Photo of FDC with center gutter block of the stamp dedicated to the centenary of the first postage stamp (Scott C32) showing label in center gutter: "Centenario del Primer Sello Postal 1840 1855 1902 1940". The dates refer to the first British postage stamp (first in the world), the first Cuban postage stamp of the Spanish Administration, the first Cuban stamp of the Republic, and the centenary of the first British postage stamp. The cover was sent to Stamps magazine by Edelberto de Carrera and is one of three Mr. Carrera is said to have mailed.

"Cuban Philatelists Protest Presentation Sheets of Imperforate Democracy Issues"

S, Vol.41, No.5, WNo.529, 31 Oct 1942, p.154.

Report of the presentation of full imperforate sheets of the set of Cuba's Pro Democracia stamps (Scott 368-372) to David Joffo, who was so honored because he supposedly had suggested the idea for the set and that of the Fifth Column stamps (Scott 375-379) to the Cuban Government. Another set of full imperforate sheets was given to Mr. Joffo for conveyance to President Roosevelt as a gift from President Batista. Cuban philatelists were enraged about these gifts and the Cuban Philatelic Club sent a letter of protest to the Minister of Communications demanding the issuance of substantial amounts of these stamps in imperforate condition for the general public. The protest seems to have worked because the imperforate stamps were issued.

"Scott RA6—Victory Postal Tax Issue—1/2c grey—issued October 1944"

S, Vol.42, No.4, WNo.541, 23 Jan 1943, p.129.

Report from a Cuban philatelist of 1) The absence of perforations on the right-hand vertical border of right-hand panes and left-hand vertical border of left-hand panes of Scott RA6. Additionally, the note mentions that the imperforate stamps are also partially gummed vertically and poses an explanation for the cause of both irregularities, 2) The purchase of a collection of U.S. military post offices in Cuba, all on pieces of covers with station numbers running from 1 to 38 with a just a few breaks in the sequence, and 3) The existence of fake Cuban overprints on U.S. stamps, including postage due stamps (Scott J1-J4) with fake diagonal overprints.

“Jose Martin Was A Champion of Cuban Independence”

S, 1 Jul 1995, pp.xx-yy (2), ill. The title should have been “José **Martí** Was A Champion of Cuban Independence” Brief biographical notes on José Martí illustrated with several stamps issued in his honor by Cuba and one from México. Don’t know the relationship of the illustration without caption reading “Foreign Focus, Sheldon Paris” to the article. Martí’s name is also misspelled in the caption of the Mexican stamp, but is spelled correctly in the body of the text albeit without the required accents.

When the Cuban content of one of these auctions is of extraordinary importance or is from a well known collection, the auction has a separate entry in this bibliography. Following is a listing of the auctions with significant Cuban philatelic material listed chronologically (this list is not exhaustive—it only includes those auctions with significant Cuban content for which I have had access to a catalog).

(International Stamp Auction: 6-7 March 1990)

Barcelona, Spain: Soler & Llach subastas internacionales, s.a. international auction held 6-7 March 1990.

Cuba in lots 1865-2034, but also of interest was the Puerto Rico material in lots 2035-2268 some of it consisting of Antilles material common to Cuba and Puerto Rico. Most of the Puerto Rico material came from the collection of Dr. Antonio M. Longo, of Alexandria, Virginia, and can be traced back to the Preston, García Lomas, and Tows collections. See <SGAG8102> for a direct trace of Dr. Longo’s collection to that of García Lomas.

Cuba. Incluyendo la Colección del Dr. Ibáñez.

(Cuba. Including the Collection of Dr. Ibáñez.)

Barcelona, Spain: Soler & Llach subastas internacionales, s.a. Catalog of the international auction of the Dr. Miguel L. Ibáñez collection of Cuba, held December 15, 1995, containing 487 lots, profusely illustrated, in Spanish, bidding in U.S. dollars. [Prices realized](#) handwritten on the margin during the auction.

Outstanding auction dedicated in its entirety to first class Cuban material from the Dr. Miguel L. Ibáñez collection covering the pre-philatelic period, British and French postal agency mail, maritime shipping company mail, Cuban forwarders, and the philately of the Spanish colonial period, the U.S. Administration, and the Republic. The strength of the auction was in the 19th century material, especially the stamps and covers of the Spanish colonial period. The U.S. Administration period was only four lots plus a collection of postal stationery of both the U.S. Administration and the Republic which did not sell. The material of the republic included an outstanding selection of booklets and booklet panes, a complete set of the Cuban inverts, and a few other proofs and essays, but did not have great breadth. Included also were an outstanding collection of telegraph stamps with proofs and essays and a similarly outstanding collection of revenues (the first one sold, the latter didn’t). Even though the

auction was advertised as containing the entirety of Dr. Ibáñez's collection, significant parts of it were missing as determined from talking to various persons that knew the contents of his collection and could not find key items from it in the catalog. An example of this could be observed in lot 210, an accumulation of material from the 1855-60 first three issues of Isabel II from which all the 2r. stamps with loop watermark were missing and all but one strip of 10 with the sheet header of the 2r. stamps without watermark were also missing--items which certainly were not missing from a collection of the caliber of Dr. Ibáñez's collection. I attended the auction, studied the material offered for several days before the auction, and bought a considerable amount of the stamps and covers of the Spanish Administration and of the booklets and booklet panes of the Republic.

Ibáñez collection (lots 3210 through 3218) sold by the same firm in December 1995 (see auction listing <[S&LL9512](#)> above). Cuba. Colección Ignacio Prats. (Cuba. The Ignacio Prats Collection.)

Barcelona, Spain: Soler & Llach subastas internacionales, s.a. Catalog of the international auction of the Ignacio Prats collection of Cuba, to be held 19 Nov 2009. The auction catalog, fully dedicated to the Prats collection was placed on the Soler & Llach auction house Internet Website for a few days and then withdrawn. The auction as embodied by this catalog was never held. Shortly thereafter portions of the collection offered in this catalog appeared as part of a larger sale of Spain and Spanish Ex-Colonies that was held 16 Nov 2009 that is listed as the next entry in this bibliography. The suspended auction consisted of lots 1001-1159 (159) on pp.1-63, with lots profusely illustrated, descriptions in Spanish, and starting prices in Euros. Missing from the subsequent auction were lots 1001 through 1082 of this sale comprising the material corresponding to Cuba Scott Nos. 1-15, including a complete reconstruction of the full sheet of Scott No. 15 using a mix of used and unused stamps, an almost complete reconstruction of the sheet using unused blocks, and the largest known block of the same stamp. Also missing from this period were other great rarities of Cuban philately, including a vertical pair of Scott Nos. 6 and 8 on cover, one of the greatest rarities of Cuban philately. We assume that the auction was suspended because the material missing from the subsequent auction was sold privately before the date of the sale to an unknown buyer. We don't know if any hardcopy catalogs of this sale were ever printed.

Comments by the editor on a government announcement of the auction of excess quantities of Cuban postal items so as to make them available to philatelists. The postal items included postage, telegraph, and postage due stamps, stamp booklets, reply coupons, and postal stationery. The article lists the quantities of each denomination of the postage stamps to be auctioned, but does not indicate the issues to which they correspond nor does it indicate quantities or denominations for the other postal species. Finally, the article indicates that a subsequent inquiry with the postal administration revealed that the intended auction never took place and that the subject postal items were destroyed--a course of action that the editor commends, believing that excess postal species should not be subject to commercialization by the government because it would be detrimental to the seriousness of Cuban postal issues.

Las emisiones de sellos de Derecho Judicial usados en Cuba, 1864-1870.

The Judicial Law Stamp issues used in Cuba

Co-author: Fernando Cabello Borrás (also listed as <CABE0800>).

Barcelona, Spain: Published by the authors, 2008, 160 pp., profusely illustrated, Span. & Eng. Translation of the Spanish text into English by José Ramón Mallón Bauzá

This is a comprehensive study of the "Derecho Judicial" (Judicial Law) revenue stamps of Cuba of the period from 1864 to 1870. The book sets these stamps in their historical context, provides an overview and analysis of the set of issues, and then goes into a detailed description of each year issue with excellent color illustrations of the stamps, their technical printing information, examples of usages, and record and description of any known counterfeits. The text is in Spanish with translations in English up to page 122. The annexes starting on p.123 are only provided in Spanish in unnumbered pages. The first annex is by Fernando Cabello and is titled "Alegoría de la Justicia. Un diseño con avatares. Evolución y cambios en el diseño del clisé de la ALEGORIA DE LA JUSTICIA 1865-1881." This translates into "Allegory of Justice. An evolving design. Evolution and changes in the design of the cliché of the Allegory of Justice 1865-1881." This piece traces the changes in the cliché design throughout its period of use with detailed illustrations of the changes. It is followed by a detailed description, classification, and illustration of the known postal forgeries of the period and ends with a similar exposé of the known philatelic forgeries. This annex spans pages 125 to 142. The second annex is found on pages 143-146 and is titled "Falsificaciones de sellos fiscales de Derecho Judicial para Antillas Españolas usados en Cuba" ("Forgeries of the Judicial Law revenue stamps of the Antilles used in Cuba") and focuses on postal forgeries of the 1867 and 1868 issues. No author is listed for this annex, but we suspect it is Mr. Sarrías. The last annex is a single page annex on p. 147 consisting of a table with two sections; the first one describing the Spanish monetary system and the second one describing the Cuban one. The annexes are followed by a one page bibliography and a one page index that is in reality a table of contents.

ACAD, Yr.X, No.13, Sep 2009, pp.37-47 (11), ill., Span.

Quoting from the English summary in ACAD: The article discusses "the postal history of Eastern Florida during the first Spanish period (1513-1763), the British period (1763-1784), and the second Spanish period (1784-1821). ... During the second Spanish period a postal office, depending upon Havana, was established in San Agustín at the end of June 1874". The close interrelationship between Eastern Spanish Florida and Cuba make this article of interest to the Cuban postal historian.

Brief article that argues that the majority of postage stamps of the first issues of Cuba found on revenue documents were applied to them to pay fees incurred in the mailing of court documents and not used to pay fiscal fees for which purpose there were revenue stamps in higher denominations than those of postage stamps, thus being more appropriate for the payment of the higher fiscal fees usually owed.

Account of the first successful overseas international flight on 11 August 1928, by Mexican aviator Roberto Fierro in a Mexican-built aircraft, a non-stop flight of 12 hours and 40 minutes, from Mexico City? (not explicitly identified in the article) to Columbia Airfield in Havana, Cuba. The plane then went on to fly from Cuba to Guatemala probably on August 23 (date not certain) and other Central American Republics thereafter. References to the Mexico-Cuba leg of the flight are in Part I of the article; Part II has no information of relevance to Cuba. No mention is made of any commemorative, commercial, or private mail flown on the Mexico-Cuba leg of the flight.

<SCHAUBEK> Schaubek Hingeless Albums

Manufactured in Germany. Need publication information.

Have reference of the existence of albums in Spanish labeled as follows:

Epoca Primera -- Dominación Española

Epoca Segunda -- Ocupación Norteamericana

I presume there must have been an "Epoca Tercera -- República" but cannot confirm this.

I have also seen ads for Castro era Schaubek albums in German, both regular and hingeless (also referred to as "normal" or "brilliant"), but presume they can also be obtained in Spanish and English. These albums are sold as separate album sections covering the following periods: 1959-1969, 1970-1974, 1975-1979, 1980-1984, 1985-1989, 1990-1994, 1995-1999, 2000-2004, and then yearly installments 2005, 2006, etc., covering the profusion of stamps issued by the Castro government.

New Jersey: Jacques C. Schiff, Jr., Inc., 136th Public Auction Sale, 21-23 Nov 1981, Cuban lots #2031-2125, ill.

This sale contained a substantial holding of Cuban material from the collection of George A. Peterson, Jr., among them a collection of 1883 surcharges (lot #2043); a collection of mint stamps, blocks of four and FDCs of the Republic (the bulk of which were lots [2079](#), [2082](#), and [2083](#)); a collection of officially sealed stamps (lot #2094) and a collection of Cuban slogan cancellations ([lot 2098](#)) that I bought at the auction. Before incorporating these collections into my own, I photocopied them and have scanned them and are available in PDF format.

Unfortunately, my photocopier was not working well at the time and some of the images are very faint, but they give an overall picture of the extent of Mr. Peterson's collection. The collection of 1883 surcharges in particular ([lot 2043](#)), was the basis of Mr. Peterson's article titled "The Cuban Surcharged Issue of 1883" that he published in CSJ, Vol.13, No.25, 7 Apr 1941, pp.400-402 (see [<PETEG4104>](#)).

"Cuba Imperforate"

SCM, Vol.3, No.11, WNo.35, Feb 1927, p.18.

Notice of the inadvertent release of imperforate sheets of Scott Nos.274 and 275 by the post office and their subsequent release of additional stocks of those imperforates to thwart speculation with the error; thus creating Scott Nos.280 and 281. No mention is made of the 5c. value (Scott No.282).

"A Correction"

SCM, Vol.3, No.12, WNo.36, Mar 1927, p.22.

Correction of the number of imperforate stamps Scott Nos.274 and 275 that were reported in <SCM2702> to have gotten into the hands of speculators and which prompted the postal authorities to release additional imperforate stocks of those stamps to thwart speculation with the error; thus creating Scott Nos.280 and 281. Initially reported as 5000 sheets of each, it is corrected to 5000 stamps each of the 1c. and 2c. values and none of the 5c.

"The First Air Mail Ever Carried By Colonel Lindbergh in the 'Spirit of St. Louis'"

SCM, Vol.4, No.12, WNo.48, Mar 1928, pp.15,19.

Editorial setting forth that the first air mail carried by Lindbergh in the "Spirit of St. Louis" was carried from Santo Domingo, Dominican Republic to Havana, Cuba, and not from Port Au Prince, Haiti. The editor states that he has a cover from that flight postmarked 6 Feb 1928 in Santo Domingo and backstamped in Havana 8 Feb 1928. At the same time he reports of another cover sent to him which was carried by Colonel Lindbergh from Port Au Prince to Havana and was postmarked 7 Feb 1928 in Port Au Prince and backstamped 8 Feb 1928 in Havana. Apparently the editor did not realize that the only way Lindbergh could have carried those covers as postmarked was if they were both on a same flight originating in Santo Domingo on Feb 6, stopping in Port Au Prince on Feb 7, and arriving in Havana on Feb 8, as was the case. See AAMC, Vol.2, 1950 Edition, pp.1026 and 1064. The article also reports that 2000 covers were carried from Santo Domingo to Cuba and another 2000 from Haiti to Cuba; these quantities are unconfirmed. On p.19 there is a note of the arrival in New York for sale of the Cuba Lindbergh stamps, Scott C2.

<SGSC> Stanley Gibbons Stamp Catalogue

London, England: Stanley Gibbons Ltd. This listing is for the Cuba sections of the Stanley Gibbons Stamp Catalogues. Quoting from the firm's catalogue section of their Website: "The first Stanley Gibbons catalogue was published in November 1865. During the last hundred and more years it has become more than just a dealer's price list. In the hands of the world's leading stamp dealers and philatelic publishers the catalogue has blossomed into a veritable encyclopaedia of stamps, an authoritative guide to market values and an indispensable work of reference. Our catalogues are virtually the history of philately." The Stanley Gibbons Catalogues are today the principal reference catalogues for the specialist in Great Britain and its colonies and ex-colonies, but the catalogue covers the entire world. The [1980 Edition](#) of the catalog lists Cuba on pp.34-113 (80) and covers from the first stamp issue of Cuba as a Spanish Colony in 1855 until the Republic issue of 20 August 1979. The catalog lists all types of stamps in their chronological order of issue from the first Spanish colonial issue to date. Listed are the following types of stamps: regular postage, printed matter, airmail, postage due, special delivery, and postal tax. No listings are provided for telegraph or revenue stamps, or for stamps for officially sealing opened mail.

"Compañía Transatlántica Española. Cuba to Spain - a starter"

PHI, Vol.5, No.9, Sep 1976, pp.194-198 (5), ill. Reprint of <SHEL7607> with an additional illustration of a cover carried on the Reina Mercedes from Havana to Barcelona.

The article starts with a listing of the ships used by the "Compañía Transatlántica Española" (Spanish Transatlantic Company) extracted from a plaque at the Naval Museum in Barcelona. The listing includes the period of operation of each ship starting from the founding of the company in 1838 to the date of the plaque which the author did not know at the time of writing the article. This company won a contract in 1861 to carry the mail between Spain and the Caribbean islands of Cuba, Puerto Rico, and Santo Domingo. The main portion of the article is a listing of 70 types of handstruck stamps found on the upper left corner of folded letters sent from Havana to Barcelona, Spain, that were applied usually in violet to indicate the ship of the Spanish Transatlantic Company on which it was to be conveyed. The article illustrates each of the 70 handstamps listed and provides the dates of the known letters that bear each handstamp. This article is the basis for much of the information in <ROSE8406a>.

Israel Collection was sold at auction by the Foundation through Harmers of New York in January of 1980. See <HARM8001> for details of that sale and <ISRA8001> for further details of the contents of the Israel Collection. The Siegel sale included 48 lots of Spanish Administration issues, 36 lots of U.S. Administration issues, and 22 lots of Republic issues, plus 3 lots of stamp and cover accumulations. Among the Spanish Administration rarities in the sale were Scott Nos. 5, 7 (3), 8 (one of 3 known), and 15 all on cover, and a combination cover with 15 and 15a sent to Puerto Príncipe; a vertical pair of Nos. 6 and 8 (unique and one of the greatest rarities of Cuban philately); and 2 sheets of the 5c. and one of the 10c. 1883 surcharged stamps. Among the U.S. Administration rarities were Puerto Príncipe surcharged stamps Scott Nos. 179G, 197 Pos. 3 tied on cover, 214 Pos. 4 tied on piece, 218a Pos. 3, 219a Pos. 1, 219b Pos. 3 "eents" error, 219c Pos. 3 "eents" error inverted surcharge, and three 220a Pos. 4. Also offered were Scott No. 226A and small die proofs 227P2-231P2 and E3P2. Among the Republic period rarities were Scott Nos. 239a, 239a unused horizontal strip of 3, 240a, 244a, and E4a inverted centers; 3 lots of Chambelona overprints; and 1-10c. Máximo Gómez imperforate set. Beyond the illustrations in the catalog, photocopies of the material sold at auction may be available at the library of the Philatelic Foundation.

Letters from Smith to the editor in which he establishes the genuineness of the U.S. envelopes surcharged for use in Cuba with Smith's corner card (UPSS Nos.3, 6, and 8a) which J.M.Bartels had labelled as fakes in a piece published in The Metropolitan Philatelist of 5 August 1899 (<[BART89908a](#)>). Basically this is a rebuttal by Mr. Smith of Mr. Bartel's assertion of August 5 that "envelopes bearing the return card of one Smith never saw Cuba, but are simply fakes", indicating that anyone could legitimately place such an order provided minimum quantity requirements were met and the order was paid in advance. The piece also mentions inconsistencies in Mr. Bartel's statements and his own dealings in Cuban envelopes.

Untitled article on color error of postage dues.

SMJ, Vol.8, No.8, WNo.92, Oct 1927, pp.201-202.

Report of the erroneous printing of 10,000 5c postage due stamps for Cuba in rose red color (Scott J10), supposedly because they were mistaken as revenue tax stamp and printed in the color of those stamps. Also report that a 2c rose red Cuban postage due stamp (Scott J9) is being advertised for sale as an error in the marketplace, presumably from the same set. Don't have information on whether this was all along the intended color of this issue of Cuban postage due stamps or if indeed there was an error in the color used and a decision was made to issue the reprinted stamps in the new color anyway.

Note about a political propaganda label of the political party of the “Auténticos” (Partido Revolucionario Cubano—Cuban Revolutionary Party) that was apparently used to frank a letter and passed through the postal service unnoticed or through complicity of some postal workers sympathetic with the political party. The slogan on the label reads “Si eres Cubano, haste Auténtico” and is incorrectly literally translated in the piece as “If you are Cuban make yourself a real one!” when the intended meaning was “If you are Cuban, become a member of the Auténticos party”—although there was an intended play of words with the literal translation.

Item on the 1935 Air Train issue reporting that only 35,000 were printed and that they were put on sale without warning at 7 a.m. in the morning (April 24) in various places in the island and that by noon all had been sold. In the same piece it is indicated that lines had formed at the post offices on the day of their sale long before 7 a.m. which contradicts the statement that there had been no advance warning of their sale—somehow the word got out. Of the \$7000 collected from the sale of the stamps, \$3000 went to the aviators.

The note is in error as the intent of the stamps as issued was to commemorate the centenary of the birth of Independence War Major General Máximo Gómez. Quoting from the Website: The PICHS COLLECTION - CUBAN PHILATELY PROJECT" is a joint project of the National Postal Museum (Smithsonian Institution) and the San Carlos Institute (Key West, Florida) whose long-term goals are: (1) to develop a digital database of information about Cuban philately, based upon the San Carlos Institute's collection assembled by philatelist Roberto Pichs, along with the Cuban philatelic holdings of the Smithsonian's National Postal Museum; and (2) the preparation of virtual exhibits consisting of an interconnected set of "explorations" or interpretations of this collection. This collections-based project is co-curated by Dr. Rafael Peñalver (President, San Carlos Institute) and Dr. Paul Michael Taylor (Research Anthropologist and Curator, Department of Anthropology National Museum of Natural History, Smithsonian Institution), under the auspices of the National Postal Museum.

The Website contains two main sections: 1) Postal History and 2) Aviation History.

Brief overviews of each section also taken from the Website follow:

[Exploring Cuba's Postal History, 1830-1939, through the Roberto Pichs Collections](#) is an overview of Cuba's postal history from the pre-philatelic period to 1939. Howard Hughes of TWA, and Bill Boeing of United, this lively history traces, largely from firsthand accounts, the technological discoveries and entrepreneurial coups that made America rule the skies as Britain once ruled the waves." The book is of interest to the Cuban aerophilatelist because the development of commercial aviation in the United States is closely intertwined with Cuba as services were extended from the U.S. mainland to the Caribbean islands and beyond to South America. The book contains numerous references to the role Cuba played in that expansion of commercial aviation due to its key position in the Caribbean that was used as a stepping stone for pioneer flights to the Caribbean and South America.

Cuban Air Mail Service 1914-35, '39

Ambler, Pa.: Photocopy courtesy of Mr. Spooner of the philatelic exhibit he presented at the BALPEX 93 Philatelic Exhibition held September 4-6, 1993 in Hunt Valley, Maryland. The exhibit consisted of 128 unnumbered pages (8 frames of 16 pages each). The photocopy of the collection provided by Mr. Spooner also included additional pages from his collection that were not included in the BALPEX 93 Philatelic Exhibition because of the limit of 8 frames. The 8 frames that were exhibited were awarded a silver medal at the exhibition.

Quoting from the introductory page of the exhibit: “The collection uses mostly flown covers to portray developments during 1914-1935, when pioneers, international airlines, and Cuba’s national airline attempted and then inaugurated air mail service to most of Cuba. It also focuses on two special projects, supported by the Cuban post office in 1935 and 1939, to fly mail by gliders and postal rockets.” The exhibit consisted of two frames covering the National air mail service within Cuba, two frames each covering the International air mail service to and from Cuba, and two frames on the glider and rocket service special projects.

“Cuba’s First Air Mail - Crash Covers?”

AP, Dec 1994, pp.1100-1101, ill. Reprint of <SPOO9403>.

Article providing a brief historical background of the competition for the first non-stop flight from a provincial capital city to Havana held 24 February 1914 and account of the two competitors, neither of which were able to complete their flights and win the offered prize money of \$500 because of problems with the aircraft. The article describes the events surrounding each flight and illustrates a cover intended to be one of four carried on the Jaime González flight from Cienfuegos to Havana. That flight did not take place because of a damage to the plane, so that the four commemorative covers prepared for the occasion were sent by train from Cienfuegos to Havana. The competing aviator, Domingo Rosillo, flying from Pinar del Río to Havana, was also forced to land in Candelaria breaking an axle in the process and was not able to arrive in Havana until the following day. He too supposedly carried covers on his flight that he later deposited in the Havana mails, but none are known to have survived.

"The Mysterious 'D26' Cover"

Bibliography of Cuban Philatelic Literature -- Internet Edition
Ernesto Cuesta

P/PJGB, Vol.7, No.2, combined WNos.955-956, Mar-Apr 1987, pp.62-63, ill.

Discussion of the postal markings on a single outer letter sheet bearing a vertical pair of the 10c Cuban stamp of 1868 (Scott 32) cancelled by a clear clean strike of the British type of killer consisting of a vertical oval of bars inscribed "D26" in the center. The article traces the recorded history of the cover's ownership and sale from its earliest mention as part of the British used abroad collection of Dr. A. Leo of Munich to its recent sale as lot 11630 in the the David Feldman sale of March 29-30, 1984, in which it brought over \$20,000. The remainder of the article then focuses on a discussion of the postal markings on the cover, presenting hypothetical explanations for the use of the "D26" killer given the other markings on the cover and its routing. The conclusion is that the use may be explained by an unawareness of the procedure for the use of the killer and of the circumstances warranting its use by the clerk that applied it, thus giving good reason to believe that the cover is genuine.
