Photo of FDC with center gutter block of the stamp dedicated to the centenary of the first postage stamp (Scott C32) showing label in center gutter: "Centenario del Primer Sello Postal 1840 1855 1902 1940". The dates refer to the first British postage stamp (first in the world), the first Cuban postage stamp of the Spanish Administration, the first Cuban stamp of the Republic, and the centenary of the first British postage stamp. The cover was sent to Stamps magazine by Edelberto de Carrera and is one of three Mr. Carrera is said to have mailed.

"Cuban Philatelists Protest Presentation Sheets of Imperforate Democracy Issues"

S, Vol.41, No.5, WNo.529, 31 Oct 1942, p.154.

Report of the presentation of full imperforate sheets of the set of Cuba's Pro Democracia stamps (Scott 368-372) to David Joffo, who was so honored because he supposedly had suggested the idea for the set and that of the Fifth Column stamps (Scott 375-379) to the Cuban Government. Another set of full imperforate sheets was given to Mr. Joffo for conveyance to President Roosevelt as a gift from President Batista. Cuban philatelists were enraged about these gifts and the Cuban Philatelic Club sent a letter of protest to the Minister of Communications demanding the issuance of substantial amounts of these stamps in imperforate condition for the general public. The protest seems to have worked because the imperforate stamps were issued.

Notes on 1) the absence of perforations on the right-hand vertical border of right-hand panes and left-hand vertical border of left-hand panes of Scott RA6, 2) the purchase of a collection of U.S. military post offices in Cuba, all on pieces of covers and with station numbers running with a few breaks from 1 to 38, and 3) the existence of fake Cuban overprints on U.S. stamps, including postage due stamps (Scott J1-J4) with fake diagonal overprints.

"Scott RA6—Victory Postal Tax Issue—1/2c grey—issued October 1944"

S, Vol.42, No.4, WNo.541, 23 Jan 1943, p.xxx.

Report from a Cuban philatelist that some Scott RA6 stamps are imperforate on the right or left side depending on whether they come from right or left hand side panes of these stamps which are imperforate on one side. Additionally, the note mentions that the imperforate stamps are also partially gummed vertically and poses an explanation for the cause of this irregularity that has not been verified. Finally, jumping to another subject, the correspondent warns about fake U.S Administration overprints emanating from an establishment in the island.

Subasta Internacional de Sellos: 6 y 7 de Marzo de 1990
(International Stamp Auction: 6-7 March 1990)

Barcelona, Spain: Soler & Llach subastas internacionales, s.a. international auction held 6-7 March 1990.

Cuba in lots 1865-2034, but also of interest was the Puerto Rico material in lots 2035-2268 some of it consisting of Antilles material common to Cuba and Puerto Rico. Most of the Puerto Rico material came from the collection of Dr. Antonio M. Longo, of Alexandria, Virginia, and can be traced back to the Preston, García Lomas, and Tows collections. See <SGAG8102> for a direct trace of Dr. Longo's collection to that of García Lomas.

<S&LL9512>* Soler & Llach subastas internacionales, s.a.

Cuba. Incluyendo la Colección del Dr. Ibáñez.
(Cuba. Including the Collection of Dr. Ibáñez.)

Barcelona, Spain: Soler & Llach subastas internacionales, s.a. Catalog of the international auction held December 15, 1995, containing 487 lots, profusely illustrated, in Spanish, bidding in U.S. dollars. Prices realized handwritten on the margin during the auction.

Outstanding auction dedicated in its entirety to first class Cuban material covering the pre-philatelic period, British and French postal agency mail, maritime shipping company mail, Cuban forwarders, and the philately of the Spanish colonial period, the U.S. Administration, and the Republic. The strength of the auction was in the 19th century material, especially the stamps and covers of the Spanish colonial period. The U.S. Administration period was only four lots plus a collection of postal stationery of both the U.S. Administration and the Republic which did not sell. The material of the republic included an outstanding selection of booklets and booklet panes, a complete set of the Cuban inverts, and a few other proofs and essays, but did not have great breadth. Included also were an outstanding collection of telegraph stamps with proofs and essays and a similarly outstanding collection of revenues (the first one sold, the latter didn't). Even though the auction was advertised as containing the entirety of Dr. Ibáñez's collection, significant parts of it were missing as determined from talking to various persons that knew the contents of his collection and could not find key items from it in the catalog. An example of this could be observed in lot 210, an accumulation of material from the 1855-60 first three issues of Isabel II from which all the 2r. stamps with loop watermark were missing and all but one strip of 10 with the sheet header of the 2r. stamps without watermark were also missing--items which certainly were not missing from a collection of the caliber of Dr. Ibáñez's collection. I attended the auction, studied the material offered for several days before the auction, and bought a considerable amount of the stamps and covers of the Spanish Administration and of the booklets and booklet panes of the Republic.

Copies of the contents of the following lots are available in my personal library:

"Una Subasta de Sellos" ("A Stamp Auction")

A, Yr.VII, No.24, April 1927, pp.12-13, Span.

Comments by the editor on a government announcement of the auction of excess quantities of Cuban postal items so as to make them available to philatelists. The postal items included postage, telegraph, and postage due stamps, stamp booklets, reply coupons, and postal stationery. The article lists the quantities of each denomination of the postage stamps to be auctioned, but does not indicate the issues to which they correspond nor does it indicate quantities or denominations for the other postal species. Finally, the article indicates that a subsequent inquiry with the postal administration revealed that the intended auction never took place and that the subject postal items were destroyed--a course of action that the editor commends, believing that excess postal species should not be subject to commercialization by the government because it would be detrimental to the seriousness of Cuban postal issues.

<SCHAUBEK> Schaubek Hingeless Albums

Manufactured in Germany. Need publication information.

Have reference of the existence of albums in Spanish labeled as follows:

Epoca Primera -- Dominación Española

Epoca Segunda -- Ocupación Norteamericana

I presume there must have been an "Epoca Tercera -- República" but cannot confirm this.

I have also seen ads for Castro era Schaubek albums in German, both regular and hingeless (also referred to as "normal" or "brilliant"), but presume they can also be obtained in Spanish and English. These albums are sold as separate album sections covering the following periods: 1959-1969, 1970-1974, 1975-1979, 1980-1984, 1985-1989, 1990-1994, 1995-1999, 2000-2004, and then yearly installments 2005, 2006, etc., covering the profusion of stamps issued by the Castro government.

136th Public Auction Sale: United States, United Nations, Worldwide Stamps and Postal History

New Jersey: Jacques C. Schiff, Jr., Inc., 136th Public Auction Sale, 21-23 Nov 1981, Cuban lots #2031-2125, ill.

This sale contained a substantial holding of Cuban material from the collection of George A. Peterson, Jr., among them a collection of 1883 surcharges (lot #2043); a collection of mint stamps, blocks of four and FDCs of the Republic (the bulk of which were lots [2079](#), [2082](#), and [2083](#)); a collection of officially sealed stamps (lot #2094) and a collection of Cuban slogan cancellations ([lot #2098](#)) that I bought at the auction. Before incorporating these collections into my own, I photocopied them and have scanned them and are available in PDF format.

Unfortunately, my photocopier was not working well at the time and some of the images are very faint, but they give an overall picture of the extent of Mr. Peterson's collection. The collection of 1883 surcharges in particular, was the basis of Mr. Peterson's article titled "The Cuban Surcharged Issue of 1883" that he published in CSJ, Vol.13, No.25, 7 Apr 1941, pp.400-402 (see [<PETEG4104>](#)).

The editor states that he has a cover from that flight postmarked 6 Feb 1928 in Santo Domingo and backstamped in Havana 8 Feb 1928. At the same time he reports of another cover sent to him which was carried by Colonel Lindbergh from Port Au Prince to Havana and was postmarked 7 Feb 1928 in Port Au Prince and backstamped 8 Feb 1928 in Havana. Apparently

the editor did not realize that the only way Lingbergh could have carried those covers as postmarked was if they were both on a same flight originating in Santo Domingo on Feb 6, stopping in Port Au Prince on Feb 7, and arriving in Havana on Feb 8, as was the case. See AAMC, Vol.2, 1950 Edition, pp.1026 and 1064. The article also reports that 2000 covers were carried from Santo Domingo to Cuba and another 2000 from Haiti to Cuba; these quantities are unconfirmed. Scott's Standard Postage Stamp Catalogues are the standard catalogs used by the stamp trade in the U.S. to identify and price the postage, airmail, air post semi-postal, special delivery, postage due, newspaper, and postal tax stamps used in Cuba from 1855 during the Spanish Administration to date. Until the 1990 edition of the catalog, no listings were provided for stamps issued during the Castro administration after July 1961 because of the trade embargo on Cuban stamps imposed by the U.S. government. The article starts with a listing of the ships used by the "Compañía Transatlántica Española" (Spanish Transatlantic Company) extracted from a plaque at the Naval Museum in Barcelona. The listing includes the period of operation of each ship starting from the founding of the company in 1838 to the date of the plaque which the author did not know at the time of writing the article. This company won a contract in 1861 to carry the mail between Spain and the Caribbean islands of Cuba, Puerto Rico, and Santo Domingo. The main portion of the article is a listing of 70 types of handstruck stamps found on the upper left corner of folded letters sent from Havana to Barcelona, Spain, that were applied usually in violet to indicate the ship of the Spanish Transatlantic Company on which it was to be conveyed. The article illustrates each of the 70 handstamps listed and provides the dates of the known letters that bear each handstamp. ESPAMER '82 Exposition Auction Catalog

New York, N.Y.: Robert A. Siegel Auction Galleries, Inc.; catalog of the 603rd sale, held 15 Oct 1982 at the ESPAMER '82 Exposition of 12-17 Oct 1982, in San Juan, Puerto Rico. Cuba on pp.36-42 plus photo plates (pages unnumbered), lots 283-390A.

Included in the auction were major rarities from the Samuel Israel Collection of Cuba and Puerto Rico which Mr. Israel donated to the Philatelic Foundation of New York (probably in the mid 1930's). The material in this sale was withheld because of its rarity and value as reference material for expertization purposes when the bulk of the Israel Collection was sold at auction by the Foundation through Harmers of New York in January of 1980. See <HARM8001> for details of that sale and <ISRA????> for further details of the contents of the Israel Collection. The Siegel sale included 48 lots of Spanish Administration issues, 36 lots of U.S. Administration issues, and 22 lots of Republic issues, plus 3 lots of stamp and cover accumulations. Among the Spanish Administration rarities in the sale were Scott Nos. 5, 7 (3), 8 (one of 3 known), and 15 all on cover, and a combination cover with 15 and 15a sent to Puerto Príncipe; a vertical pair of Nos. 6 and 8 (unique and one of the greatest rarities of Cuban philately); and 2 sheets of the 5c. and one of the 10c. 1883 surcharged stamps. Among the U.S. Administration rarities were Puerto Príncipe surcharged stamps Scott Nos. 179G, 197 Pos. 3 tied on cover, 214 Pos. 4 tied on piece, 218a Pos. 3, 219a Pos. 1, 219b Pos. 3 "eents" error, 219c Pos. 3 "eents" error inverted surcharge, and three 220a Pos. 4. Also offered were Scott No. 226A and small die proofs 227P2-231P2 and E3P2. Among the Republic period rarities were Scott Nos. 239a, 239a unused horizontal strip of 3, 240a, 244a, and E4a inverted centers; 3 lots of Chambelona overprints; and 1-10c. Máximo Gómez imperforate set. Beyond the illustrations in the catalog, photocopies of the material sold at auction may be available at the library of the Philatelic Foundation.

Note about a political propaganda label of the political party of the "Auténticos" (Partido Revolucionario Cubano—Cuban Revolutionary Party) that was apparently used to frank a letter and passed through the postal service unnoticed or through complicity of some postal workers sympathetic with the political party. The slogan on the label reads "Si eres Cubano, haste Auténtico" and is incorrectly literally translated in the piece as "If you are Cuban make yourself a real one!" when the intended meaning was "If you are Cuban, become a member of the Auténticos party"—although there was an intended play of words with the literal translation.

Item on the 1935 Air Train issue reporting that only 35,000 were printed and that they were put on sale without warning at 7 a.m. in the morning (April 24) in various places in the island and that by noon all had been sold. In the same piece it is indicated that lines had formed at the post offices on the day of their sale long before 7 a.m. which contradicts the statement that there had been no advance warning of their sale—somehow the word got out. Of the \$7000 collected from the sale of the stamps, \$3000 went to the aviators.

Report of the impending issue of stamps commemorating the Revolution of 1933 (Scott 332-336, C22-C23, E9) with a detailed listing of their denomination, color, number to be issued, design, and purpose (i.e., regular postage, air mail, special delivery). The note is in error as the intent of the stamps as issued was to commemorate the centenary of the birth of Independence War Major General Máximo Gómez. Additionally, some of the listed designs were different from those issued. No mention is made of the fact that the set would also be issued in imperforate form.

Ambler, Pa.: Photocopy courtesy of Mr. Spooner of the philatelic exhibit he presented at the BALPEX 93 Philatelic Exhibition held September 4-6, 1993 in Hunt Valley, Maryland. The exhibit consisted of 128 unnumbered pages (8 frames of 16 pages each). The photocopy of the collection provided by Mr. Spooner also included additional pages from his collection that were not included in the BALPEX 93 Philatelic Exhibition because of the limit of 8 frames. The 8 frames that were exhibited were awarded a silver medal at the exhibition.

Quoting from the introductory page of the exhibit: “The collection uses mostly flown covers to portray developments during 1914-1935, when pioneers, international airlines, and Cuba’s national airline attempted and then inaugurated air mail service to most of Cuba. It also focuses on two special projects, supported by the Cuban post office in 1935 and 1939, to fly mail by gliders and postal rockets.” The exhibit consisted of two frames

Quoting <WINT9205>: “This book compiled the U.S. rates to all foreign destinations for which information could be obtained. ... A quick, easy-to-use reference, such as the Starnes book, is the best way to obtain these rates when evaluating covers. This book is the best reference for rates from the U.S. to foreign countries before the UPU period.” According to <WINT9205>, the book “addresses the deficiencies in Hargest’s rate tables” (see <HARG7100>). The information in this book is vital to the Cuban postal historian for the understanding of rate markings on covers from and to Cuba to Europe via the United States.

"The Mysterious 'D26' Cover"

P/PJGB, Vol.7, No.2, combined WNos.955-956, Mar-Apr 1987, pp.62-63, ill.

Discussion of the postal markings on a single outer letter sheet bearing a vertical pair of the 10c Cuban stamp of 1868 (Scott 32) cancelled by a clear clean strike of the British type of killer consisting of a vertical oval of bars inscribed "D26" in the center. The article traces the recorded history of the cover's ownership and sale from its earliest mention as part of the British used abroad collection of Dr. A. Leo of Munich to its recent sale as lot 11630 in the the David Feldman sale of March 29-30, 1984, in which it brought over \$20,000. The remainder of the article then focuses on a discussion of the postal markings on the cover, presenting hypothetical explanations for the use of the "D26" killer given the other markings on the cover and its routing. The conclusion is that the use may be explained by an unawareness of the procedure for the use of the killer and of the circumstances warranting its use by the clerk that applied it, thus giving good reason to believe that the cover is genuine.
