El Vuelo Panamericano (The Pan-American Flight)
Santo Domingo, Dominican Republic: 1969.

Book on the Pan-American Flight "Pro Faro a Colón" undertaken to promote the building of the Columbus Lighthouse in the Dominican Republic (Vuelo Panamericano Pro Faro a Colón). The flight started in the Dominican Republic on 12 Nov 1937, passed through Puerto Rico, Venezuela, Dutch Guiana, Brazil, Uruguay, Argentina, Chile, Bolivia, Perú, Ecuador, and ended with the tragic crash of 3 of the 4 airplanes in the squadron shortly after their departure from Cali in Colombia on 29 Dec 1937. See <MORE8007> for a summarized account of the flight.

("Report by Dr. Terry, President of the Postal Rocket Committee, to the Directors of the Cuban Philatelic Club")
AF, Yr.IV, No.21, Nov 1939, pp.21-23 (3).

This is a detailed account of the Cuban Postal Rocket Experiment by the man who is considered to be the "father" of the experiment for his concerted efforts to carry it through completion. It describes how the project was conceived and embraced by the Philatelic Club of the Republic of Cuba, how financial support was obtained, how support from the Cuban Postal Administration was arranged to include the issuing of a special commemorative stamp for the occasion (Scott C39), and describes the three trial launches, and the final launch of the postal rocket carrying a small amount of mail.

The only information of relevance to Cuban philately in the article is a reference to the first and only autogiro flight between Miami and Havana made by Captain Lewis A. Yancey on 29 January 1932 in his autogiro "Juan de la Cierva", named after the Spanish autogiro inventor. The article mentions that Capt. Yancey carried some covers on his flight, but does not give any indication of their number. It warns that the flown covers should not be confused with some commemorative covers prepared by dealers in Havana that were stamped with the legend "Bienvenido Capitán Yancey".

Letters of Nov 15 and Dec 4 to Héctor Juárez Figueredo
Unpublished, in my library, courtesy of Mark Piper, 2 pp., Span.
Two one-page letters from Terry to Juárez Figueredo on the subject of four unofficial commemorative overprints. The first one is only identified as "los sellos del Cardenal" (the Cardinal's stamps) and was applied on Cuban stamps identified as Guerra catalog #548-549. The second overprint mentioned commemorated the withdrawal of the Russian missiles during the October 1963 missile crisis. The third overprints mentioned are some 1956 unofficial overprints from an expedition by some university students trying to reclaim Cayo Sal for Cuba. Finally, the letters refer to an overprint on Guerra catalog stamp #776 commemorating the 30th anniversary of the Cuban postal rocket experiment of 1939. [Note that the letters refer to these overprints as "sobrecargas" or surcharges since the term is frequently indistinctively applied to both overprints and surcharges in Spanish.]

balloon flights and later the initial steps of aviation with experimental or test flights and later the establishment of regular national and international air routes, many prompted by the interest of postal authorities to make use of airplanes for the transportation mail. The sections on Cuban aerophilately start with the use of pigeon mail during the wars of independence, continue with accounts of Cuban experimental flights, and finish with the history of the establishment and expansion of national and international airmail. The sections of the book with aerophilatelic content are the following:

The article touches into the many problems created when a portrait or photo of the person to be depicted on a stamp is not known. Two such instances in Cuban philately are discussed: one is Scott 387 showing Christopher Columbus, of whom no official portrait is known; the other is Scott 402 depicting the Cuban poet Gabriel de la Concepción Valdés ("Plácido") of whom no picture seemed to be available until at the last minute one was found.

Brief history of this service. The article illustrates a couple of propaganda brochures from the airline, a couple of baggage labels, and an airmail label of Cubana.

Cuba: Revolutions and Their Impact on Its Philately

Color photocopy of the collection first exhibited by Mr. Thompson at the WESTPEX 2005 Stamp Show held at the San Francisco Airport Marriott Hotel April 15-17, 2005. This is a subsequent revised version of that exhibit dated February 2006, consisting of 80 pages.

Quoting from the exhibit's introductory page: The purpose of the exhibit is to show the impact of revolutions on Cuban philately over the years. The exhibit uses covers, stamps, blocks, proofs, errors, forgeries, etc. to present the story. A chronological sequence grouped by specific revolutionary events is used (the links take you to color copies of each part):

Part 1:

- 1860's – Revolutions Outside Cuba
- 1868-1878 Ten Years War
- Insurrection of 1895

Part 2:

- United States Occupation and Administration
- Puerto Príncipe Provisional Issue
- United States Issues Overprinted

Part3:

- 1917 – "La Chambelona" Issue
- 1933 – Machado Overthrow
- 1959 – Castro Revolution

SMJ, Vol.xx, No.y, WNo.zzz, Oct 1934, p.179, ill.

Note about a political propaganda label of the political party of the "Auténticos" (Partido Revolucionario Cubano—Cuban Revolutionary Party) that was apparently used to frank a letter and passed through the postal service unnoticed or through complicity of some postal workers sympathetic with the political party. The slogan on the label reads "Si eres Cubano, haste Auténtico" and is incorrectly literally translated in the piece as "If you are Cuban make yourself a real one!" when the intended meaning was "If you are Cuban, become a member of the Auténticos party"—although there was an intended play of words with the literal translation.

Item on the 1935 Air Train issue reporting that only 35,000 were printed and that they were put on sale without warning at 7 a.m. in the morning (April 24) in various places in the island and that by noon all had been sold. In the same piece it is indicated that lines had formed at the post offices on the day of their sale long before 7 a.m. which contradicts the statement that there had been no advance warning of their sale—somehow the word got out. Of the \$7000 collected from the sale of the stamps, \$3000 went to the aviators.

The note is in error as the intent of the stamps as issued was to commemorate the centenary of the birth of Independence War Major General Máximo Gómez (this error is later corrected in <THORP3612>). Additionally, some of the listed designs were different from those issued. No mention is made of the fact that the set would also be issued in imperforate form. Also see <THORP3606>.

Menéndez (this issue was apparently not realized), and Máximo Gómez (Scott 332-336, C22-C23, E9) issues and advance information on the planned 1937 Artists and Writers issue (Scott 340-354, C24-C29, E10-E11). The notes complain about the delay in the release of the Matanzas set and incorrectly state that the Máximo Gómez set will be limited to 1c and 2c values only. On the Artists and Writers issue, the author wonders how the Cuban postal service will be able to sell \$625,000 worth of stamps in only the three days that they plan to make them available for sale and ventures to say that the goal won't be met.

Iniciación a la Historia del Correo en Cuba
(Introduction to the History of the Cuban Posts)

La Habana, Cuba: Ministerio de Comunicaciones (Department of Communications), Imprenta La Habanera, 1945, 485 pp., ill., Span.

One of the best histories ever written on the postal services of a country. The work consists of two parts. The first part covers the development of the posts in various parts of the ancient world to its beginnings in Cuba up to the end of the 18th Century. The second part covers the 19th Century up to the establishment of the Republic in 1902. It also contains a bibliography with more than 200 references. The book is an excellent reference for any serious research into the postal history of Cuba.

Following are the two main sections in the book with a listing of the chapters contained in each:

APJ, Vol.58, No.9, WNo.685, Jun 1987; pp.286-289,294 (5); ill.

The article analyzes a cover showing a Havana-Miami-Pánama routing for the inaugural FAM 5 Express flight piloted by Col. Charles A. Lindbergh on 26 April 1930. This routing is contrary to the previously believed direct Havana-Pánama routing for the inaugural FAM 5 Express flight, but seems plausible due to the lack of an airmail contract between the Cuban post office department and Pan Am to transport FAM 5 airmail southbound out of Havana. Only 2 ounces of mail (approximately 10-12 covers) was dispatched from Cuba on the inaugural FAM 5 Express flight making these AAMC Cuba No.8 FFCs very rare. Corroboration of the routing of this first flight is pending the reporting of another one of the covers carried on the flight.

"Letter from Mark R. Tyx to Alfredo Valdés dated 7 July 1989"

Unpublished, available through the courtesy of Mr. Tyx; 3 pp. plus 8 pp. of attachments; illustrated.

Letter thanking Mr. Valdés for a copy of [<FRIC8906>](#) on the subject of U.S. postal stationery overprinted for use in Cuba during the U.S. Administration that is later used to pay postage in the U.S. The letter cites two examples from Mr. Tyx's collection (UPSS-1 and UPSS-6) and is accompanied by their photocopies. A discussion of the validity of using such stationery in the U.S. is included with some plausible explanations provided. Another copy of a UPSS-6 sent by F.S. Smith to the J.W.Scott Co. is mentioned and a photocopy is included. Finally, the letter mentions the recent acquisition of a mint copy of Cuba's H&G E-3 newspaper wrapper--one of the rarest pieces of Cuban postal stationery!--and includes a photocopy. For more discussion on the validity of the use in the continental United States and its territories and possessions of U.S. postal stationery overprinted for use in Cuba see [<AJP90304>](#) and [<BREW8907>](#).

Notes about the NYARBA company formed in the early 1930s to provide passenger and mail service between New York and Buenos Aires, Argentina, with stops in Havana, Cienfuegos, and Santiago de Cuba. The notes were compiled in great measure through the efforts of Mr. Mark R. Tyx, specialist in Cuban aerophilately, who among other overall information also provides analysis of two NYARBA covers in his collection.

The Postal Stationery of the United States Possessions and Administrative Areas of the United States: American Zone (Germany) Canal Zone, Cuba, Danish West Indies, Hawaii, Philippines, Puerto Rico, Ryukyu Islands.
Chester, Virginia: United Postal Stationery Society, Third Edition, 2009, 210 pp., ill. George Krieger, Editor.
Contributors to the Cuba Section were Ernesto Cuesta, Octavio Cabrera, Robert Littrell, and Mark Tyx.
Library of Congress Control Number: 2009935307.

Third edition of the catalog first published by the society in 1957 under the editorship of George C. Slawson (see <UPSS5700>) and updated in 1971 with a second edition (see <UPSS7100>). This third edition is a considerable update and improvement over the second edition that only dedicated five and a half pages to Cuba versus 24 full pages in the third edition.

Bibliography of Cuban Philatelic Literature -- Internet Edition
Ernesto Cuesta

The catalog is printed on 8.5 by 11 in. spiral-bound pages and consists of an introductory and General Information section with pages numbered i to vi (6), followed by the various catalog sections of the Possessions and Administrative Areas of the United States on pages 1 to 190, followed in turn by an Appendix illustrating paper watermarks and knives and sizes on pages numbered 191 to 212 (20).

The Cuba Section itself is on pages 61-74 (24). The catalog section provides an overview of Cuban history with emphasis on the Spanish-American War and the ensuing U.S. Administration period and a discussion of the postage rates of the period. The body of the catalog describes the envelopes, postal cards, and wrappers issued for Cuba during the U.S. Administration period with detailed descriptions of each issue, including varieties, errors, specimens, and samples. Details are provided of envelope sizes, knives, paper color, paper watermarks, corner cards, quantities issued or known (in the case of errors, specimens, samples, corner cards, rare usages, etc.), earliest recorded postmarks, and postmarks used.

Comments on some NYRBA covers with Cuban transit and arrival postmarks found in the article "Old Airlines never die, they just fade away... A 'stream of consciousness' report—toward a 'more complete *aerophilatelic* NYRBA story' "

BMAPS, Vol.24, No.2, Apr-Jun 2009, pp.3-16, ill, Eng. This is part of <TYX0804>.

The comments contributed by Mark Tyx to the article solve what were presumed to be postmark date inconsistencies in a couple of NYRBA covers addressed to Cuba.
