"Letter from Edwin C. Madden to J. C. Morgenthau"

AJP, Vol.16, No.4, 1 Apr. 1903, p.133. For Spanish translation see <MADD0305>.

Publication of letter from Mr. Edwin C. Madden, 3rd. Assistant Postmaster, to Mr. J. C. Morgenthau of New York, clarifying that U.S. stamps surcharged for use in Cuba are not valid for postage in the U.S.A. Although postal stationery is not specifically mentioned in this communication, it is presumed that the same policy applied to postal stationery surcharged for use in Cuba.

Letter to the editor mentioning that a correspondent in one of the philatelic journals has reported there has been some tampering with the plate numbers of some of the newly issued Cuban stamps (Scott 221-226). Mr. Makins surmises that there may some truth to the report in an effort by some speculators to make the plate blocks scarce, thus raising the value of their holdings. No further details are provided so that the article's assertions cannot be corroborated.

The Ignacio Prats International Large Gold Collection of Spanish Antilles and Cuba

West Caldwell, NJ: Greg Manning Auctions, Public Auction 186, 24 Jun 2006, 92 numbered pages plus 9 unnumbered pages plus prices realized, profusely illustrated in color.

Also listed under Ignacio Prats as <PRAT0606>.

This sale consisted of five large lots; the first four were the bulk of the Prats collection; the fifth lot was not part of the Prats collection and its source is unknown. The auction catalog illustrated only the highlights of each lot—just the tip of the iceberg of what each lot contained as this was one of the best collections of Cuba ever assembled (over a period of more than 40 years).

Following is a brief description of each lot.

[Lot 1](#): Spanish Antilles; estimated at 600-800K, sold for 500K +15% commission to an unknown buyer;

[Lot 2](#): Puerto Príncipe; est. at 200-300K, sold for 240K + 15% to Jack Thompson & Yamil Kouri;

[Lot 3](#): U.S. Administration; est. at 125-150K, sold for 120K + 15% to an unknown buyer;

[Lot 4](#): Republic of Cuba; est. at 200-300K, sold for 260K + 15% to Patrick Mangan;

[Lot 5](#): Cuba Imperforates and Proofs; est. at 100-150K, did not sell.

See <PRAT0702>, <PRAT0704>, <PRAT0911a>, <PRAT0911b>, and <PRAT1005> for subsequent sales/resales of material from the Prats collections. Prats had extensive holdings of Cuban philatelic material that went beyond the core material of his collectins offered in this sale which was subsequently offered in <PRAT0702> and <PRAT0704> by H.R. Harmer, Inc. of New Jersey. Eventually Lot 1 in this sale was

This article is a follow-up to <CUES9807> correcting some errors in the previous article and listing additional examples of these numbered datestamps obtained from various cited sources. The article points to the existence of examples of these datestamps going back as far as 1881, but this fact is disputed by the CPa Editor who points out that if that were so, surely they would have been used first in Havana, but no such examples are known to exist.

Since publication of the article I have developed an inventory of these cancellations in my FILACUBA Website at the following address: <http://www.philat.com/FIL/NCDS/NCDS-Archive.html>. Numerous additions to the towns reported here and in the original article have been identified and several of the town numbers reported in this

article have been corroborated, but some corrections have also surfaced. Colón has been verified to be #10, Bahía Honda is still ambiguous—either 28 or 29, #107 is definitely Guara not Guareiras which we believe is #109, and Isabel de Sagua is definitely #125—not #124.

Comprehensive article on this area of topical collecting. Cuba is mentioned on p. 1122 with a reference to its December 1951 issue of Christmas stamps (Scott 469-470), which the author incorrectly described as postal tax stamps. This is the only reference to Cuba in the article which otherwise focuses almost entirely on U.S. Christmas issues. The Cuban stamps are not illustrated. A correction to the statement that the 1951 Cuban Christmas stamps were postal tax issues is submitted to the AP by Mr. Peter M. Abreu in a "Letter to the Editor" in the January 2016 issue of AP (see <ABRE1601>).

<MELV5000> for reprint.

Revised and expanded version of a series of individual articles originally published in Stamp Lover. Also believed to have been reprinted by Emile Bertrand, Lucerne. The listings under Cuba discuss the revolutionary stamps of 1874 and 1896 (<EDIFILc> Correo Insurrecto stamps Nos.1 and 2-5), the 1874 "CUBA LIBRA" labels issued by the Cuban revolutionary junta in Philadelphia bearing a Cuban flag, and three unidentified overprinted stamps circa 1906 from the province of Cienfuegos. The entry questions the actual use of the 1874 and 1896 correo insurrecto stamps to frank mail, stating there is no evidence that they ever saw service in Cuba (this is incorrect; see <ROBEP8803>). A reference is also made to some other republican stamps of the same period bearing portraits of Martí, Gómez, Maceo, and García reported in the Philadelphia Inquirer (later reprinted in the Daily Stamp Item), but these remain unidentified and their actual existence and use questioned. The account of the flag labels refers to them as possible "philatelic fictions" and is basically an extract from the Englishman of Calcutta, reprinted in the Philatelic World of April 16, 1896. The extract describes the stamps, but only mentions four of the five issued and incorrectly identifies the 20 c. stamp as being black instead of brown (the missing 50 c. stamp is the black one).

Study of the postal marking "ESPAÑA", denoting place of origin, applied to all maritime mail from Spain to its West Indies by Royal Order of King Charles III of Spain in 1764. The article establishes that besides the marking devices used at the point of origin in the port of La Coruña, Spain, copies of the marking devices were sent to all points where Spanish maritime mails were handled in the Americas to so mark any mail passing through which had not been properly marked at its origin. In particular, the article establishes the existence of such a marking device in Havana from an inventory taken in 1765 by don José de Armona, administrator of posts in Havana (p.33) and describes but does not illustrate the Havana marking's characteristics (p.37).

MF, Yr.XLIX, No.562, May 1955, pp.112-113, ill., Span. Reprint of <BOHE5505>.

Article highlights two anniversaries of great significance to Cuban philately: the centenary of the first postage stamps used in Cuba and the 50th anniversary of the first set of stamps issued by the Republic of Cuba in 1905. The article describes both stamp issues and the set of stamps issued by the Cuban Ministry of Communications to commemorate the centenary of the first postage stamps (Scott 539-542, C110-C113). The article also mentions in passing the last stamp issue of the Spanish Administration known as the stamps of the “Autonomía” (autonomy) from the type of government implanted in the island during the years 1898-1899. It incorrectly states that these stamps were in circulation until the 23rd of April of 1905, when in fact these stamps were replaced by the stamps of the U.S. Administration in 1899.

Roving the Stamp World—Including comments on Foreign Government-Stamped Postal Stationery

Douglaston, Long Island, New York: Published by the author, 1933, 174 pp., ill.

In the first third of the 20th Century Mr. Michel formed a fantastic collection of worldwide postal stationery that he eventually donated in its entirety to the U.S. National Postal Museum. The Cuban portion of the collection is housed in two volumes that Mark R. Tyx and I inventoried (see [<CUES8911>](#) and [<CUES9610>](#)). This entry consists of the cover page of the book; a brief introduction by H.L. Lindquist on pages 3-5 introducing Mr. Michel; Section III of the book titled "The government-stamped stationery of the world" that is an overview by Mr. Michel of his postal stationery collection; Section V, Appendix, "Mounting and filing entires"; and the book's table of contents and index by country. Page 132 of Section III discusses the 1904 provisional 1c. post card of Cuba (H&G #38), and page 142 illustrates a Honduran postal card showing Cuba's First President, Don Tomás Estrada Palma, who was also the First Postmaster-General of Honduras.

This reference is for the the Cuban portion of the A. Eugene Michel collection of Foreign Government-Stamped Postal stationery which was donated by Mr. Michel to the Nation and is now part of the U.S. National Philatelic Collection housed in the U.S. National Postal Museum, part of the Smithsonian Institution in Washington, D.C. The link is to an unpublished detailed inventory of the collection prepared by Ernesto Cuesta and Mark R. Tyx (also listed in this bibliography as [<CUES8600>](#) = [<TYX8600>](#)). The collection is not on public display but may be viewed with special permission through prior appointment.

The collection consists of some 30,000 specimens mounted in 144 loose leaf volumes. This reference includes a picture of Mr. Michel sitting in his studio alongside his formidable collection (in 1933, when the photo was taken, the collection consisted of 134 volumes; but when donated to the Smithsonian in June of 1940 it consisted of 144 volumes). The volumes are arranged by countries in alphabetical order; under each country by type of stationery in the following order: government-stamped envelopes, newspaper wrappers, letter cards, and postal cards; and within each category by chronological order of the date of issue, starting each issue with the lowest value.

Additional details on Mr. Michel and his postal stationery collection can be found in [<MICH3300>](#). “New York Foreign Mail Cancellations 1871-76”

AP, Jan 1933, 8 pp., ill.

The article provides background information on the use of these cancellations and illustrates the various types used. Some of these cancellations can be found on covers from the U.S. or from other countries that were routed in transit to Cuba through the port of New York. The article does not address New York **Incoming** Foreign Mail cancellations. It is of interest to note the similarity between many of these NYFM cancellations and some that were used in Cuba after the U.S. Administration installed a postal system in Cuba based on the U.S. model and closely tied to the New York Post Office. See <[EDIFIL9700-53](#)>, page 53 of <EDIFIL9700> where some of the similar Cuban cancellations are illustrated.

Figures 43 and 44 on p.58 illustrate a couple of covers sent from Seville to Cuba. Of note is the cover of Fig. 43 which was privately carried to Havana and mailed within the city bearing a Scott No.7 stamp to avoid paying the full postage for its mailing from Seville, thus defrauding the mails of the postage fees from Seville to Havana.

MK, Vol.5, No.15, WNo.223, 11 Apr 1895, p.3.

Musings about the philatelic future of Cuba after the Spanish-American War. The author surmises there may be another stamp or set of stamps issued by the revolutionary government following the pattern of the 1874 revolutionary stamp (Edifil Correo Insurrecto No.1) which indeed was the case (see Edifil Correo Insurrecto Nos.2-5). In any case, the author suggests that philatelists should take interest in the stamps of Cuba which should increase in value if Cuba gains its independence from Spain to become a Republic or be annexed to the United States, in which case they would become of special interest to U.S. philatelists.

Letter to Mark R. Tyx with attached plating of 1898 Alfonso XIII postal cards for Puerto Rico.

Unpublished, 15 typewritten pages consisting of a one page letter from Byron Mitchell to Mark R. Tyx accompanied by 14 pages illustrating and describing plate varieties on 8 Puerto Rico 1898 Alfonso XIII single cards and 4 double cards. In the letter, Mr. Mitchell is asking Mr. Tyx to verify whether the same plate defects exist in the same issue of cards for Cuba, since supposedly they were both printed from the same plate by just changing the country name in the insignia. In response to this letter, Mr. Tyx sent Mr. Mitchell copies of all of the 1898 cards in his collection, but received no feedback as he later indicated. "Philatelic Problems. No.6—What does the surcharge Y ¼ on the early issues of Cuba represent"

MK, Vol.19, No.5, WNo.736, 4 Feb 1905, p.38. Editor is listed as Henry A. Kidder.

Copy of the best answer to the question sent in by Mr. W.E. Warner correctly indicating that the Y in the surcharge corresponded to the Spanish word "Ynterior" since the service only applied to mail to be delivered inside the city of Havana and that the ¼ corresponded to the ¼ real de plata fuerte to be charged by the service. The writer's explanation that the "surcharge Y owes its origin to the Spanish script capital *I* which is written like the greek *Y*" is not quite correct. The Y was probably used instead of the I to avoid confusion with the numeral 1, and probably justified by the old spelling of the word "Interior" with an initial Y. Note that the "*Correo Interior*" handstamp imposed on some of the letters bearing these stamps, used the modern spelling as noted.

"New Cuban Issue"

MK, Vol.23, No.14, WNo.953, 3 Apr 1909, p.125.

Report of two new issues of stamps bearing the effigies of Cuban patriots planned for 1 July of 1909. One issue was for regular mail (Scott 239-246) and the other for telegraphs (Edifil 85-91). Both issues came out in 1910. The article lists the Cuban patriots so honored but does not specify whether they will appear on the regular postage stamps or on the telegraph stamps, nor does it specify the denominations of the stamps.

"Latin American Letter--Cuba"

MK, Vol. 25, No.19, WNo.1063, 13 May 1911, p.162.

Published under the pseudonym "Merry Forest" (also listed as <MERRY1105>).

Quotes from Matanzas Filatélico (not "Filatélica" as named in the article) issues of Feb and Sep 1910. From the February issue reference to cancellations with "T" enclosed in circle (the "T" is for TASA (postage due), not TAXA as stated in the article). In the September issue, the magazine advocates the cataloging of various postal fiscals of Cuba. Reference is made to the official authorization of the use of the 1868 10c. bistre Giro stamp (Forbin Giro No.1) for franking correspondence during 1873, 1874, and 1875 and the 1881 12 1/2c. green Giro stamp (Forbin Giro No.55) for franking correspondence during 1881. Reference is also made to the issuance by Cuba of stamp booklets of 1c. and 2c. stamps in the middle of 1905 (the 2c. stamp booklet referred to is Scott 234a, but no 1c. booklet exists from that period).

"Latin American Letter--Cuba"

MK, Vol.25, No.22, WNo.1067, 10 Jun 1911, p.194.

Two notes picked up from Cuban newsprint. The first one is from the March 1911 issue of RCFC reporting on the National Philatelic Exhibition held in Habana in March 1911 for which a special concentric circles cds was issued reading "Exposición Nacional de 1911, Habana, Cuba, Servicio Postal, Estación E" and lamenting that the postal authorities didn't accompany the cancellation with a special stamp issue. The other note is from the morning edition of DMAR of May 19, 1911, reporting that special official envelopes have been provided for use by education boards in their official correspondence and asking postmasters in the island to expedite them.

The news item does not clearly state why the three philatelists mentioned at the start of the piece are traveling to Cuba. The implication is that they are hoping to thus obtain some of the newly issued stamps and plate number strips or blocks. The item continues to mention that the plate numbers of the new Cuban stamps (Scott 221-226) are in great demand and requests assistance from dealers in reporting the plate numbers that are found.

Paris, France: By the author, 1950 Edition, 459 pp.; Cuba on pp.179-181, no illustrations in the Cuba section, in French; priced in French francs. Reprinted by FISA (Fédération International des Sociétés de Aérophilatelie).

The catalog lists first flight covers numbered sequentially in chronological order; the Cuba listings comprise numbers from 1 to 141. The sequential numbers are followed by the year date and the days of departure and arrival (when different) separated by a dash and followed by a period and the month number. These are followed by the city of departure and arrival separated by a dash with the latter followed by a comma and the country of destination if not Cuba. Whenever known, airline carriers, pilots, and special cachets or cancellations are identified as well as the number of covers flown. The presentation is rather cryptic and requires a detailed reading of the key to the listings to be able to decipher the full content of the listings.

Advertisement for the sale of "cancelled" Cuban stamps, claiming that the U.S. embargo against trade with Cuba does not apply to cancelled stamps, only mint stamps. The statement is questionable since all of the cancelled stamps shown in the article are "cancelled to order" by the Cuban government and are basically the same as mint stamps, so that the embargo should still apply to them.
