<UAIC> Unión (A.I.C.)

La Habana, Cuba: Official bulletin of the "Agrupación Internacional de Coleccionistas (A.I.C.)" ("International Association of Collectors") founded in 1952. A copy of the May 1956 issue of this bulletin exists in the library of the Collectors Club of New York. This [May 1956 issue is labelled Yr.III, No.7](#), and consisted of 24 unnumbered pages plus a front cover and an inside cover and had a run of a little over 600 copies as indicated at the bottom of page 14 of this issue (not including the front cover and inside front cover).

This bulletin is referenced in <HORN9600> as item 116540, citing the CCNY's library catalog as the source, but listing as dates of publication Jan 1938 to May 1956, v.1 n.1 to v.3 n.7. This is in error and is due to the fact that there were two separate Cuban philatelic journals named Unión; the other one being the official bulletin of the "Asociación Filatélica Fraternidad Postal Internacional (F.P.I.)" (International Postal Fraternity Philatelic Association) published starting in February 1938 in Santiago de Cuba until at least December 1941. This first journal Unión is listed as <UFPI> in this bibliography (see following entries). Photocopies of the May 1956 issue of the A.I.C. Unión are available at the APRL, the library of the U.S. National Postal Museum, and the Richter library of the University of Miami.

<UFPI> Unión (F.P.I.)

Santiago de Cuba, Cuba: Official bulletin of the "Asociación Filatélica Fraternidad Postal Internacional (F.P.I.)" (International Postal Fraternity Philatelic Association) published under the direction of Director M. Domingo Gelabert and Manager A. Ornellas Menéndez. Published quarterly (?) from Vol.1, No.1, 15 February 1938 to Vol.3 No.3, December 1941 (possibly later?) [I failed to record the source of the preceding publication information, so I cannot guarantee its accuracy.] Referenced in <HORN9600> as item 116540, citing the CCNY's library catalog as the source, but listing as dates of publication Jan 1938 to May 1956, v.1 n.1 to v.3 n.7. This is in error and is due to the fact that there were two separate Cuban philatelic journals named Unión; the other one being the official bulletin of the "Agrupación Internacional de Coleccionistas" ("International Association of Collectors") which was founded in 1952 and is listed as <UAIC> in this bibliography.

Known issues of the F.P.I.'s Unión:

Vol.1, No.4, 15 Nov 1938, pp.1-7? (don't know whether there are additional pages);

Vol.1, Nos.8-9, 15 Feb 1940, pp.1-14? (don't know whether there are additional pages);

Vol.2, No.10, Sep 1940, ? pp. ([I have photocopy of front cover](#));

Vol.2, No.11, Nov 1940, ? pp. ([I have photocopy of pp.2-4](#));

Vol.3, No.1, Oct 1941, ? pp ([I have photocopy of front cover and p.1](#)). In this issue the title of the journal is preceded by the word "Nuevo" ("New") in smaller case caps to form the new title Nuevo Unión, indicating a possible revamping of the journal, although its Director and Manager remained the same. Unfortunately, the unavailability of a larger sample of the "new" journal prevents an assessment of the extent of the changes.

UFPI, Vol.1, Nos.8-9, 15 February 1940, pp.2, Span.

The title is misleading; the first philatelic exhibition was held in Havana in 1911. However, the one reported in the article was the first sponsored by the Club Filatélico de Cuba (Cuban Philatelic Club).

"Post Office Advertisement for Envelopes"

PSa, Vol.42, No.4, Jul-Aug 2000, pp.58-61 (4), ill.

Quoting from the article: "Throughout the 19th century and early 20th century, the [U.S.] Post Office actively promoted sale and use of envelopes, especially for business mailers. This was sometimes accompanied by the use of actual envelopes overprinted "Specimen" and with advertisement of envelope size, type and cost printed on the front. At various times framed displays of all envelope types were assembled for use in post offices." The article goes on to say that in 1907, the USPO began printing posters displaying all the envelope sizes in each paper color. The article does not mention the existence of either type of advertisement displays for Cuba, but in fact displays of actual "Specimen" envelopes for Cuba were produced and envelopes taken from these displays exist in private and public collections (ref. <CUES8600>). It is not known whether any posters that in 1907 replaced the actual "Specimen" envelope exhibits were produced for Cuba. Although the article deals exclusively with the displays for U.S. envelopes, some of the information contained in it applies equally to similar displays of "Specimen" envelopes produced by the USPO for Cuba and would also apply to the display posters if it is determined that they were also produced for Cuba.

Third edition of the catalog first published by the society in 1957 under the editorship of George C. Slawson (see <UPSS5700>) and updated in 1971 with a second edition (see <UPSS7100>). This third edition is a considerable update and improvement over the second edition that only dedicated five and a half pages to Cuba versus 24 full pages in the third edition.

The catalog is printed on 8.5 by 11 in. spiral-bound pages and consists of an introductory and General Information section with pages numbered i to vi (6), followed by the various catalog sections of the Possessions and Administrative Areas of the United States on pages 1 to 190, followed in turn by an Appendix illustrating paper watermarks and knives and sizes on pages numbered 191 to 212 (20). The Cuba Section itself is on pages 61-74 (24). The catalog section provides an overview of Cuban history with emphasis on the Spanish-American War and the ensuing U.S. Administration period and a discussion of the postage rates of the period. The body of the catalog describes the envelopes, postal cards, and wrappers issued for Cuba during the U.S. Administration period with detailed descriptions of each issue, including varieties, errors, specimens, and samples. Details are provided of envelope sizes, knives, paper color, paper watermarks, corner cards, quantities issued or known (in the case of errors, specimens, samples, corner cards, rare usages, etc.), earliest recorded postmarks, and postmarks used.
