Description of the special printings of Cuba Scott 221-226 made for the Paris Exposition of 1900, which are among Cuba's greatest philatelic rarities. The article explains why these special printings were made and describes their characteristics. Special emphasis is placed on the distinction between the regular issue 10c on 10c brown type I (Scott 226) and the special printing 10c on 10c type II (Scott 226A). A vertical imprint pair of Scott 226A, ex Josiah K. Lilly collection, is illustrated.

El autor señala que la idea de enviar correspondencia utilizando cohetes se originó en Austria en 1928. La idea se extendió a otros países y en 1935 se publicó un catálogo de cubiertas ilustradas con sellos y etiquetas. Narra como en Cuba en 1939 surge la idea de hacer oficial ese tipo de correo, seguida del desarrollo de los experimentos y el acto de lanzamiento oficial. Concluye señalando el posterior desarrollo y auge del tema de la cosmonáutica. En el artículo aparecen cuatro fotos del experimento cubano y una cubierta con el sello Scott C31 y el cachet conmemorativo de primer día.

("The Use of Bisects in Colonial Cuba and the Republic")

RCFCa, Yr.14, No.62, Jul-Sep 1974, pp.40-41, ill., Span.

El autor indica que los sellos bisecados se utilizaron en Cuba fundamentalmente en la etapa colonial desde 1864 hasta 1898. El uso de sellos bisecados se debía a la dificultad del aprovisionamiento desde España de los sellos de valores bajos. Reporta el caso de una tarjeta franqueada en octubre de 1902 con la mitad de un sello de 2 centavos. (Scott 228), y lo considera excepcional. Ver <ORIO7501a> sobre el mismo tema.

"sellos"—poor editorial work. By the way, the word used for stamps in Cuba is "sellos", not "estampillas". Also, the correct Spanish translation for "bisected stamp" is "sello bisecado", so the correct Spanish title of the article should have been "El Uso de Sellos Bisecados en Cuba..."

“Filatélicas” (“Philatelics”)

Miami, Florida: Magazine La Fabulosa, **mm** 1970, p.6, ill., Span. **[Need month of publication]**

Comparison between the number of stamps issued for use in Cuba from 1855 to the end of 1958 (985) and the number of stamps issued by the Castro revolutionary government from January 1959 to December 1968 (654) based on the 1969 issue of the Guerra Aguiar catalog and prediction that in the long-term future, Cuban stamps of the Castro era won’t appreciate much, given the large numbers issued and some of the policies of the government, such as the sale of cancelled-to-order stamps, whereas pre-Castro stamps should enjoy much greater interest among philatelists and much higher appreciation.

This album covers all Cuban stamps issued by the "democratic" Republic of Cuba from its inception on 20 May 1902 when Cuba was born as an independent nation to 31 December 1958 when the Castro revolution took over the government of Cuba. The album includes spaces for all postage, airmail, special delivery, postage due, newspaper stamps, and postal tax stamps issued by Cuba within the time frame specified, listed in chronological order. The album is profusely illustrated with images of the stamps. Its format is loose-leaf pages within a three ring binder. When it was put on sale initially, the album was offered for the modest price of \$10 with the intent to promote Cuban philately among Cuban youths in exile.

Article about the issue of two se-tenant stamps by Cuba in July 1957 (Scott C163a) that were listed by the Madrid Philatelic House "Hevia" in its yearly specialized catalog of Spain, ex-colonies, and African provinces as a "triptych" (Cat. No. 458A), intentionally incorrectly to promote additional sales of the se-tenant pair with a third stamp attached forming a row of three stamps (two Scott 574 on each side of a Scott C163). This initial combination of two stamps on an issued sheet of stamps was later expanded to designs of blocks of four and more stamps on a single sheet to promote additional purchases of stamps by philatelists. Prime among them were the Christmas issues of Cuba of the 1960s.

Brief article noting that few nations joined Cuba in issuing stamps celebrating the 100th anniversary of José Martí's birth in 1953. The article lists the few that did issue stamps honoring the Cuban patriot and writer and questions why several nations of Latin America in which Martí's life played a role did not issue stamps honoring the centennary of his birth. The article calls for the nations of Latin America to issue stamps honoring the upcoming 100th anniversary of his death in 1995 by issuing stamps in his honor. The article finishes listing highlights in the life of Martí from his birth to his death fighting for Cuban independence from Spain. <ORTIB-Catalogs> Ortiz-Bello, Ignacio A.

The Ortiz-Bello "Catalogs" were really periodic price lists that he started publishing in 1974 (or earlier—see note at the end of the annotation to <ORTIB7400>) on a periodic basis for the sale of his stock of Cuban stamps. Following is a listing of the known ones. Additional ones will be added as they are discovered.

1) <[ORTIB7400](#)> Ortiz-Bello, Ignacio A.

Cuba—Sellos Usados—Used Stamps

Miami, Florida: Published by the author under the name ORBE Internacional (ORBE for Ortiz-Bello), 1974, 12 numbered pages counting front cover and back cover, folded in two to form a small booklet (size 5.5 x 8.5 in.). Spanish with title and ordering instructions in English. This is a price list for used stamps by Scott Catalog number from the U.S. Administration and Republic periods into the beginnings of the Castro era. The list spans Scott numbers 233-673, B1-B4a, C1-C223, CB1, E3-E31, and RA1-RA43. The list ends with a note stating that the prices in this list supersede those of previous lists, implying that some such lists exist, but we have not come across any of them.

2) <[ORTIB7402a](#)> Ortiz-Bello, Ignacio A.

Cuba—Sellos Nuevos—Mint Stamps

Miami, Florida: Published by the author under the name ORBE Internacional, Feb 1974, 4 pages, including front and back covers, basically a single sheet folded in two to form a small booklet (size 5.5 x 8.5 in.). Spanish with title and ordering instructions in English. This list of mint stamps seems to be a companion to <ORTIB7400> which lists sale prices for used stamps. However, this list of mint stamps only covers the stamps of the Cuban Republic into the beginnings of the Castro era. The list spans Scott numbers 243-673, B1-B2, C2-C216, RA22-RA43, and Souvenir Sheets 669a and C223a with many gaps in the numbering.

3) <[ORTIB74xx](#)> Ortiz-Bello, Ignacio A.

Catálogo de Sellos Cubanos (Catalog of Cuban Stamps)

Miami, Fl.: Published under the name ORBE Internacional. Undated price list of used Cuban stamps from the Republic to the beginnings of the Castro era. No date of publication is given, but it fits right in after <ORTIB7400>, <ORTIB7402>, so we surmise this was published sometime later in 1974. The list consists of 6 unnumbered pages plus an order sheet plus front and back covers with blank inside covers (size 5.5 x 8.5 in.). Text in Spanish. This list introduces some additional features in the item listings that differentiates it from the simple listing of Scott catalog numbers and sale prices in <ORTIB7400>. Beside each Scott catalog number, the denomination of the stamp is given plus a brief description of the stamp issue to which it belongs. We also note that the listings do not comprise all Scott catalog numbers, presumably skipping stamps that were not available.

4) Catálogo de Sellos de Cuba—Intervención y República

(Catalog of Cuban Stamps—U.S. Administration and Republic)

Miami, Fl.: Published under the name Ignacio A. Ortiz-Bello.

The following set of catalogs are all published as small booklets with pages plus covers (size 4.25 x 7 in).

Text in Spanish with title and ordering instructions in English.

These catalogs are basically sale price lists for mint and used Cuban stamps by Scott Catalog number.

These yearly catalogs are simply a continuation of Ortiz-Bello's previous price lists—see <ORTIB7400>, <ORTIB7402a>, and <ORTIB74xx> but with both mint and used prices for the stamps in left and right columns respectively. The listings cover the U.S. Administration and Republic periods into the beginnings of the Castro era before the U.S. embargo on the importation of Cuban stamps. Most Scott catalog numbers are listed for regular postage stamps, airmail stamps, special delivery stamps, and postal tax stamps (Scott RA listings). The 1975 catalog only listed prices for new and used stamps. Starting with the 1976 issue, the format used in <ORTIB74xx> was introduced, adding beside each Scott catalog number, the denomination of the stamp and a brief description of the stamp issue to which it belonged. Additionally, small images of some of the stamps listed were included in a new column to the left of the listings.

Known issues are as follows:

[1975, 24 unnumbered pages](#)

[1976, 16 unnumbered pages](#)

[1977, 20 unnumbered pages](#)

5) Catálogo de Sellos de Cuba (Catalog of Cuban Stamps)

Starting in 1978, the listings are expanded to include Spanish colonial era stamps and the subtitle “Intervención y República” (“U.S. Administration and Republic”) is dropped from the catalog titles. Additionally, after the 1978 issue, the listings are expanded to include other categories of stamps, such as postage due, souvenir sheets, etc.

[1978, 20 unnumbered pages](#)

[1979, 24 numbered pages](#)

[1980, 24 numbered pages](#)

Don't know if there were versions of this catalog published for 1982 and 1983; the next price list we received from Ortiz-Bello was his 1984 price list (see <ORTIB8400>).

6) <[ORTIB8400](#)> Ortiz-Bello, Ignacio A.

Cuba—Sellos para coleccionistas—Stamps for Collectors

Miami, Fl.: Undated, but postmarked in 1984, 8 unnumbered pages plus covers (size 5.5 x 8.5 in.). Text in Spanish with a sprinkling of English.

This is a sale price list for mint and used stamps by Scott Catalog number from the U.S. Administration and Republic periods into the beginnings of the Castro era before the U.S. embargo on the importation of Cuban stamps. This is a continuation of the Ortiz-Bello yearly price lists in the format of the 1976-1981 price lists but without the leftmost column showing illustrations of some of the stamps offered. There were subsequent price lists dated [1987](#) and [1991](#) (don't know if there were any intervening or following issues).

7) <[ORTIB-a](#)> Ortiz-Bello, Ignacio A.

Cuba—Era Colonial (Cuba—Colonial Era)

Miami, Florida: No publication information available, 4 pages plus cover (size 5.5 x 8.5 in.). Text in Spanish. This is basically a sale price list of Cuban colonial stamps using the same format as <ORTIB8400> and the subsequent lists of 1987 and 1991.

Catálogo del Estacionario, Telégrafo y Devolución de la República de Cuba (Catalog of the Postal Stationery, Telegraph Stamps, and Stamps for Officially Sealed Mail of the Republic of Cuba)

Miami, Florida: No publication information available, 8 pp. (8.5 x 11 in.), Span.

The postal stationery section of the catalog is a reprint of <H&G6600>, a fact that helps date this catalog between 1966 and 1974 when the second edition of the Higgins & Gage catalog was published. The Telegrafos and Devolución sections of the catalog are probably taken from a Spanish Hevia catalog (see <HEVIA> listings). We note that the listing for 1858 stamps in the "Telegrafos" section is not for telegraph stamps but rather for Official Mail stamps used by governmental agencies to frank official correspondence. These are not listed in the Hevia catalogs, so we don't know where the listings come from. Prices for the listings in the catalog are given in U.S. dollars in two columns, the left one for unused copies and the right one for used ones. This is a rudimentary catalog put together from existing sources to help Mr. Ortiz-Bello in his stamp sale business, thus prices are probably his selling prices for the items listed at the time of publication.

"A Scarce Quadrisect Stamp Usage"

CPa, Vol. 23, No.66, Sep-Dec 2012, pp.1, 3-5 (4), ill., Span. & Eng.

The Spanish title should have been "El Escaso Uso de un Cuadrisecto Postal". The cover front shown on the front cover of the journal is suspect. Note that the stamp is not tied to the cover on its left cut margin. Also note that we are dealing with a cover front which does not tell us much about the contents of the mailing. This was probably a bisected stamp used to pay the rate of 2.5 ¢ for a circular between two towns that has been altered by removing half of the bisected stamp to create a more rare quadrisect usage.

Bibliografía Postal Iberoamericana (Spanish-American Postal Bibliography)

This work in its original manuscript form (typewritten) is found in the Postal Museum in Madrid. It was never published as one work; but appeared in a series of articles in BAIHP which included only books pertaining to Spain. The BAIHP articles appeared in Yr.3, No.3, Mar 1947; Yr.4, Nos.6 and 7, Mar and Jun 1948; and Yr.5, Nos.10 and 11, Jun and Oct 1949. Both cited items are in Spanish. Excellent reference on postal history, ship routes, etc. Cuba included in many routes. Five enlarged maps included in this work are intended for mounting in a collection so that the routes of covers may be illustrated.

The original manuscript has five parts:

Part 1--Libros (Books), 349 pp.

Part 2--Missing

Part 3--Artículos (Articles), 399 pp.

Part 4--Artículos (Articles), 258 pp.

Part 5--Artículos (Articles), pp.259-539.

Do not know the extent to which this bibliography addresses works of relevance to Cuban philately, but the title implies that items of interest to the researcher of that area should be included. This needs to be verified.

Vol.5--La corporación postal postal española en sus aspectos religioso, benéfico, cultural y político-social (The Corporate Body of the Spanish Post in Its Religious, Charitable, Cultural, and Political-Social Aspects)

The five volumes are broken into parts that are dated when completed:

Vol.1, Part 1--412 pp., 1956; Part 2--395 pp., 1956; Part 3--423 pp., 1956;

Part 4--449 pp., 1956; Part 5--304 pp., 1960.

Vol.2, Part 6--379 pp., 1960; Part 7--262 pp., 1961; Part 8--256 pp., 1960;

Part 9--434 pp., 1960.

Vol.3, Part 10--349 pp., 1961; Part 11--302 pp., 1961; Part 12--295 pp., 1962;

Part 13--301 pp., 1962; Part 14--377 pp., 1962.

Vol.4, Part 15--305 pp., 1962; Part 16--305 pp., 1963; Part 17--458 pp., 1963.

Vol.5, Part 18--323 pp., 1963.

"La historia del Correo en la España de Ultramar"

("History of the Posts in the Spanish Overseas Domains")

BAIF, Yr.37, Nos.134-136, Jan-Oct 1981, pp.72-88 (17), including an index by José Jurdado Martín;

BAIF, Yr.38, Nos.137-141, Jan-Dec 1982, pp.65-365 (300),

BAIF, Yr.39, Nos.142-143, Jan-Jun 1983, pp.142-171 (30); for a total of 347 pp.

This is a serial publication of Vol.2 of <ORTIV5600>. It consists of four volumes comprising 45 chapters. The first few introductory chapters contain generic postal history information relevant to all Spanish overseas domains; however, chapters 30-43 are dedicated to Cuba and contain a wealth of information on Cuban postal history (see <JUSD8101> for detailed contents).

<ORTU1210> Ortuondo, José María

"El sello de fechas de 1842: Baezas Peninsulares"

("The 1842 Datestamps: Peninsular Baezas")

ACAD, Vol.XIII, No.16, Oct 2012, pp.55-69 (15), ill., Span.

Quoting from the English summary provided at the end of the article: "This article describes the characteristics of the 1842 datestamp, popularly known as *Baezas*, and reproduces the legislation concerning its creation and fortunes until 1854, as well as changes in postal rates that affected it during the years it was in use. The author researches the Baezas of Spain's 31 postal districts and their characteristics." Although the article focuses specifically on the Baezas of Spain, the use of the Baeza datestamps was extended to the Spanish colonies, including Cuba, and thus the article contains useful background information for the Cuban philatelist.
