LINN, 16 Feb 1987, p.28, ill.

Description of the special printings of Cuba Scott 221-226 made for the Paris Exposition of 1900, which are among Cuba's greatest philatelic rarities. The article explains why these special printings were made and describes their characteristics. Special emphasis is placed on the distinction between the regular issue 10c on 10c brown type I (Scott 226) and the special printing 10c on 10c type II (Scott 226A). A vertical imprint pair of Scott 226A, ex Josiah K. Lilly collection, is illustrated.

Comparison between the number of stamps issued for use in Cuba from 1855 to the end of 1958 (985) and the number of stamps issued by the Castro revolutionary government from January 1959 to December 1968 (654) based on the 1969 issue of the Guerra Aguiar catalog and prediction that in the long-term future, Cuban stamps of the Castro era won't appreciate much, given the large numbers issued and some of the policies of the government, such as the sale of cancelled-to-order stamps, whereas pre-Castro stamps should enjoy much greater interest among philatelists and much higher appreciation.

This is a collection of photos that were posted in the walls of the philatelic store maintained by Ignacio A. Ortiz-Bello in la “Calle 8” (8th St. S.W.) of Little Havana, Miami, Florida, for many years. The linked PDF file was downloaded from the Website on March 20, 2008, and consists of 7 pages containing 11 photos. The photos are of friends that visited his store, many of them Cuban philatelists. As a prolific philatelic writer, philatelic dealer, and expert philatelist specializing in Cuban philately throughout a long career spanning more than five decades from his days in Cuba to his present residence in Miami, Florida, Mr. Ortiz-Bello has been actively involved in Cuban philatelic circles unselfishly sharing his wide philatelic knowledge with everyone. Many of us who visited him at his store in Little Havana fondly recall the many hours spent there engaged in pleasant and always interesting conversation while looking at some of his philatelic offerings and at pictures of some of his visitors displayed on the store's walls. In these pages, Mr. Ortiz-Bellos is offering some of those picture for our continued enjoyment and recollection of many pleasant moments spent in his company.

Foro Internacional de Filatelia Ignacio A. Ortiz-Bello (The Ignacio A. Ortiz-Bello International Philatelic Forum) Website at <http://filatelia.mimecanicapopular.com/index.php> maintained by Mr. Ortiz-Bello as a forum dedicated to international philately. Among the items of interest to the Cuban philatelist in this Philatelic Forum is a copy of the entries of all the works by Mr. Ortiz-Bello pertaining to Cuban philately extracted from this bibliography in which all of the citation keys are tied to the source documents. The Forum also contains entries <[ORTIB0803a](#)> and <[ORTIB0803b](#)> from this bibliography.

Catálogo del Estacionario, Telégrafo y Devolución de la República de Cuba (Catalog of the Postal Stationery, Telegraph Stamps, and Stamps for Officially Sealed Mail of the Republic of Cuba)
Miami, Florida: No publication information available, 8 pp., Span.
The postal stationery section of the catalog is a reprint of <[H&G6600](#)>, a fact that helps date this catalog between 1966 and 1974 when the second edition of the Higgins & Gage catalog was published. This is a rudimentary catalog put together from existing sources to help Mr. Ortiz-Bello in his stamp sale business.

Bibliografía Postal Iberoamericana (Spanish-American Postal Bibliography)
This work in its original manuscript form (typewritten) is found in the Postal Museum in Madrid. It was never published as one work; but appeared in a series of articles in BAIHP which included only books pertaining to Spain. The BAIHP articles appeared in Yr.3, No.3, Mar 1947; Yr.4, Nos.6 and 7, Mar and Jun 1948; and Yr.5, Nos.10 and 11, Jun and Oct 1949. Both cited items are in Spanish. Excellent reference on postal history, ship routes, etc. Cuba included in many routes. Five enlarged maps included in this work are intended for mounting in a collection so that the routes of covers may be illustrated.
The original manuscript has five parts:
Part 1--Libros (Books), 349 pp.
Part 2--Missing
Part 3--Artículos (Articles), 399 pp.
Part 4--Artículos (Articles), 258 pp.
Part 5--Artículos (Articles), pp.259-539.

Do not know the extent to which this bibliography addresses works of relevance to Cuban philately, but the title implies that items of interest to the researcher of that area should be included. This needs to be verified.
