"Cuba: Documentos de Policía" ("Cuba: Police Document Stamps")

The International Revenuer, Issue 17, p.8, in English despite the title in Spanish.

English translation of a Decree dated at La Habana, December 31, 1855, and signed by José de la Concha, specifying the regulations and rates for the collection of "police taxes" to be imposed on passports, bills of unloading, travel and transit permits, public transportation licenses, dwelling certificates, retail sale permits, peddling licenses, hunting licenses, permits for billiards, permits for ball games, permits for public balls, etc. These taxes were initially represented by a stamp directly imprinted on the documents, but later started to be paid with stamps when the first issue of the "Documentos de Policía" stamps were placed in circulation in 1865. Article 6 of the decree mentions the use of "countersign" or "control" stamps for countersigned licenses which the author identifies as being the "Sellos de Referendo".

RSFC, Yr.III, No.9, 15 Sep. 1904, pp.129-141 (13); 33 pages total, ill.

The first three installments of what would have been an excellent classification of Cuban revenue stamps. The articles stop with the September 1904 issue of the RSFC and no explanation of their abrupt cessation is found in subsequent issues of the RSFC. However, Barreras and Gutiérrez later publish a comprehensive catalog of Cuban revenue stamps which probably goes beyond the information intended for these articles (see <BARR91200>).

(The first edition of 638 pp. was published in 1905 and the author is given as L'Hoste Forbin; the second edition of 734 pp. was published in 1909.)

Excellent listing of Cuban revenues of the Spanish Administration and of the Republic up to 1915. Also contains excellent listings of Spanish and Spanish Possessions revenues which is of great value as reference material for the Cuban philatelist. Forbin is to the revenues collector what Scott's Standard Postage Catalog is to the regular stamp collector.

Borrowing from <ELIA8502>: A comprehensive bibliography of books and pamphlets dealing with the philately and postal history of Spain and her former colonies. The main listing offers 1785 titles arranged chronologically from 1514 to 1981. Most of the material is of Spanish origin, but a considerable number of foreign publications are included. Listings are well cross-referenced and there are numerous illustrations. In addition, there are appendices for postal route maps, revenue stamps, and periodicals (both philatelic and official). Literature listings for the early centuries represent an outstanding record of literature likely to be of direct or tangential interest to the postal historian. All citations of relevance to Cuban philately contained therein have been included in this bibliography.

Telegraph & Telephone Stamps of the World - A Priced and Annotated Catalog

1982, Introduction and Acknowledgements on pp.vii, viii, and ix,Cuba on pp.81-88 (8); ill., Eng.

This catalog includes a complete listing of Cuban telegraph stamps only (no telephone stamps are included). Mint and used prices are quoted in British pounds. In the author's own words: "The prices I have given are those at which I would attempt to sell the stamps if I had spare copies for sale." An interesting note for collectors of revenue stamps are two notes by the author indicating that due to shortages in telegraph stamps in 1874 and 1889, the use of 1874 Libros de Comercio and 1889 Pagos al Estado revenue stamps was authorized in lieu of telegraph stamps. In neither case, however, were the stamps marked specifically for the telegraph use, so unless they are found with a telegraph cancellation or on a telegraph document itself, there is no way of identifying them as telegraphically used [I have no knowledge of the existence of any such examples]. The author does not provide a source for this information, but we assume that it appeared somewhere in government regulations or official bulletins.

Miami, Florida: Edited and published by Pedro M. Rodríguez, May 1990, 155 pp., ill., Span. & Eng. 200 copies printed. See <MART9104> for book review that appeared in the PLR.

This is the first comprehensive catalog of Cuban revenue stamps since the Forbin catalog of 1915 and is a monumental accomplishment on the part of Messrs. Jones and Rodríguez on behalf of the philately of Cuban revenue stamps. I mention Messrs. Jones and Rodríguez jointly because I am a witness to the tremendous contribution that Mr. Rodríguez made to the catalog with a superb job of editing and publishing on top of the usual magnificent research work done by Mr. Jones. This work is an essential reference for the student and collector of Cuban revenues.

(Validation Surcharges on Stamped Paper of Spain and Its Domains)

Madrid, Spain: Published by El Averiguador, printed by Imprenta Rivadeneira, 12 May 1872, 31 pp., ill., Span.

Small pamphlet detailing various validation surcharges in revenue paper of Spain and Spanish colonies of America. These validation surcharges were applied for various purposes, but mainly to declare the period of valid use of the various species of revenue paper. Since revenue paper for the Americas was printed and also mostly surcharged in Spain, as stated in the middle of the second column of page 22, the information and description of the revenue paper for Spain and some of its American colonies contained in this work may be useful for comparison purposes with those specifically used in Cuba. Of special interest for comparison purposes are pages 20 to 22 containing the descriptions of the "Habilitado por la Nación" overprints ordered to be applied to all revenue paper and postage and telegraph stamps by the Madrid Provisional Revolutionary Junta on 30 September 1868 and which were supposedly used until the end of December 1869. The work describes various types of these overprints known to the author from different Spanish towns. An English translation of this section can be found in <CUES0601>. Additionally in the section on the revenue paper of Spanish America (Indias), the author makes specific references to samples of revenue paper from Cuba on pages 28 and 30.

"A Cuban Study"

WPG, Vol.41, No.19, WNo.1262, 12 Jan 1946, pp.490-491, ill.

Good study of the surcharged Giro revenues of 1883. The article notes the existence of only four types of surcharges applied to the regular 1882 bistro Giro stamps, similar to the surcharges applied to the regular postage stamps but with the value in the center replaced by a core of facing semicircles. One interesting item in the article is the mention of the existence of a pane of the stamps in the possession of the author from which he deduces that the setting for the surcharges was done in groups of 50 consisting of 5 rows of ten stamps. The author illustrates the setting of the 50 surcharges in the article. It is not clear, however, whether the pane in his possession is a pane of 50 or 100 stamps--if it is a pane of 100 it would have been key to state that the setting repeated in the bottom half of the pane. The article mentions that the surcharges are apparently symmetrical in the four cardinal directions but with minor variations which can be identified upon careful examination. This assertion is incorrect because the symmetry only exists in two directions, the surcharges being rectangular, not square. The article goes on to note varieties in the printing of the four denominations of the surcharges consisting of missing or broken letters or numerals. Another interesting observation is that it appears that the surcharges were printed separately from the word GIRO above them and the values of the surcharges below them. The article ends by mentioning the existence of forgeries of these surcharges and classifies them into two types, providing identifying characteristics for each, and commenting that they are quite rare.
