PHJ, No.159, Oct 2014, pp.31-32, ill.
Brief report of the "Early U.S. Postal History Symposium" held just before the start of the 2013 Philatelic Show in Boston. During the symposium Dr. Yamil H. Kourí presented a paper on Spanish Colonial Mail to present day United States, primarily during the 18th Century, including mail to Louisiana, Florida, Texas, New Mexico, and California (see <KOUR1305>). Quoting from the piece: "Kourí describes Spanish Colonial mail to present-day U.S. areas. These are primarily of the 18th century and include the areas of Louisiana, Florida, Texas, New Mexico, and California. For each of these locales he discusses postmasters, rates, markings on letters, and the mail services. Few covers are known from some of these areas, but Kourí illustrates some of them.”

The interest of this catalog of Philippines fiscal stamps for the Cuban collector is in the fact that some of the fiscal stamps issued by the Spanish Administration for Cuba and Puerto Rico were either also intended for use in the Philippines or were initially only intended for use in Cuba and Puerto Rico but their use was later extended to the Philippines. The catalog provides very useful information in this regard.

U.S. Domestic Postal Rates, 1872-1993
Co-author: Henry W. Beecher (see <BEEC9400>)
Shawnee-Mission, Kansas: The Traditions Press, 1994, 229 pp., ill. A 1999 revised and expanded second edition also exists (see <WAWR9900>), as well as subsequent updates up to January 2009. This is a very complete compendium of U.S. domestic postal rates/fees that is of interest to the Cuban postal historian because of the tremendous volume of correspondence between Cuba and the U.S. and additionally because of the implementation of a postal system in Cuba during the U.S. Administration of the island after the Spanish-American War that was modeled after the U.S. postal system and also because of the adoption of U.S. domestic rates for mail from and to Cuba during part of that period initially for U.S. government personnel and later extended to all mail.

Wilcsek, Bob
"Zeppelin Letters: A Coincidence or a Clue?"
APJ, Vol.76, No.11, WNo. 905, Nov 2015, pp.465-470 (6), ill.
The article indicates that the Cuban destinations of the 1930 South America Graf Zeppelin flight are a bit murky in how they were handled. The article further indicates that the Sieger Zeppelin Post Katalog simply states that covers from that flight addressed to Cuba were flown to Havana from New York by airplane. The author then illustrates a couple of such covers and tries to explain their routing from markings on the covers. An Editor's Note at the end of the article explains that the Graf Zeppelin intended to drop mail at Havana and collectors had the option of designating Havana as a destination for their airmail. The Havana stop plan was aborted and the airmail destined for Havana ended up at Lakehurst, arriving there on May 31 and was then forwarded to Havana where it arrived on June 2 as shown on one of the covers illustrated in the article. The article is followed by two "Letters to the Editor" in the December and January issues of the Air Post Journal with corrections to some of the information presented by Mr. Wilcsek in his article.

“Taking Up Space”  
Brief mention of the first official postal recognition of rocket mail on October 15, 1939, when the Cuban postal administration issued the world's first rocket mail stamp.  Reference is made to three trial flights that took place on October 1, 3, and 8, and a picture of an Oct. 8 cover is shown.  The article states that some covers were flown and others are simply commemorative covers, but provides no clues on how to differentiate them, and does not indicate whether the cover shown was flown.  Additionally, the caption on the picture of the cover shown reads "Cuba was the first nation to issue a postage stamp for rocket mail"; however, the stamp on the illustrated cover is not the officially issued stamp but a privately printed label used on the trial flight covers--the official stamp was not issued until October 15.  See <KRON5510> and <KRON5803> for more details on the illustrated cover.

"Cable-Cutting at Cienfuegos (May 11, 1898)"
Account of the cutting of the telegraph cables emanating from the cable house at the entrance of the Bay of Cienfuegos by the U.S. Navy in an attempt to cut off telegraph communications between the Spanish forces in Cuba and Spain during the Spanish American War. Telegraph communications from the north of the island were via the telegraph line from Key West to Havana was already under the control of the American forces. The lines to be cut at the entrance of the Bay of Cienfuegos provided communications between the city of Cienfuegos, Baracoa, and Santiago de Cuba, thus cutting off telegraph communications between Havana and other Caribbean islands, and from there to Spain.

"British Closed Mails Through the United States to Cuba"
This article discusses the rating of letters in closed mails to and from Havana, Cuba, following the Postal Convention between the United States and the United Kingdom of Great Britain and Ireland which provided for closed mails through the U.S. This treaty was concluded in London on December 15, 1848, proclaimed effective in the U.S. on February 15, 1849, and later supplemented by twenty four articles agreed to in May 1849 that became effective on July 1, 1849. The article discusses the provisions of the treaty as they applied to Cuba. The author uses two examples to show the rating of letters handled under the closed mail arrangements through the United States.

WINTER, Richard F.
North Atlantic Mail Sailings 1840-75
Co-author: Walter Hubbard (see <HUBB8800>)
The book is a thorough compilation of sailing lists for all the ocean contract mail steamship lines operating on the North Atlantic from 1840 to 1875. Each chapter of the book concentrates on a contract mail steamship line, provides a historical background of each line, and lists the departure and arrival dates in chronological order of each leg of all round trips made by the ships operated by the line together with the name of the ship. Additionally, known irregularities or deviations from regular operations are noted for many of the listed trips. Quoting Mr. Winter: The book “provides a comprehensive listing of the sailings of all the mail steamers that carried letters across the Atlantic under the treaties described by Hargest [see <HARG7100>] and with the rates listed by Starnes [see <STAR8200>]. From these sailing tables, collectors can find the departure and arrival dates of the steamships that conveyed the mails across the Atlantic.” The book is an invaluable tool for the Cuban philatelist in analyzing the routing and markings of mail from and to Cuba that traversed the Atlantic on one of the listed contract mail steamship lines during the period covered by the book.

PHJ, No.91, May 1992, pp.18-34 (17), ill. See <WINT9105> for predecessor article.
This is a brief tutorial on how to do postal history research using as examples two covers, one of which originated in Havana, Cuba. The postal markings on the cover are identified and analyzed and conclusions about the cover’s place of origin and routing are presented. In presenting the conclusions, the author discusses the train of reasoning that led to them along with some of the resources that the researcher may use to help in the endeavor.

Understanding Transatlantic Mail, Volume 1
This book is a treatise on transatlantic mail between the U.S. and Europe in the 19th Century with chapters covering mail to and from Bremen, Britain, Prussia, and France. Since Cuban mail to European countries other than Spain was frequently routed through the U.S., the book is invaluable in understanding the routing markings on such mail from and to Cuba, and contains many examples of such mail. Look in the index for listings of covers originating in Cuban cities (Havana and Santiago) and listings of covers with destination to Cuban cities (Cienfuegos, Havana). This book was followed by Volume 2 in 2009 (see <WINT0900>) which is an equally impressive continuation of Volume 1.

Since Cuban mail to European countries other than Spain was frequently routed through the U.S., the book is invaluable in understanding the routing markings on such mail from and to Cuba, and contains many examples of such mail. WPG, Vol.18, No.34, WNo.627, 11 Nov. 1933, pp.1057-1058, 1073-1074, ill.
The article provides a brief history of Cuba from the Spanish colonial period to the early 1930s using Cuban stamps of that period to illustrate the historical events around them. Stamps covered range from the first issue of Spanish colonial Cuba depicting Queen Isabella II up to the 15 Mar 1930 issue commemorating the 2nd Central American Athletic Games.

Short paragraph at the bottom of the third column on the page mentioning that letters with Spanish stamps from the three ex-Spanish colonies are frequently received bearing Spanish colonial stamps stamped "collect postage due". Also mention that mail is exchanged via steamship from Miami to and from and from Cuba and Puerto Rico five times weekly. Finally, mention that on January 10 new military station No.28 was opened at Santa Clara, Santa Clara Province, Cuba, providing money order and registry services besides regular mail services.

"Appearance of 2c Cuba Provisional and Comment"
*WPE*, Vol.13, No.21, WNo.301, 18 Feb 1899, p.185 (front page).
Report that a 2c de peso surcharged on 2c U.S. has made its appearance, supposedly produced using the same plate that was used to surcharge the 2½ c de peso by just removing the fraction. The writer assumes that the 2½ c stamps will be in great demand among dealers since no more stamps of that denomination will be surcharged henceforth.

"Brooklyn-New York Letter"
WPE, Vol.13, No.23, WNo.303, 4 Mar 1899, p.213.
Report from the U.S. P. O. Department that U.S. stamps surcharged "Cuba" on mail addressed to Cuba is not
allowable. The report also indicates that on mail matter leaving Cuba only the provisional U.S. stamps surcharged
"Cuba" would be allowed, with the exception of mail from U.S. Army and Navy personnel that have the
privilege of using U.S. stamps on their mail at the local rates, whereas the foreign letter rate for Cuba is 5c per
half ounce.

"Our Boston Letter"
Report from Havana that all stamps surcharged 2 ½ c have been sold; also noticing that the stamp is found in four
distinct shades (Scott 223 and 223A and varieties). Also the report of a "CUPA" error in the last printing of the 1c
de peso on 1c US stamp.

"Weekly Letter from the Hub"
Incorrect correction to "Our Boston Letter" stating that the report of the error from Mr. Carpenter should have read "1c
stamp instead of 2c" when in fact the correction should have read "2c stamp instead of 1c". The update also
indicates that the error is said to have been caused by accident in cutting out the fraction from the old plate and
that it occurs in the 99th position on the sheet of 100 stamps.

Report of the number of definitive stamps, envelopes, and wrappers requested by the U.S. Postmaster General for Cuba, and listing of the existing provisional envelopes. This is followed by a paragraph describing in detail the new special delivery stamp for Cuba (Scott E2).
Notes on plate numbers of the 1899 issue under U.S. administration. Also indication that a 2c amber surcharged envelope received from Matanzas was not a rarity as had been reported, since 3,000 of them were found to be available in the Havana post office upon further inquiries.

Report that the new Cuban envelopes have been sent to Havana. Also report of the denominations and quantities of stamps to be issued for Cuba in the next fiscal year.

Report from a regular correspondent (initials S.E.L.) that he has seen the Cuba 2c white envelope with a double surcharge and also with the two lines of the surcharge in the lower left corner of the envelope, and finally, the 1c green on buff envelope without any return request.

Report that 25 sets of die proofs had been struck for the 1899 issue. Also report that the new Cuban envelopes had not been received yet in Washington, DC.

Notice that the Post Office Department officials in Havana have refused to sell the new envelopes before the new Cuban stamps arrive, and that the latter will probably not be available until August 1st at best.

Report that the 5c U.S. stamp surcharged Cuba (Scott 225) with the error "CUPA" comes perforated only on three sides. Also report that the 10c stamp surcharged Cuba (Scott 226) comes in both a light and a very dark brown.

Report of the delay in the printing of the new set of Cuban stamps due to the unavailability of unwatermarked paper for their printing so that they will not be ready to be shipped until mid-August. The delay in the printing of the stamps will also delay the sale of envelopes which are to be issued jointly with the stamps once they arrive in Cuba.
Report that the new envelopes and wrappers received in Havana are not to be placed on sale until the new stamps also arrive, delaying their sale until about September 1. Also report that the surcharged envelopes are almost exhausted and that a new order of them, including new sizes and colors has been placed with the excuse that there is great demand for them. Finally, report that an order of 2c surcharged envelopes on buff with the "Miró y Otero" corner card was received by said firm, which had been expecting instead to receive the new envelopes.

"Boston Notes"
MK, Vol.13, No.6, WNo.423, 29 Feb 1899, p.60.
Wondering about the retail price that the Cuban 2 1/2c surcharged stamps (Scott 223) should command in face of the numbers printed and the timing of the placement of the 2c stamps (Scott 222) in circulation.

Wylie, Willard G.
"Boston Notes"
Report that the U.S.2c carmine on amber envelopes surcharged 2c. de peso for use in Cuba are on sale for 25c [presumably in Boston] while at the same time the author's Matanzas correspondent reports that he tried to buy some at the Havana post office eight weeks earlier and was not able to obtain any.

"Boston Notes"
Report that some 2c. de peso Cuban surcharged envelopes, carmine on blue, green on amber and green on buff that are on sale in Boston have been reported to be fakes. Note that the green on amber and green were 1c envelopes, not 2c. Fakes of these covers may exist, but if they do, they are not commonplace, so this report probably had no basis.

“It’s Worth Mentioning: U.S. stamps overprinted for use in Cuba…”
WSC, 3 Jun 1947, p.3.
Comments on the contrast between the popularity of collecting the U.S. stamps overprinted for use in Cuba (Scott 221-226) and the lack of interest in the definitive pictorial series issued by the U.S. in 1899 (Scott 227-231) that collectors should also consider to be U.S. stamps. Also, reference to the contract issued to the American Banknote Company by the Republic of Cuba for the printing of the first stamp series of the Republic (Scott 233-237), noting that they are listed in the catalogs as re-engravings of Scott 227-231, but that a correspondent, H.S. Dickey, believes they were produced from new dies since they are a “generous” millimeter larger than the former.

“It’s Worth Mentioning: Castro’s Cuba issued 2 centavos, 3 centavos and 10 centavos to commemorate the first anniversary of the Bay of Pigs invasion…”
WSC, 26 May 1962, p.4.
This brief new issue report is worth citing because it mentions the fact that one of the designs shows a plane falling in flames from the sky which the author notes “is interesting in view of the fact that airplanes didn’t participate in the invasion”.
