment of the TPOs by the U.S. Postal Administration during the U.S. Administration of the Island of Cuba from mid-1898 to May 20, 1902. This service continued and was extended during the first five decades of the Republic. An overview of the Cuban railroad system in 1899 follows with detailed listings of railroad lines and companies, length of the lines, and their endpoints. Similar information is also provided for coastal ship lines. The introduction ends with illustrations of the types of canceling devices used by the TPOs, similar to those in use in the U.S. at the time. The rest of the book is a comprehensive catalog of the known TPOs, specifying their names, known periods of operation, the cities and towns that they serviced, and examples of the cancellations used by each TPO. This is an excellent catalog of these postal markings and is profusely illustrated with large size and very clear examples of most of the known TPOs.

Catalog of Cuban Postal Stationery

Catálogo de Enteros Postales Cubanos

Principal-author: Robert Littrell (also listed as <[LITT-PStaCat](#)>)

Section in the FILACUBA Website under “Pages from Cuban Collections” that has been superseded by separate catalogs of postal cards, envelopes, and aerograms further developed by Robert Littrell and maintained in the Internet Website of the International Cuban Philatelic Society (ICPS) in its “[Member’s Pages](#)”.

This entry is for an Adobe PDF version of the catalog consisting of 161 pages that was prepared on 25 August 2008. The catalog was developed jointly by Robert Littrell and Ernesto Cuesta with Mr. Littrell as principal author and Mr. Cuesta providing substantial content, consultation, and editorial support. Descriptions are provided in both English and Spanish. The catalog itself is divided in two sections: one for postal cards and another one for envelopes and wrappers. Each of these is in turn subdivided by historical period into Spanish Administration items, U.S. Administration items, and Republic items. The catalog does not cover the Castro era. The catalog lists each item by Edifil and Higgins & Gage catalog numbers and provides a detailed description of each item, including color and type of paper stock, color of indicia, size, etc. and also includes listings for significant varieties and constant printing flaws. All items are illustrated with full size color images and closeup

images of the printing varieties and flaws. The Envelopes Section includes a “Cross index of U.S. manufactured postal envelopes used in Cuba (1899- 1903)” that provides equivalencies of catalog numbers for the envelopes listed in the Edifil, Scott, United Postal Stationery Society, and Higgins and Gage catalogs. The Postal Cards section also provides a one page cross index of Edifil, Higgins & Gage, and Ascher catalog numbers for Cuban postal cards of the Spanish colonial period from the first postal card issue of 1878 to the last one of 1898.

The Postal Stationery of the United States Possessions and Administrative Areas of the United States: American Zone (Germany) Canal Zone, Cuba, Danish West Indies, Hawaii, Philippines, Puerto Rico, Ryukyu Islands.

Chester, Virginia: United Postal Stationery Society, Third Edition, 2009, 210 pp., ill. George Krieger, Editor.

Contributors to the Cuba Section were Ernesto Cuesta, Octavio Cabrera, Robert Littrell, and Mark Tyx.

Library of Congress Control Number: 2009935307.

Third edition of the catalog first published by the society in 1957 under the editorship of George C. Slawson (see <UPSS5700>) and updated in 1971 with a second edition (see <UPSS7100>). This third edition is a considerable update and improvement over the second edition that only dedicated five and a half pages to Cuba versus 24 full pages in the third edition.

The catalog is printed on 8.5 by 11 in. spiral-bound pages and consists of an introductory and General Information section with pages numbered i to vi (6), followed by the various catalog sections of the Possessions and Administrative Areas of the United States on pages 1 to 190, followed in turn by an Appendix illustrating paper watermarks and knives and sizes on pages numbered 191 to 212 (20). The Cuba Section itself is on pages 61-74 (24). The catalog section provides an overview of Cuban history with emphasis on the Spanish-American War and the ensuing U.S. Administration period and a discussion of the postage rates of the period. The body of the catalog describes the envelopes, postal cards, and wrappers issued for Cuba during the U.S. Administration period with detailed descriptions of each issue, including varieties, errors, specimens, and samples. Details are provided of envelope sizes, knives, paper color, paper watermarks, corner cards, quantities issued or known (in the case of errors, specimens, samples, corner cards, rare usages, etc.), earliest recorded postmarks, and postmarks used.

(Chairman), Ronald Hill (Editor), and members of the Board Octavio Cabrera, Daniel Chaij, Robert Littrell, Mark Piper, Rudy Roy, and Mark Tyx. The journal and associated monographs are completely bilingual in English and Spanish. Subscription to the journal is included with membership in the ICPS and is available in two forms: hardcopy with a regular membership in the Society or electronic with an electronic membership. The journal is supplemented on an ad hoc basis by separate "Special Studies Monographs" dedicated to long articles on specific subjects of Cuban philately that would overwhelm the regular journal by their length or that would have to be published in installments detracting from their interest. Monographs are provided free of charge to the ICPS members in either hardcopy or electronic form depending on their type of membership. The journal and monographs are distributed internationally free of charge to 22 philatelic libraries worldwide, 12 in the United States and 10 abroad. The journal and monographs are published in color in 8.5 x 11 inch format using the printing facilities of the Rocky Mountain Philatelic Library in Denver, Colorado. Current number printed for first issue is 170 copies. Subsequent issues range from 120 to 130 copies each. Additional copies may be printed as needed. Number of pages in each issue ranges from 24 to 28. Single issues of both the journal or monographs can be ordered from the ICPS at \$7.50 each postpaid. Published issues of the journal and monographs are listed following.

“Archive of Numbered Circular Datestamps YSLA DE CUBA (1888-1899)”

Bethesda, Maryland: Continuously updated photo archive of 1888 to 1899 “YSLA DE CUBA” numbered circular datestamps in current collections or from illustrated auction catalogs.

These numbered datestamps were in use from 1888 until they were replaced during the U.S. Administration of Cuba when they were replaced by the cancellers introduced by the U.S. Postal Service of the same design as used in the U.S.A. The first 9 or 10 numbers of these numbered datestamps corresponded to the main cities in the island with Habana being assigned number 1. The remaining numbers were assigned in ascending alphabetical order with a few deviations from this scheme, principally towards the end of the numbering sequence in which presumably newly added or perhaps initially missed post offices were added. More than three hundred post offices used this type of cds, although we don't know the exact number and an official listing of them has not been found. For more information on these numbered cancellations refer to the following citations: <[CUES9807](#)>, <[GARCF0109](#)>, and <[RIOSP0807](#)>.

The following links provide PDF versions of the archive as of 31 July 2008: <[CUES-NCDS-Arch-1](#)>, <[CUES-NCDS-Arch-2](#)>, <[CUES-NCDS-Arch-3](#)>, <[CUES-NCDS-Arch-4](#)>, and <[CUES-NCDS-Arch-5](#)>.

Compilation of 57 postings in the “Your Opinions Forum” of the CPSA Website from 14 Sep to 19 Nov 2009, when censorship was imposed on the forum postings by the CPSA Board of Directors to silence my complaints against the Society. In reality the numbering only goes up to #56, since my original posting #56 complaining about the imposition of censorship in the forum was censored and deleted. The deleted posting is included as posting #55a in this listing.

“Archive of Genuine Puerto Príncipe Stamps”

Bethesda, Maryland: Continuously updated photo archive of “supposedly” genuine Puerto Príncipe stamps and covers in current collections or from illustrated auction catalogs. Note that I said “supposedly” genuine because there is no guarantee that images taken from auction catalogs are indeed genuine unless supported by a certificate of authenticity from a recognized authority. The archive is maintained within the “U.S. Administration: 17 July 1898 to 20 May 1902” section of “Pages from Cuban Collections” in my FILACUBA Internet Website.

Material from the following reknowned collections has been or will eventually be incorporated in this inventory:

[Henry G. Brock](#), sold 15 March 1941 by Eugene Klein of Philadelphia, PA;

[Ferrars H. Tows](#), sold 7 January 1949 by Carl E. Pelander of New York City, NY.;

[John C. Juhring](#), sold 25 October 1978 by Stanley Gibbons of Frankfurt, West Germany;

### **Philatelic Publications and Works by Ernesto Cuesta**

[Peter A. Robertson](#), sold 15 March 1988 by Christie's Robson Lowe of NYC, N.Y.;

[Ignacio Prats](#), sold 24 June 2006 by Greg Manning Auctions, West Caldwell, N.J.

[Yamil H. Kourí, Jr.](#), sold 19 and 25 June 2010 by Robert A. Siegel Auction Galleries Inc., New York, N.Y.

Additionally, examples from many [other auctions](#) with holdings of these stamps have also been included and are referenced in the body of the inventory. Of special note is the archive of the [5<sup>th</sup> Printing](#) of these stamps that includes images all known examples of this rare printing for which I have been able to obtain a photo image. Additionally, for each stamp illustrated, I have indicated all of the sales in which it has appeared along with any associated information that may have a bearing on ascertaining its authenticity, such as existing expertization certificates, initials of experts that have examined it (usually appearing on the back of the item), and type and date of the cancellation on the item if discernible—basically each stamp's "pedigree".
