<H&G> Higgins & Gage, Inc.

Priced Catalogue of Postal Stationery of the World

Editor: Edward Fladung; but Alexander D. Gage holds the copyright.

Pasadena, California, U.S.A.: Higgins & Gage, Inc. Also listed under entries <FLAD6600> and <GAGE6600>.

1st ed., 1966: Section 3 -- Cameroons to Czechoslovakia, contains 3 pp. on Cuban postal stationery, ill., priced.

2nd ed., 1974: Section 3 -- Cameroons to Czechoslovakia, contains 8 pp. on Cuban postal stationery, ill., priced.

The catalog covers the main issues and major varieties of Cuban postal stationery which include postal cards, stamped envelopes, wrappers, and airmail envelopes and letter sheets. The 2nd edition of the catalog expands the treatment of the 1st edition to include numerous minor varieties; especially of the postal cards under the Spanish Administration. The Ascher worldwide postal stationery catalog <ASCH2500> was an important source of information for this catalog. The Higgins & Gage catalog's numbering system is the most widely used in the stamp trade in describing Cuban postal stationery of the Spanish Administration and the Republic, such as Scott's is for postage stamps and Forbin is for revenues. Postal stationery of the U.S. Administration, is usually described following the numbering systems of <UPSS7100> and <SCOTSPEC>. The catalog prices are currently grossly outdated and are only of value as an indication of the relative value of the items listed.

"Die Kubanischen Aufdruckmarken von Puerto Príncipe" ("The Cuban Surcharges of Puerto Príncipe")

Beiträge zur Postwertzeichen-Kunde, Vol.IV, No.3, month? 1899, pp.1-8, 1 plate, written in German.

Also published (perhaps originally) in Senf's Illustriertes Briefmarken-Journal in 1899 and later reprinted in French in Le Timbrophile-Belge according to <AMRH9700>. See <HAAS90012> for English translation of the French version that was published in SGMJ.

Extensive article on the Puerto Príncipe surcharges. The article is based on information extracted from PO, MK, MF, AJP, CA (<CA89907>) and the extensive stock of the stamps in the possession of Mr. Senf. The article provides background information on the issue, gives details of their various printings, discusses resulting varieties, talks about their reported places of use and known postmarks, reports counterfeits of the surcharges and postmarks, discusses doubts as to the authenticity of the surcharged stamps, and provides a reference list of the known printings.

<HARG7100># Hargest, George E.

History of Letter Post Communication Between the United States and Europe 1845-1875

Washington, D.C.: Smithsonian Institution Press, 1971, 234 pp., ill; rates to Cuba on Table A, p.202 and Table B, p.216.

Quoting <WINT9204>: "This book gives a detailed accounting of most of the early U.S. postal arrangements with European countries. It presents a scholarly treatment of the events leading to the postal arrangements, gives the details of the arrangements, and provides examples of covers carried under those arrangements with Hargest's analysis of each cover. He also shows many representative markings found on the covers. ... it is an essential reference book in understanding the treaties with European states. Hargest makes an attempt to list all the rates to foreign countries in two large tables at the end of the book, but his information is quite incomplete and sometimes in error." (See <STAR8200> for rates.) The information in this book is vital to the Cuban postal historian for the understanding of rate markings on covers to and from Cuba to Europe via the United States.

AP, Mar 1979, pp.219-228 (10), ill.;

AP, Apr 1979, pp.315-320 (6), ill.

Overview of the 1874 Treaty of Berne which created the General Postal Union that started governing international mail rates between participating countries on July 1, 1875, and was later modified by the 1878 Convention of Paris which changed the name of the General Postal Union to the "Universal Postal Union". Cuba and Puerto Rico entered the Union on May 1, 1877, with a single weight letter rate of 5 céntimos and a postal card rate of 2 céntimos. This article discusses the application of the provisions of the Treaty through the use of various examples. It is an essential reference for the student of Cuban postal history in understanding the rates and regulations that governed mail with members of the GPU/UPU after May 1, 1877.

<HARM3506> Harmer, H.R. (Philatelic Auctioneer)

Catalogue of the Eleventh Portion of the "Arthur Hind" Collection of Postage Stamps

London: H.R. Harmer Philatelic Auctioneer, Sales 768-771, Hind Sale No.11, 24-27 June 1935, Cuba on pp.20-22, lots 207-227, selected lots illustrated on plates V-VI. This item is also listed as <HIND3506>.

This was not a large holding of Cuban items but the sale included some outstanding rarities, including a block of 12 (4x3) of Scott #5; a block of 9 of Scott #15; an important collection of the 1883 ornamental surcharges that included three full sheets of the 5c value with different settings of the surcharges, one full sheet each of the 10c and 20 c values, and a block of 45 of the 20c value with displaced surcharges; several rare Puerto Príncipe stamps; the inverted centers of 1910; and a complete set of horizontal imperforate pairs of the 1914 map issue.

Ernesto Cuesta

This sale only featured one Cuban lot of small die proofs of the 1899 2c, 3c, 5c, 10c, and 1902 10c Special Delivery stamps in their issued colors on India on card. The 10c 1902 Special Delivery stamps is misdescribed as being 2c in the catalog listing. It is odd that the reknowned Spanish stamp dealer Manuel Gálvez should have had such a poor representation of Cuban proofs. Perhaps his major holdings of Cuban proofs were of the Spanish Administration and were sold separately. In any case, the catalog contains a considerable holding of proofs of other countries of the Americas and is thus of extreme interest to the specialist in that type of material.

Specialized Collection of "Samuel Israel" CUBA

New York: Harmers of New York Inc., Catalog of Sale No.2537, a public auction held 17 Jan 1980, Cuba on pp.2-11, lots 2000-2157 (lot 2000, an accumulation of 1000-1100 stampless covers from the 1850's and 1860's was not from the Israel collection). Lots 2001-2005 (5) were pre-stamp covers, lots 2006-2098 (93) were issues of the Spanish Administration, lots 2099-2113 (15) were U.S. Administration issues, lots 2114-2138 were Republic issues, and lots 2139-2157 (19) were special delivery, postage due, postal stationery, and Spain used in Cuba.

Auction of a portion of the Samuel Israel Collection of Cuba and Puerto Rico which Mr. Israel donated to the Philatelic Foundation of New York (probably in the mid 1930's). Beyond the lots illustrated in the catalog, a photocopy of the entire portion of the collection sold at the auction was made by the Philatelic Foundation and is in their reference library. Spain and Latin America Stamps and Postal History

New Jersey: H.R. Harmer, Inc., Sale 2971, 27 April 2007, Cuban lots #157, 160-445, ill.

The Cuban material in this sale was from the Ignacio Prats collection (this entry is also listed as <[PRAT0606](#)>). However, with some possible exceptions, the material was not from his main collections but rather from his files of reference and secondary material. Lots #160-176, 201-202, and 208 were withdrawn since they were mistakenly taken from a stockbook of forgeries. This fact was noted by Prats and he promptly notified the auctioneer who withdrew the lots.

The Cuban material comprised a large holding of early issues including and a large collection of postal history with stampless covers, town cancels, incoming covers from other countries, foreign destinations, Correo Marítimo markings, British and French postal agencies in Cuba, and US Postal Administration in Cuba. shows outstanding pieces and usages of these issues on cover. The use of these stamps was eventually extended to the Spanish colonies, by a Royal Order of 23 January 1857 that made their use mandatory effective 1 January 1858, and the presentation includes examples of their use in Cuba, Puerto Rico, Dominican Republic, and the Philippines. In particular, the Cuban examples shown are numerous and remarkable and include the set of these stamps printed by lithography in La Habana and known as the "Litografiados de La Habana" with numerous examples shown of these extremely rare usages on cover.

Telegraph & Telephone Stamps of the World - A Priced and Annotated Catalog

1982, Introduction and Acknowledgements on pp.vii, viii, and ix, Cuba on pp.81-88 (8); ill., Eng.

This catalog includes a complete listing of Cuban telegraph stamps only (no telephone stamps are included). Mint and used prices are quoted in British pounds. In the author's own words: "The prices I have given are those at which I would attempt to sell the stamps if I had spare copies for sale." An interesting note for collectors of revenue stamps are two notes by the author indicating that due to shortages in telegraph stamps in 1874 and 1889, the use of 1874 Libros de Comercio and 1889 Pagos al Estado revenue stamps was authorized in lieu of telegraph stamps. In neither case, however, were the stamps marked specifically for the telegraph use, so unless they are found with a telegraph cancellation or on a telegraph document itself, there is no way of identifying them as telegraphically used [I have no knowledge of the existence of any such examples]. The author does not provide a source for this information, but we assume that it appeared somewhere in government regulations or official bulletins.

World Philatelic Periodicals

Co-author: Chester M. Smith (see <[SMITC9600](#)>)

State College, Pa.: American Philatelic Research Library, 1996, 39 pages in the extracted PDF file. This listing of philatelic periodicals was obtained on the World Wide Web through the Internet at the following url:

<http://cac.psu.edu/~cms/periodicals/intro.html> but is no longer available there. The listing identifies several Cuban periodicals with philatelic content.

The listing has an index in which Cuba is one of the entries. This entry in turn links automatically to a listing of numerical pointers, each of which is the entry number of a philatelic periodical (journal) published in Cuba. Clicking on one of these entry numbers takes you to the Web page where detailed publication information about the journal is provided under the entry number which was clicked. The publication information provided (when available) is the name of the journal, city in Cuba where it was published, the publisher, the starting and ending month and year, the starting and ending volume and issue number, the whole number range, series number or name, notes on content, notes on successor or predecessor journals, and a reference to the main source of information for the entry. Journals on Cuban philately not published in Cuba are indexed under the country in which they were published. The listing is based on other existing indexes, such as the index of library of the Collectors Club of New York, so that the veracity and currency of the information is not guaranteed. All journals included in the listing are also listed in this bibliography.

LINN, 2 January 1984, p.56, ill.

Response to a previous Linn’s “Errors, Freaks, and Oddities” column that illustrated an example of a Puerto Rican stamp with a double impression and asked readers for further information on the item. Responses were received from Cuban Philatelic Society of America members Alfredo Valdés and Mark Tyx explaining that the subject item was printer’s waste, known as a “maculatura” in Spanish. Comments received from both correspondents explain how these maculaturas were created, state that these are known for various Spanish and Spanish colonies stamps printed by the Fábrica Nacional de Moneda y Timbre in Madrid, and give the opinion that these oddities should not command a high premium, except in the case of large blocks that are less common. The article illustrates an example of a Cuban Alfonso XII stamp maculatura with a double impression, one inverted with respect to the other.

“Hospital pushed hard for a Clara Maass stamp”

LINN, 12 August 2002, p.6, ill.

Article on the unsuccessful campaign the Lutheran Memorial Hospital of Newark, New Jersey, conducted in 1950 to get a U.S. stamp to mark the 50th anniversary of the death of Clara Maass in 1951. The article mentions the fact that Cuba did issue a commemorative stamp for the occasion (Scott 462), whereas the U.S. did not issue one until the 75th anniversary of her death. The article also mentions the interesting fact that the design used for the Cuban stamp has a strong resemblance to the cachet of a commemorative envelope that the Lutheran Memorial Hospital produced as part of its campaign for the U.S. stamp in 1950. This suggests that the Cuban design was probably derived from the cachet or similar propaganda materials produced by the hospital.

North Atlantic Mail Sailings 1840-75

Co-Author: Richard F. Winter

Published by the U.S. Philatelic Classics Society, Inc., Canton, Ohio, 1988. ISBN 0-9503548-4-0. 419 pp. ill.

The book is a thorough compilation of sailing lists for all the ocean contract mail steamship lines operating on the North Atlantic from 1840 to 1875. Each chapter of the book concentrates on a contract mail steamship line, provides a historical background of each line, and lists the departure and arrival dates in chronological order of each leg of all round trips made by the ships operated by the line together with the name of the ship. Additionally, known irregularities or deviations from regular operations are noted for many of the listed trips. The book is an invaluable reference for identifying any mail from or to Cuba traveling on one of the listed contract mail steamship lines during the period covered by the book.
