"Cuba -- Great Britain -- Jamaica"

P, Vol.36, No.10, WNo.545, Jul 1970, front cover, ill.

Illustration and description of a remarkable cover bearing the stamps of the three countries listed in the title, all apparently applied by the sender and cancelled when posted. The letter was posted in Cienfuegos, Cuba, on 13 September 1876, travelled via the ship "Alicante" to Havana and was then routed by a private vessel its destination, Kingston, Jamaica, arriving there on 27 September 1876. The caption on the illustration provides a few other details of the cover's routing and markings. See [<FOST7101>](#) for an analysis of the routing of this cover and [<JEWEL7104>](#) for additional comments. This cover was sold for £280 as lot 724 of [<ROBSLL6911>](#).

Critique of an article by G. Ackein originally published in French in the Echo de la Timbrologie. The English translation is printed as the first part of this article, followed by G. A. Padro's critique.

This article is a critique of the article "The Y 1/4 of Cuba" by G. Ackein (see [<ACKE9412>](#)), correcting Mr. Ackein's interpretation of the letter Y in the surcharge and providing additional information on surcharge measurements and varieties, but also incorrectly reporting the existence of the surcharge on paper with a "lozenges" watermark corresponding to the crossed lines watermark paper of the 1856 printing of the first issue of Cuba on which the surcharge does not exist.

It produced thirty issues during the years 1954-57 and then ceased publication. While it existed, it served to make the Federation the outstanding center for students of Latin American philately. Its guiding spirit was its first editor, Peter B. Wright, and the cessation of the Federation and its magazine arose from his untimely death. The catalog claims to be the first and only one published in Cuba up to that time—a fact that is incorrect (see for example, <CF0506>, <CF1404>, <CFC1300>, <CFM0200>, <GUTIHJ1400>, <GUTIHJ3208>). "Silent Items"

PW, Vol.23, No.2, May 1903, page unnumbered.

Report of the discovery that Cuba Scott 130 exists in the first retouch as well as in the third; adding to the list of varieties of the reengraved issues of Cuba of the late 1880s published by Donald A. King in a recent issue (at the time) of MK. The report is inaccurate: in the first place, there is no third retouch of the issues mentioned; and in the second place, there is only one Scott 130, 10c blue of 1888, and it is of the type currently classified by Scott as of the first retouch.

An unpublished work by the author who developed it to support his collection of Cuban postal machine cancellations up to December 1951. The work lists and illustrates 18 slogan cancellations known to the author, briefly explaining the purpose of each slogan cancellation and known period of use. It fails to list two rare Cuban slogan cancellations: the 1926-32 "Escuelas y caminos son base de progreso. Asistiendo a aquellas y conservando éstos se consolida la patria." and the 1928-32 "Visite Cárdenas y su playa de Varadero". Citing <GAHL8400>, p.107: "Invaluable book for the postal historian of Cuba. Has information about every town with its early history. In Vol.2, the section on post offices (pp.149-160) and railways (pp.329-373) are excellent. In all, a monumental work and easily the most important geographical and census reference on Cuba up to 1863." This work is of particular value for the postal historian because it has detailed geographical, historical, and statistical information about all places in the entire island of Cuba down to the smallest of towns, farms, and factories up to the time of its publication. For every place listed it includes its political, judicial, and administrative jurisdiction. It also contains information about all means of communication and transportation in the island.

"Y 1/4 -- Y Nació la Primera Sobrecarga del Mundo"

("Y 1/4 -- And the First Surcharge of the World Was Born")

PF, No.42, Jan-Mar 1954, p.10, Span. Probably written by the editor and publisher of PF José Majo Tocabens.

Account of the circumstances that led to the creation of the World's first surcharge on a stamp (Scott 5-8) and explanation of the meaning of the "Y 1/4" with a discussion of various erroneous interpretations. It is worth noting that the article states that the setting of the surcharges for the plate of 170 stamps was made on the basis of 100 surcharges. This statement is not explained any further and its meaning is unknown. Current belief is that narrow "Ys" were used in setting the surcharges of the first seven rows of 17 stamps (7 x 17 = 119 stamps) of the plate and wide "Ys" were used for the remaining 3 rows (see <KOUR9701>).

"Some New 'Fakes'."

PG, Vol.1, No.4, 15 Dec 1910, p.59.

Report of new forgeries of the U.S. stamps surcharged "CUBA 2c." with inverted surcharge (Scott 222c) and of several stamps of the Puerto Príncipe issues (not specifically identified). Opinion that the rarest Puerto Príncipe stamps are the narrow 3c. on 2m. orange brown (Scott 179G) (3 copies known) and the narrow 5c. on 1m. blue green (Scott 212) (only one copy known).

PG, Vol.1, No.4, 15 Dec 1910, p.65.

Denial of the existence of a re-engraved 3c. purple of the 1905-07 series (Scott 233-237). The stamp would have been Scott 235--a number that has been missing from the listing of Cuban stamps in Scott catalog since the 1905-1907 series was issued, marking the place for the unissued stamp.

"Cuba"

PG, Vol.2, No.15, 1 Apr 1912, p.257.

Short note on the inverted centers of 1910. The note reports that 33 copies of the 2c value (Scott 240a) were noticed at the Placetos (not Placetos) post office and saved from possible sale to the public and eventual loss. The note also indicates that a full sheet of the 1c value (Scott 239a) and another sheet of the 10c special delivery stamp (Scott E4a) have been found and that possibly all values exist with inverted centers. Eventually, only the 10c value (Scott 244a) was also found with an inverted center (see <PG1209>).

"Cuban 'Specimen' Envelopes"

PG, Vol.2, No.16, May 1912, p.315.

This item is only a checklist of specimen envelopes issued in 1899, indicating their denomination, size, and paper color. This is probably a follow-up of <PG1203> that incorrectly lists their date as 1899 instead of 1902 as in the preceding article and fails to list all 24 envelopes that are mentioned there as comprising a complete set. No Columbus Specimen envelopes on watermarked paper have ever been verified to exist as of this writing.

"Puerto Principe Forgeries"

PG, Vol.3, No.10, Jun 1913, p.200.

This is a warning to collectors of the Puerto Príncipe surcharged stamps to be very wary when buying examples of these stamps since many excellent forgeries of the surcharges exist. The article recommends collectors to only buy them from someone who has a good reference collection of the genuine ones and can guarantee their genuineness. It also indicates that stamps signed by Parras on the back used to be considered a guarantee of genuineness, but that such is no longer the case as some of those have been identified as forgeries also.

Announcement that the American Bank Note Company will no longer print stamps for Cuba and that the contract for doing so has been awarded to López Rodríguez, vice-president of the National Bank of Cuba who owns a printing plant in Havana. The article indicates that the contract for a new set of stamps has been awarded to the new firm, but does not provide further details of their design or denominations. The article does show a picture of the purported but still unconfirmed design of a forthcoming special delivery stamp showing a Bleriot monoplane flying against a background showing the entrance to Havana's harbor with the Morro Castle (Scott E5).

Announcement that the designs of the new set of Cuban stamps mentioned in <PG1308> has been revealed to be "a map of the island with the steamship connections indicated by lines radiating in various directions" (Scott 253-262) and that the special delivery stamp (Scott E5) will be as indicated in the previous article. No denominations are provided for the set of regular postage map stamps, but the article mentions that the engraving has been done

PG, Vol.4, No.2, Feb 1914, pp.27-28.

Detailed recount of the inverted centers reported up-to-date with indication of the numbers of each found and their whereabouts when known. The article also includes copy of a communication to the Chief Inspector of Mails at Havana from an inspector appointed to investigate the occurrence of the inverted centers testifying that the sheet of 100 special delivery stamps (Scott E5) with inverted stamps is indeed genuine and unique and that it was sold at the Holguín post office. The communiqué is accompanied by a photograph of the sheet of stamps with a note on the back by the Acting Postmaster at Holguín stating that the sheet is original and that it was sold to a Mr. Héctor Repetti on January 10, 1912. The communiqué goes on to state that notice has been sent to all post offices in the island requesting postmasters to check their stock of stamps to verify whether other sheets of stamps with inverted center exist and that none others have been reported.

Specialized Catalog of the Postal Stationery of Cuba During the Socialist Era, 2000 Edition

Co-author: Santiago Portuondo Zúñiga (see <PORT0000>)

San Francisco, California: Privately published by the authors, 2000, 175 pp. plus 13 unnumbered pages, profusely illustrated, in Spanish. The catalog is printed on 8.5 by 11 inch pages and is spiral bound.

The catalog was awarded VERMEIL prize at the Exposición Filatélica Nacional in Havana, Cuba, October 2005.

A very comprehensive priced catalog of aerograms, stamped envelopes, postal cards, military postal stationery, and acknowledgement of receipt postcards of Cuba during the socialist era (1959 to 2000). This is a comprehensive catalog that is profusely illustrated and provides prices for both unused and used stationery.

The catalog includes all known varieties of the listed items, but does not provide pricing for most of the varieties. Pricing is reasonable for this type of modern material. This catalog is highly recommended for the Cuban postal stationery collector.

"The Monthly Journal. Quite a controversy has raged recently on the subject of the 'Y 1/4' Cuba stamps..."

PJGB, Vol.10, No.120, 20 Dec 1900, pp.224-225.

Report of a continuing controversy over the meaning of the Y 1/4 surcharge on Cuban stamps. The discussion this time centers about an editorial in the Monthly Journal in which the editor questions the interpretation by Mr. Andreini (see <ANDRE90010>) that the official Decree of November 1855 establishing the local post for the city of Havana indicated that the total charge for delivering a letter within the city would be 1/4 real irrespective of its weight. This interpretation is questioned because it would represent a huge reduction in the postage charged for delivering local letters within the city. The editor then cites the interpretation proposed three years previously by Mr. Gainsborg (see <GAIN0012>) that the 1/4 real just represented an additional fee for delivery of the letter that had to be prepaid by the sender rather than by the recipient as was the previous usage. The article ends without a final conclusion on the matter, but favors Mr. Andreini's interpretation.

The article indicates that the blue "ULTRAMAR" handstamp shown on a piece of postal stationery from Cuba was applied as a theft deterrent at the Portuguese Post Office Headquarters in Lisbon to specimens or samples of postal species received from other postal administrations and distributed later to Portuguese overseas possessions and colonies for their reference. The example illustrated in the article was received from Alfredo E. Valdés, a Cuban postal stationery specialist, who indicates that he has seen it on Cuba Scott No. UX2 (a postcard) and Nos.W1 and W2 (wrappers). [The overprint is also known on Cuban envelopes.]

Catálogo Especializado de Enteros Postales de Cuba de la Epoca Socialista, Edición 2000

Specialized Catalog of the Postal Stationery of Cuba During the Socialist Era, 2000 Edition

Co-author: Mark Piper (see <PIPE0000>)

San Francisco, California: Privately published by the authors, 2000, 175 pp. plus 13 unnumbered pages, profusely illustrated, in Spanish. The catalog is printed on 8.5 by 11 inch pages and is spiral bound.

A very comprehensive priced catalog of aerograms, stamped envelopes, postal cards, military postal stationery, and acknowledgement of receipt postcards of Cuba during the socialist era (1959 to 2000). This is a comprehensive catalog that is profusely illustrated and provides prices for both unused and used stationery. The catalog includes all known varieties of the listed items, but does not provide pricing for most of the varieties. Pricing is reasonable for this type of modern material. This catalog is highly recommended for the Cuban postal stationery collector.

“Telegraph Stations” is a list of all military telegraph offices being operated by the U.S. Signal Corps in Cuba at the time of publication. The list includes the names of the offices and the names of the provinces where they are located. These offices transact Government business free of charge. A paragraph and table preceding the list provides tariffs per word for commercial messages transmitted over military telegraph lines. The “List of railroad telegraph stations...” indicates that “official telegrams can be sent to any of these points as the railroads are required to transmit all official telegrams” and provides instructions for the proper routing of telegrams destined for places where there are no military telegraph offices. The “Means of travel between Posts and nearest Railroad Stations” lists the means of travel between posts at major cities and their nearest railroad, indicating intervening distances and population of the cities served.

The documents include the following:

- 1) copy of the Royal Decree authorizing the Overseas Minister to conduct a public auction for awarding the contract to transport mail via steamship between Havana and San Juan, Puerto Rico;
- 2) notice of publication of the Royal Decree in the Madrid Gazette of 7 May 1881;
- 3) cover letter dated 11 Oct 1881 conveying a copy of the awarded contract to the Overseas Ministry in Madrid;
- 4) request dated 18 January 1883 for a copy of the contract for the steamship mail service that was awarded to the Marqués del Campo;
- 5) reply to the request above dated 20 April 1883 conveying the requested copy of the contract;
- 6) letter dated 20 April 1883 from the Minister of Finance to the Governor General of Puerto Rico inquiring whether the conditions attached to the contract included payment for the conveyance of official Government personnel on the ships of the company in view of a request for payment received from the company;
- 7) notice from the Postmaster General to the Governor General of Puerto Rico dated 12 January 1884 that mail for Cuba recently arrived from Spain on board the steamship "Habana" has been forwarded from Puerto Rico on the steamship "Emiliano" instead of the steamship "Mexico" of the company of the Marqués de Campo that should have carried it as contracted, to avoid delaying it further to the detriment of the interests of commerce and the public of the island of Cuba;
- 8) notice dated 13 January 1884 to the Governor General of Puerto Rico that a telegram has been received from the representative of the company of the Marqués de Campo in Havana notifying that the company is ceasing service in the Antilles, with marginal note from the Governor General that copy should be sent to the Postmaster General;
- 9) transmittal of the above notice to the Postmaster General;
- 10) notification from the office of the Governor General of Puerto Rico, dated 14 January 1884, of the resolution, dated 21 December 1883 in Madrid, by a council of the Overseas Ministry to rescind the contract for the transport of mail via steamships between Havana and San Juan, Puerto Rico, as requested by the company holding the contract. in view of non-payment of services by the Government. Details of the claims and ongoing litigation are provided as part of the comunique.
- 11) cover letters dated 15 January 1884 copying the above notification to the Postmaster General and to the Minister of Finance for their information, and to the official Gazette for publication.

Discussion of the differences between the first three issues of stamps for Cuba under the Spanish administration and varieties in color and paper existing in them. The article challenges the view expressed by Fernández Duro in <FERND8100> that these three issues can really be considered to be one issue printed in various papers.

("Some facts about Spanish Antilles stamps. Part II. 1855")

CA, 3rd Epoch, No.3, 15 Sep 1899, pp.41-45, ill., Span.

Continues discussion of paper and color varieties of the first issue of Spanish Cuba in <POWE89908>, but focuses on the interior mail service for the city of Havana using 2 reales stamps of 1855 which were surcharged Y 1/4 pending the arrival of 1/4 real stamps ordered from Spain. Details of the legislation authorizing the stamps, their printing, gives measurements of the narrow and wide varieties, and correctly rejects the existence of the surcharge on 2 r. stamps of the second issue printed on paper with watermark of crossed lines. However, the article contains some erroneous information about the surcharged stamps. First, it states that the narrow and wide varieties resulted from different printings when one printing was exhausted. The fact is that both types of surcharges were used together in the printing of each sheet. Second, it states that the surcharged stamps were used to frank circulars throughout the entire island, which as far as I know is not true. Third, it states that the surcharged stamps were seen used as postage due stamps on incoming foreign mail. Such usage I have not seen reported elsewhere; I can only surmise that the author may have seen a privately carried letter from abroad which was posted within the city of Havana by the carrier upon arrival.

This article provides an overview of these datestamps that were in use in Cuba during the last decade of the Spanish Administration starting from 1888 to 1898 and even into the U.S. Administration period until they were replaced by U.S. type datestamps. The overview is followed by an inventory of the known examples of these numbered datestamps identifying for each their earliest and latest known dates of use. The general format of the datestamp is illustrated, but no actual images of any of the datestamps are provided. The intent of the article was to generate interest in these datestamps and to solicit further examples of these datestamps from the public. This objective was realized with the publication of a follow-up article with additional examples in 2001 (see <[GARCF0109](#)> or <[MARI0109](#)>). Also see <[RIOSP0807](#)> for another article and listing of these datestamps. Eventually, the information in this article and all of its sequels was consolidated into the entry [Archive of Numbered Circular Datestamps—Inventario de los fechadores circulares numerados YSLA DE CUBA \(1888-1899\)](#) in the Spanish Administration section of “Pages from Cuba Collections” of the FILACUBA Website.

Spain and Latin America Stamps and Postal History

New Jersey: H.R. Harmer, Inc., Sale 2971, 27 April 2007, Cuban lots #157, 160-445, ill.

The Cuban material in this sale was from the Ignacio Prats collection (this entry is also listed as <HARM0704>). However, with some possible exceptions, the material was not from his main collections which were sold in June 2006 by Greg Manning Auctions (see <PRAT0606> above), but rather from his files of reference and secondary material. Lots #160-176, 201-202, and 208 were withdrawn since they were mistakenly taken from a stockbook of forgeries. This fact was noted by Prats and he promptly notified the auctioneer who withdrew the lots.

The Cuban material comprised a large holding of early issues including and a large collection of postal history with stampless covers, town cancels, incoming covers from other countries, foreign destinations, Correo Marítimo markings, British and French postal agencies in Cuba, and US Postal Administration in Cuba. Images of most lots in the sale are available in my library, as well as PDF files of the following large lots: [203](#), [204](#), 207 ([Part 1](#) and [Part 2](#)), and [210](#).

Habilitación de Papel Sellado en España y sus Dominios

(Validation Surcharges on Stamped Paper of Spain and Its Domains)

Madrid, Spain: Published by El Averiguador, printed by Imprenta Rivadeneira, 12 May 1872, 31 pp., ill., Span.

Small pamphlet detailing various validation surcharges in revenue paper of Spain and Spanish colonies of America. These validation surcharges were applied for various purposes, but mainly to declare the period of valid use of the various species of revenue paper. Since revenue paper for the Americas was printed and also mostly surcharged in Spain, as stated in the middle of the second column of page 22, the information and description of the revenue paper for Spain and some of its American colonies contained in this work may be useful for comparison purposes with those specifically used in Cuba. Of special interest for comparison purposes are pages 20 to 22 containing the descriptions of the "Habilitado por la Nación" overprints ordered to be applied to all revenue paper and postage and telegraph stamps by the Madrid Provisional Revolutionary Junta on 30 September 1868 and which were supposedly used until the end of December 1869. The work describes various types of these overprints known to the author from different Spanish towns. An English translation of this section can be found in <CUES0601>. Additionally in the section on the revenue paper of Spanish America (Indias), the author makes specific references to samples of revenue paper from Cuba on pages 28 and 30.

<PW> The Philatelic West and Camera News/The Philatelic West and Collector's World

Published monthly at Superior, Nebraska. Established in 1895. Publication started under the first name; then changed to the second sometime between May 1904 and June 1908 (don't have exact details). The magazine regularly contained reports of Cuban new issues and other items relative to Cuban philately of the times. The following entries cite the most interesting of these reports. Mere announcements of new issues and trivia items are not cited.

Question from a reader about why the 25c. Cuban revolutionary junta stamp (presumably the 1896 Edifil No.5 Correo Insurrecto stamp—listed on p.74 of <EDIFIL0200>) is not listed [item doesn't specify where] together with the 10c. green stamp (presumably the 1874 Edifil No.1 Correo Insurrecto stamp—also listed on p.74 of <EDIFIL0200>). The response from the column writer is that only the 10c. stamp is known to have been postally used. This answer is incorrect and does not even acknowledge the existence of other values in the 1896 set (Edifil Nos.2-4). For several examples of the use of these stamps see <ROBEP8803>, pages 7-13.

Report of having seen current Cuban stamps imperforate on cover, regularly cancelled. The note ends with the following observation: "Information on these stamps other than singles is lacking". It is not clear whether this means that all of the samples observed on covers are singles—that seems to be the implication. The reference is probably to the map issue that is known imperforate (see note in Scott after Scott Nos. 253-262); however, it is interesting to see them being reported as used on covers at the time, since the imperforate stamps are believed to be proofs that did not enter into the philatelic market until much later (Scott makes no mention of them until 1984).
